The following is an index of the major topics addressed in the AANA Journal during 2016. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

A
AANA Foundation Joint Research Program, developing health services research agenda using modified Delphi method, 234
AANA Journal Course 1: Update for nurse anesthetists. Thromboelastography: clinical application, interpretation, and transfusion management, 129
AANA Journal Course 2: Update for nurse anesthetists. Tranexamic acid in anesthetic management of surgical procedures, 201
AANA Journal Course 3: Update for nurse anesthetists. Awareness with recall: a systematic review, 283
AANA Journal Course 4: Update for nurse anesthetists. Perioperative vision loss: considerations and management, 363
AANA Journal Course 5: Use of tranexamic acid in preventing postpartum hemorrhage, 427
AANA Journal Course 6: Update for nurse anesthetists. Residual neuromuscular blockade, 57
Abercrombie, C. See Falyar, C; Abercrombie, C; Becker, R; and Biddle, C: Intrathecal spread of injectate following an ultrasound-guided selective C5 nerve root injection in a human cadaver model, 80
ACE inhibitors in treating intraoperative refractory hypotension, 413
Adverse events, design of evidence-based second victim curriculum for nurse anesthetists, 107
Airway management: laryngeal mask airway and valsalva maneuver during ophthalmic surgery, 423; maintenance of oxygenation during, 322
Alwon K. and Hewer, Ian: Perioperative vision loss: considerations and management, 363
Alwon K. See Mayeux J; Alwon K; Collins S; Hewer I: Tranexamic acid in anesthetic management of surgical procedures, 201
American Association of Nurse Anesthetists (AANA): strategies for increasing association membership, 396. See also AANA entries
Algesia: longest duration of, for single injection peripheral nerve blocks in orthopedic surgery, 95; patient-controlled epidural, 159
Anesthesia: adjuvants for single injection peripheral nerve blocks in orthopedic surgery, 95; awareness with recall and, 283; changing endotracheal tube taping practice in, 261; considerations for patients with cyclic vomiting syndrome, 52; considerations of stiff-person syndrome: a case report, 181; design of evidence-based second victim curriculum for nurse anesthetists, 107; factors influence patient safety during postoperative handover, 329; management of unstable cervical spine, 280; nonpharmacologic neuraxial interventions for postdural puncture headache in the obstetric patient, 15; pseudocholinesterase deficiency in patient undergoing TIVA with planned motor evoked potential monitoring, 198; pulse perfusion values in predicting eye opening after intravenous, 255; tranexamic acid in management of surgical procedures, 201; use of personal electronic devices by nurse anesthetists, and effects on patient safety in, 114
Anesthesia information management system, economic barriers of, 316
Antifibrinolytics, tranexamic acid in anesthetic management in surgical procedures and, 201
Apneic oxygenation in prolonging the period of safe apnea, 322
Army Nurse Corps, World War II experience of Simonson, Adeline as, 309
Arthroscopy, hypotensive/bradycardic episode leading to asystole in patient undergoing shoulder, in the sitting position with interscalene block and intravenous sedation, 27
Assessment: evaluation of testing as method for continued competency in nurse anesthesia practice, 239; structured, tool to evaluate nontechnical skills of nurse anesthetists, 122
Association membership, strategies for increasing, 396
Asystole, hypotensive/bradycardic episode leading to, in patient undergoing shoulder arthroscopy in the sitting position with interscalene block and intravenous sedation, 27
Attaallah, Ahmed F. See Lindstrom, Eric J. and Attaallah, Ahmed F: Novel use of clevidipine for intraoperative blood pressure management in patients with pheochromocytoma, 343
Austin, P. See Suescun, H; Austin, P; and Gabaldon, D: Nonpharmacologic neuraxial interventions for prophylaxis of postdural puncture headache in the obstetric patient, 15
Awareness with recall, 283

B
Baker K. See Riddle D; Baker K; Sapp A: Evaluation of testing as a method to assess continued competency in nurse anesthesia practice: a systematic review, 239
Bariatric surgery, effective ventilation strategies for obese patients undergoing, 35
Bauer, Marshall, experience of, with Army Nurse Corps in World War II, 309
Becker, R. See Falyar, CR; Abercrombie, C.; Becker, R.; and Biddle, C: Intrathecal spread of injectate following an ultrasound-guided selective C5 nerve root injection in a human cadaver model, 80
Biddle, C.: The editor’s desk, 304, 395. See Falyar, CR; Abercrombie, C.; Becker, R.; and Biddle, C: Intrathecal spread of injectate following an ultrasound-guided selective C5 nerve root injection in a human cadaver model, 80
Biegner, A: See Mach, J; Van Havel, T; Gadwell, J and Biegner, A: Intrathecal opioid-induced hypothermia following subarachnoid block with morphine injection for elective cesarean delivery, 23
Binkley C: Unknown pseudocholinesterase deficiency in a patient undergoing TIVA with planned motor evoked potential monitoring: a case report, 198
Biographies: of Gunn, Ira, 14; of Simpson, Adeline, 309
Bloodless surgery for Jehovah witnesses, 173
Blood pressure management, novel use of clevidipine for intraoperative, in patients with pheochromocytoma, 343

Books, Etc: Drug/Drug Interactions, 158; Ira Gunn, Nurse Anesthetist: Writings and Wisdom from a Legendary Nursing Leader, 14

Brachial plexus, intrathecal spread of injectate following ultrasound guided selective C5 nerve root injection in human cadaver model, 80

Breaking through the economic barriers of anesthesia information management systems, 316

Briggs, Joanna, Institute method in evaluating testing in assessing competency in nurse anesthesia practice, 239

Brogdon, S.: Letter to the editorial committee, 11

Calcium channel blockers, use of clevidipine for intraoperative blood pressure management in patients with pheochromocytoma and, 343

Calendar of Events, 66, 136, 210, 289, 371, 448

Campbell YN; Machan MD; Fisher MD: The Jehovah’s Witness population: considerations for preoperative optimization of hemoglobin, 173

Cannabinoid hyperemesis syndrome, anesthetic considerations for patients with, 52

Captain of the ship argument, navigating, 392

Carbon dioxide: physiology during apneic oxygenation, 322; pulse perfusion values in predicting eye opening after intravenous anesthesia, 255

Case reports: anesthetic considerations of stiff-person syndrome, 181; anesthetic management of unstable cervical spine, 280; hypotensive/bradycardic episode leading to asystole in a patient undergoing shoulder arthroscopy in the sitting position with interscalene block and intravenous sedation, 27; intrathecal opioid-induced hypothermia following subarachnoid block with morphine injection for elective cesarean delivery, 23; laryngeal mask airway and valsalva maneuver during ophthalmic surgery, 423; laryngospasm as cause of unsuccessful placement of laryngeal mask placement, 420; pseudocholinesterase deficiency in patient undergoing TIVA with planned motor evoked potential monitoring, 198

Castner J. See Mann CL. See Hedman KF; Mann CL; Spulecki C; Castner J: Low-dose vasopressin and analogues to treat intraoperative refractory hypotension in patients prescribed angiotensin-converting enzyme inhibitors undergoing general anesthesia: a systematic review, 413

Catecholamine surge, use of clevidipine for intraoperative blood pressure management in patients with pheochromocytoma and, 343

Catheters: apneic oxygenation and, 322; epidural placement, 370; ultrasound-guided placement of difficult-to-place venous, 390; ultrasound-guided placement of difficult-to-place, 86

Caution: predatory journals want your business, 79

Central venous catheters, ultrasound-guided placement of difficult-to-place, 86

Certified Registered Nurse Anesthetists: developing health services research agenda using modified Delphi method, 234; strategies for increasing association membership, 396. See also Nurse anesthetists

Cervical spine, anesthetic management of unstable, 280

Cesarean delivery: intrathecal opioid-induced hypothermia following subarachnoid block with morphine injection for elective, 23; need for postoperative supplementary oxygen in low-risk, 358. See also Obstetrics

Changing endotracheal tube tapping practice: an evidence-based practice project, 261

Chemoprophylaxis, venous thromboembolism prophylaxis in plastic surgery, 167

Chemosis, dorzolamide-timolol for rising intraocular pressure during steep Trendelenburg position surgery, 189

Children, apneic oxygenation in, 322

Chilkoti GT and Saxena A: Anesthetic management of unstable cervical spine: Is intubating LMA CTrach a right choice? A case report, 280

Chilkoti GT; Mohta M; Janani S: Laryngospasm as a cause of unsuccessful mask proseal: a case report, 420

Clavicle fracture, intrathecal spread of injectate following ultrasound guided selective C5 nerve root injection in human cadaver model, 80

Clements S M. See Courture, D; Osborne, L; Peterson, J A; Clements S M; Sanders, A; Spring J A; Spence D L: Effects of a 30-mL epidural normal saline bolus on time to full motor recovery in parturients who received patient-controlled epidural analgesia with 0.125% bupivacaine with 2 µg/mL of fentanyl., 159

Clevidine, novel use of, for intraoperative blood pressure management in patients with pheochromocytoma, 343

Coagulants, tranexamic acid in anesthetic management in surgical procedures and, 201

Coagulation cascade, thromboelastography and, 129

Coagulation, thromboelastography and, 129

Collins, S; Maclntyre, C; Hewer, I: Thromboelastography: clinical application, interpretation, and transfusion management, 129

Collins S. See Mayeux J; Alwon K; Collins S; Hewer I: Tranexamic acid in anesthetic management of surgical procedures, 201

Communication, factors influencing patient safety during postoperative handover, 329

Competency, evaluation of testing as method of assessing continued, in nurse anesthesia practice, 239

Complications, nonpharmacologic neuraxial interventions for postdural puncture headache in the obstetric patient, 15

Cong X. See Molloyl Bl.; Cong X; Watson C: Preventive dorzolamide-timolol for rising intraocular pressure during steep Trendelenburg position surgery, 189

Consensus, developing agenda in nurse anesthesia agenda using modified delphi method, 234

Contamination, in endotracheal tube tapping practice, 261

Continuing education for your success, 230

Cosimano, Amy J. See Cosimano, Amy J., and O’Sullivan, Cormac T: Breaking through the economic barriers of anesthesia information management systems, 316; Gutmann, Brian A

Cost reduction, economic barriers of anesthesia information management systems and, 316

Courture, D; Osborne, L; Peterson, J A; Clements S M; Sanders, A; Spring J A; Spence D L: Effects of a 30-mL epidural normal saline bolus on time to full motor recovery in parturients who received patient-controlled epidural analgesia with 0.125% bupivacaine with 2 µg/mL of fentanyl., 159

Crisis simulation, effect of nontechnical skills intervention on first-year student registered nurse anesthetists’ skills during, 46

Critical access hospitals, economic barriers of anesthesia information management systems in, 316

Cyclic vomiting syndrome, anesthetic considerations for the patient with, 52

440 AANA Journal ◆ December 2016 ◆ Vol. 84, No. 6 www.aana.com/aanajournalonline
Daniels, R. G. and McCorkle, R: Design of an evidence-based second victim curriculum for nurse anesthetists, 107
Deep vein thrombosis, venous thromboembolism prophylaxis in plastic surgery and, 167
DeGuzman P. See Goode V; Phillips E; DeGuzman P; Hinton I; Rovnyak V; Scully K; Merwin E: A patient safety dilemma: obesity in the surgical patient., 404
Delphi method, developing a health services research agenda in nurse anesthesia using modified, 234
Depth-of-anesthesia monitors, awareness with recall and, 283
Desaturation, postoperative supplemental oxygen in low-risk cesarean delivery and, 358
Design of an evidence-based second victim curriculum for nurse anesthetists, 107
Developing a health service agenda in nurse anesthesia using a modified Delphi method, 234
Dexmedetomidine, prolongation of subarachnoid block with concomitant use of intravenous, 271
Dibucaine number, pseudocholinesterase deficiency in patient undergoing TIVA with planned motor evoked potential monitoring and, 198
Dieckmann, P. See Lyk-Jensen, HT Dieckmann, P; Kronge, L; Jepsen, Spanager, L; Ostergaard: Using a structured assessment tool to evaluate nontechnical skills of nurse anesthetists, 122
Difficult intravenous access (DIVA), ultrasound-guided placement of, 86
Disinfection in endotracheal tube taping practice, 261
Dural puncture, nonpharmacologic neuraxial interventions for postdural puncture headache in the obstetric patient, 15

Economic barriers of anesthesia information management system, 316
The editor's desk, 304, 395
Education: continuing, for your success, 230; design of evidence-based second victim curriculum for nurse anesthetists, 107; effect of nontechnical skills, on first-year student registered nurse anesthetists' skills during crisis simulation, 46; residual neuromuscular blockade in, 57; structured assessment tool to evaluate nontechnical skills of nurse anesthetists in, 122; ultrasound-guided placement of difficult-to-place venous catheters, 390
Effective ventilation strategies for obese patients undergoing bariatric surgery, 33
Effects of a 30-ml epidural normal saline bonus on time to full motor recovery in parturients who received patient-controlled epidural analgesia with 0.125% bupivacaine with 2 µg/mL of fentanyl, 159
Effects of a nontechnical skills intervention on first-year student registered nurse anesthetists' skills during crisis simulation, 46
Effects of ultrasound-guided placement of difficult-to-place venous catheters, 86
Effects of ultrasound-guided placement of difficult-to-place venous catheters: a prospective of a training program for nurse anesthetists, 390
Elective surgery for Jehovah witnesses, 173
Electroencephalograms, awareness with recall and, 283
Electronic health records, economic barriers of anesthesia information management systems, 316
Endotracheal tube, changing taping practice, 261
Enekvist B and Johansson A: Pulse perfusion values to predict eye opening after intravenous anesthesia: an explorative study, 255
Epidural catheter placement, nonpharmacologic neuraxial interventions for postdural puncture headache in the obstetric patient, 15
Evaluation of testing as a method to assess continued competency in nurse anesthesia practice: a systematic review, 239
Evidence-based practice project, changing endotracheal tube taping practice in, 261
Evidence-based reviews, prolongation of subarachnoid block with concomitant use of intravenous dexmedetomidine, 271
Evoked potential monitoring, pseudocholinesterase deficiency in patient undergoing TIVA with planned motor, 198
Explorative studies, pulse perfusion values to predict eye opening after intravenous anesthesia, 255
Exploring strategies to increase and sustain membership in the American Association of Nurse Anesthetists, 396
Eye opening, pulse perfusion values in predicting, after intravenous anesthesia, 255

Factors influencing patient safety during postoperative handover, 329
Falyar, CR.; Abercrombie, C.; Becker, R.; and Biddle, C: Intrathecal spread of injectate following an ultrasound-guided selective C5 nerve root injection in a human cadaver model, 80
Farina CA; Wilson W; FitzSimmons K: Exploring strategies to increase and sustain membership in the American Association of Nurse Anesthetists, 396
Feyh, LS. See Patacchil, JA; McAuliffe, MS; Feyh, LS; Sigmon, LL.: Local anesthetic adjuvants providing the longest duration of analgesia for single-injection peripheral nerve blocks in orthopedic surgery, 95
Fisher MD. See Campbell YN; Machan MD; Fisher MD: The Jehovah’s Witness population: considerations for preoperative optimization of hemoglobin, 173
Fisher M. See Vera CM; Umadhay T; Fisher M: Laundering methods for reusable surgical scrubs: a literature review, 246
FitzSimmons K. See Wilson W. See Farina CA; Wilson W; FitzSimmons K: Exploring strategies to increase and sustain membership in the American Association of Nurse Anesthetists, 396
G
Gabaldon, D. See Suescun, H; Austin, P; and Gabaldon, D: Nonpharmacologic Neuraxial Interventions for Prophylaxis of Postdural Puncture Headache in the Obstetric Patient, 15
Gadwell, J. See Mach, J; Van Havel, T; Gadwell, J; and Biegner, A: Intrathecal Opioid-induced hypothermia following subarachnoid block with morphine injection for elective cesarean delivery, 23
General anesthesia, vasopressin and analogues in treating hypotension in patients undergoing, 413
Glymph D; Tubog TD; Vendenikina M. AANA Journal Course 5: Use of tranexamic acid in preventing postpartum hemorrhage., 427
Goode V; Phillips E; DeGuzman P; Hinton I; Rovnyak V; Scully K; Merwin E: A patient safety dilemma: obesity in the surgical patient., 404
In defense of P values, 305

Information management system, economic barriers of anesthesia, 316

Interscalene block, hypotensive/bradycardic episode leading to asystole in patient undergoing shoulder arthroscopy in the sitting position with intravenous sedation and, 27

Intraocular pressure, dorzolamide-timolol for rising, in steep Trendelenburg position surgery, 189

Intraoperative awareness, systematic review of, 283

Intraoperative blood pressure management, use of clevidine for, in patients with pheochromocytoma, 343

Intraoperative refractory hypotension, vasopressin and analogues in treating, 413

Intrathecal injection following ultrasound-guided selective C5 nerve root injection in human cadaver model, 80

Intrathecal opioid-induced hypothermia following subarachnoid block with morphine injection for elective cesarean delivery, 23

Intrathecal spread of injectate following an ultrasound-guided selective C5 nerve root injection in a human cadaver model, 80

Intratracheal catheters, apneic oxygenation and, 322

Intravenous anesthesia: prolongation of subarachnoid block with concomitant use of dexmedetomidine, 271; pulse perfusion values to predict eye opening after, 255

Intravenous sedation, hypotensive/bradycardic episode leading to asystole in patient undergoing shoulder arthroscopy in the sitting position with interscalene block, 27

Ischemic optic neuropathy, preventive dorzolamide-timolol for rising intraocular pressure during steep Trendelenburg position surgery, 189

J

Janani S. See Chilkoti GT; Mohta M; Janani S: Laryngospasm as a cause of unsuccessful mask proseal: a case report, 420

The Jehovah’s Witness population: considerations for preoperative optimization of hemoglobin, 173

Jehovah witnesses, bloodless surgery for, 173

Jepsen, RMHG. See Lyk-Jensen, HT; Dieckmann, P; Kronge, L; Jepsen, RMHG; Spanager, L; Ostergaard: Using a structured assessment tool to evaluate nontechnical skills of nurse anesthetists, 122

Jirakulsawat, Anchala. See and Jirakulsawat: Postoperative supplemental oxygen is unnecessary in low-risk cesarean delivery parturients under spinal anesthesia: an observational study, 358; Kunawudhi, Arpakorn; Nimmannit, Akaqrin; Siriuwawakul, Arunotai; Triyasunant, Namtip

Johannsson A. See Enekvist B and Johansson A: Pulse perfusion values to predict eye opening after intravenous anesthesia: an explorative study, 255

Johnson WL and Pugh MA: Prolongation of subarachnoid block with concomitant use of intravenous dexmedetomidine: An evidence-based review, 271

Jordan L; Tselentis H; Quraishi J: Developing a health service agenda in nurse anaesthesia, 316

Jørgensen, VLN. See Parto-Deilami, K; Nielsen, JK.; Moller, AM; Nesheim, SS; Jorgensen, VL: Effect of ultrasound-guided placement of difficult-to-place peripheral venous catheters, 86

K

Klingbeil R. See Lovett P.; Klingbeil R; Reimer R; Shine T: Laryngeal mask airway and valsalva maneuver during ophthalmic surgery: a case report, 423
MC

Machan MD. See Campbell YN; Machan MD; Fisher MD:
The Jehovah’s Witness population: considerations for
preoperative optimization of hemoglobin, 173
Machan MD. See Krug L; Machan MD; Villalba J: Changing
endotracheal tube taping practice: an evidence-based practice project, 261
Mach; J; Van Havel; T; Gadwood; J and Biegnar; A: Intrathecal
opioid-induced hypothermia following subarachnoid block
with morphine injection for elective cesarean delivery, 23
MacIntyre, C; See Collins, S; MacIntyre, C; Hewer, I:
Thromboelastography: clinical application, interpretation,
and transfusion management, 129
Mann CL. See Hedman KF; Mann CL; Spulecki C; Castner J:
Low-dose vasopressin and analogues to treat intraoperative refractory hypotension in patients prescribed angiotensin-
converting enzyme inhibitors undergoing general anesthesia: a systematic review, 413
Mayeux J; Alwon K; Collins S; Hewer I: Tranexamic acid in
anesthetic management of surgical procedures, 201
Mcauliffe, Maura S. See Fataciosil, Jason A; Mcauliffe, MS;
Feyh, LS; Sigmon, LL: Local anesthetic adjuvants providing the
longest duration of analgesia for single-injection peripheral nerve blocks in orthopedic surgery, 95
McCorkle, R. See Daniels, RG and McCorkle, R: Design of
an evidence-based second victim curriculum for nurse
anesthetists, 107
Media policy, use of personal electronic devices by nurse
anesthetists, and effects on patient safety in, 114
Merwin E. See Goode V; Phillips E; DeGuzman P; Hinton I;
Rovnyak Y; Scully K; Merwin E: A patient safety dilemma:
obesity in the surgical patient., 404
Migraine headaches, anesthetic considerations for patients
with cyclic vomiting syndrome, 52
Miller, Ann B. See Pratt, Matt, and Miller, Ann B: Apneic
oxygenation: a method to prolong the period of safe
apnea, 322
Moersch-Woltman syndrome, anesthetic considerations of,
181
Mohta M. See Chilkoti GT; Mohta M; Janani S: Laryngospasm
as a cause of unsuccessful mask proseal: a case report, 420
Molloy BL; Cong X; Watson C: Preventive dorzolamide-
timolol for rising intraocular pressure during steep
Trendelenburg position surgery, 189
Morphine injection (Duramorph), intrathecal opioid-induced
hypothermia following subarachnoid block with, for
elective cesarean delivery, 23
Motor block in patient-controlled epidural analgesia, 159
Motor evoked potentials, pseudocholinesterase deficiency in
patient undergoing TIVA with planned monitoring, 198
N
Nasal prongs, apneic oxygenation and, 322
Nasopharyngeal catheters, apneic oxygenation and, 322
Navigating the “captain of the ship argument,” 392
Nerve block, local anesthetic adjuvants for single injection
peripheral, in orthopedic surgery, 95
Nesheim, SS. See Nielsen, JK See Partovi-Delami, K; Nielsen,
Jesper K; Moller, AM; Nesheim, SS; Jorgensen, VL: Effect of
ultrasound placement of difficult-to-place peripheral
venous catheters, 86
Neuraxial interventions for prophylaxis of postural puncture
headache in the obstetric patient, 13
Neuromuscular blockade, residual, 57
Newman, Susan D. See Rose, Monica, and Newman, Susan

Konge, L. See Lyk-Jensen, HT; Dieckmann, P; Kronge,
L; Jepsen, RMHG; Spanager, L; Ostergaard: Using a
structured assessment tool to evaluate nontechnical skills of
nurse anesthetists, 122
Krug L; Machan MD; Villalba J: Changing endotracheal tube
taping practice: an evidence-based practice project, 261
Kubicki D: Effects of ultrasound-guided placement of
difficult-to-place peripheral venous catheters: a prospective
of a training program for nurse anesthetists, 390
Kunawudhi, Arpakorn. See and Jirakulsawat: Postoperative
supplemental oxygen is unnecessary in low-risk
cesarean delivery parturients under spinal anesthesia:
an observational study, 338; Kunawudhi, Arpakorn;
Nimmannit, Akaqrin; Siriuwansakul, Arunotai;
Triyasunant, Namtip

L

Laryngeal mask airway: anesthetic management of unstable
cervical spine and, 280; valsalva maneuver and during
ophthalmic surgery: a case report, 423
Laryngeal mask Proseal, laryngospasm as cause of
unsuccessful placement of, 420
Laryngospasm as a cause of unsuccessful mask proseal: a case
report, 420
Laundering methods for reusable surgical scrubs, 246
Legal Briefs: Navigating the “captain of the ship argument,” 392
Letters: caution: predatory journals want your business, 79;
on combat anesthesia, 155; to the editorial committee, 11;
hazardous intraoperative behaviors: what’s at risk?, 155;
prevention of prospective and current certified
registered nurse anesthetists second victims, 227;
thromboelastography: clinical application, interpretation,
and transfusion management, 227
Lindstrom, Eric J., and Attaallah, Ahmed F: Novel use of
clevodipine for intraoperative blood pressure management
in patients with pheochromocytoma, 343
Literature review: anesthetic adjuvants for single injection
peripheral nerve blocks in orthopedic surgery, 95; design
of evidence-based second victim curriculum for nurse
anesthetists, 107; effective ventilation strategies for obese
patients undergoing bariatric surgery, 35; laundering
methods for reusable surgical scrubs, 246; preventative
dorzolamide-timolol for rising intraocular pressure during
steep Trendelenburg position surgery, 189; prolongation
of subarachnoid block with concomitant use of intravenous
dexamethomidine and, 271; venous thromboembolism
prophylaxis in plastic surgery, 167
LMA (Laryngeal Mask Airway) CTrach, in anesthetic
management of unstable cervical spine, 280
LMA Proseal, laryngospasm as cause of unsuccessful
placement of, 420
Local anesthetics, for single injection peripheral nerve blocks
in orthopedic surgery, 95
