

AUTHORS
Elizabeth Wong, CRNA, MSN, is a staff member at Kaiser Permanente Woodland Hills Medical Center, Woodland Hills, California. At the time this research was conducted, she was a staff member of the Los Angeles County and the University of Southern California Medical Center, Los Angeles. Email: lizwong6@gmail.com.

Qiaowu Li, MS, is a data analyst for the Department of Research and Evaluation, Kaiser Permanente Southern California, Pasadena.

ACKNOWLEDGMENT
The authors would like to thank the CRNA clinical faculty and NAEP academic faculty who completed the survey. In addition, the authors would like to acknowledge Michele Gold, CRNA, PhD, and Gordon Hands, CRNA, BS, for their insightful critique of the manuscript.

Authors’ Correction
In the February 2011 article, “CRNA Prescribing Practices: The Washington State Experience,” by Kaplan et al, the state of Rhode Island was incorrectly labeled as New Jersey. Below is the corrected Figure, which now appears in the electronic version of the article on the AANA website.

![Prescriptive Authority by State for Certified Registered Nurse Anesthetists](image_url)

**Figure.** Prescriptive Authority by State for Certified Registered Nurse Anesthetists
Source: Review of the statutes and rules of each state and consultation with Boards of Nursing staff when needed.
