

The following is an index of the major topics addressed in the AANA Journal during 2009. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

- A**
- AANA Journal Course No. 28 Examination Information—Update for nurse anesthetists, 147
- AANA Journal Course No. 28 Examination—Update for nurse anesthetists (answer form), 148
- AANA Journal Course No. 28 Examination—Update for nurse anesthetists (examination questions), 152
- AANA Journal Course No. 28 Examination—Update for nurse anesthetists (examination answers), 310
- AANA Journal Course No. 28–2009 Evaluation Form, 149
- AANA Journal Course
- Part 6—Should I continue or discontinue that medication? 59; Part 1—The cerebral oximeter: What is the efficacy? 137; Part 2—Simmelweis revisited: Hand hygiene and nosocomial disease transmission in the anesthesia workstation, 229; Part 3—New drug, fospropofol disodium: A propofol prodrug, 301; Part 4—Myocardial infarction and subsequent death in a patient undergoing robotic prostatectomy, 365; Part 5—Evaluation of older adults, 451
- Abdominal surgery see State of the Science general and oral poster sessions, A35; A48
- Accreditation
- see Education News, 19; Council on Accreditation of Nurse Anesthesia educational programs to be reviewed during fiscal year 2010, 75; see State of the Science general and oral poster sessions, A52
- ACLS see Advanced cardiac life support
- Acute hypotension in a patient undergoing posttraumatic cervical spine fusion with somatosensory and motor-evoked potential monitoring while under total intravenous anesthesia: A case report, 38
- Acute pain see State of the Science general and oral poster sessions, A26
- Adams C see Heese T
- Adams GW see State of the Science general and oral poster sessions, A1
- Adams KR see State of the Science general and oral poster sessions, A2
- Addiction see Imagining in Time, 254
- Admission requirements, educational see State of the Science general and oral poster sessions, A1; A47
- α_2 -Adrenergic agonists and their role in the prevention of perioperative adverse cardiac events, 103
- Advanced cardiac life support see State of the Science general and oral poster sessions, A24; A25
- Adverse effects
- see AANA Journal Course, Part 6, 59; Extended-release epidural morphine vs continuous peripheral nerve block for management of postoperative pain after orthopedic knee surgery: A retrospective study, 349; see State of the Science general and oral poster sessions, A8; A20; A30; A36; A38; A57
- Adverse events see State of the Science general and oral poster sessions, A21
- Advocacy see Imagining in Time, 254
- Affective behaviors see State of the Science general and oral poster sessions, A25
- Age factors
- Factors at admission associated with 4 months outcome in elderly patients with hip fracture, 49; see State of the Science general and oral poster sessions, A42, A47; see AANA Journal Course, Part 5, 451
- Aho LE see State of the Science general and oral poster sessions, A37
- Airway
- Rescue ventilation: Resolving a “cannot mask ventilate, cannot intubate” situation during exchange of a Combitube for a definitive airway, 339; see State of the Science general and oral poster sessions, A7; A14; A44; A56; A63; A68; Airway management in a bleeding adult following tonsillectomy: A case report, 428; Clinical benefits of visualization of airway anatomy and manipulation of the endotracheal tube cuff with the GlideScope in the morbidly obese patient during tracheotomy, 437
- Airway management in a bleeding adult following tonsillectomy: A case report, 428
- Albertini R see State of the Science general and oral poster sessions, A24
- Allergy risks see AANA Journal Course, Part 3, 301
- α_2 -Adrenergic agonists and their role in the prevention of perioperative adverse cardiac events, 103
- Alzheimer disease see State of the Science general and oral poster sessions, A42
- Ambulatory surgical centers
- New estimates for CRNA vacancies, 121
- γ -Aminobutyric acid
- Investigation of the anxiolytic effects of luteolin, a lemon balm flavonoid in the male Sprague-Dawley rat, 33; see State of the Science general and oral poster sessions, A38; Anxiolytic effects of L-theanine, a component of green tea, in the male Sprague-Dawley rat, 445
- Analgesia
- Bilateral transversus abdominis plane nerve blocks for analgesia following cesarean delivery: Report of 2 cases, 98; Will the addition of a sciatic nerve block to a femoral nerve block provide better pain control following anterior cruciate ligament repair surgery? 213; Effects of anesthetics and analgesics on natural killer cell activity, 287; see State of the Science general and oral poster sessions, A6; A17; A26
- Anesthesia machine see State of the Science general and oral poster sessions, A43
- Anesthesia care team
- CRNA-physician collaboration in anesthesia, 431
- Anesthesia providers
- Attitudes toward physician-nurse collaboration in anesthesia, 343; CRNA-physician collaboration in anesthesia, 431
- Anesthesia workstation see AANA Journal Course, Part 2, 229
- Anesthesia, dental see Letters, 170
- Anesthesia, intravenous
- Acute hypotension in a patient undergoing posttraumatic cervical spine fusion with somatosensory and motor-evoked potential monitoring while under total intravenous anesthesia: A case report, 38; see State of the Science general and oral poster sessions, A63

- Anesthetic considerations for the patient with hereditary hemorrhagic telangiectasia (Osler-Weber-Rendu syndrome), 115
- Anesthetic depth see State of the Science general and oral poster sessions, A15
- Anesthetic management of acute subcutaneous emphysema and pneumothorax following a Nuss procedure: A case report, 208
- Anesthetic management of an obstetric patient with Charcot-Marie-Tooth disease: A case study, 335
- Anesthetic management of a pregnant patient with an automatic implantable cardioverter-defibrillator: A case report, 29
- Angiotensin-converting enzyme inhibitors see *AANA Journal Course*, Part 6, 59
- Animal models see State of the Science general and oral poster sessions, A23; A32; A33; A60
- Anterior cruciate ligament repair
Will the addition of a sciatic nerve block to a femoral nerve block provide better pain control following anterior cruciate ligament repair surgery? 213; see Letters, 417
- Anticoagulants see *AANA Journal Course*, Part 6, 59
- Antidiabetic medications see *AANA Journal Course*, Part 6, 59
- Antiemetic requirements
Comparison of inhalation of isopropyl alcohol vs promethazine in the treatment of postoperative nausea and vomiting (PONV) in patients identified as at high risk for developing PONV, 293
- Antihypertensive agents see State of the Science general and oral poster sessions, A19; A62
- Anti-inflammatory action see State of the Science general and oral poster sessions, A16; A18
- Antinociceptive action see State of the Science general and oral poster sessions, A18
- Antioxidants see State of the Science general and oral poster sessions, A16
- Antiplatelet drugs see *AANA Journal Course*, Part 6, 59
- Antoinette SJ see State of the Science general and oral poster sessions, A3
- Anxiety see State of the Science general and oral poster sessions, A36
- Anxiolysis
Investigation of the anxiolytic effects of luteolin, a lemon balm flavonoid in the male Sprague-Dawley rat, 33; see State of the Science general and oral poster sessions, A38
- Anxiolytic effects of L-theanine, a component of green tea, in the male Sprague-Dawley rat, 445
- Apatov NM see Muckle TJ
- Apnea see State of the Science general and oral poster sessions, A69
- Apoptosis see State of the Science general and oral poster sessions, A64
- Ardizzone LL see State of the Science general and oral poster sessions, A21
- Aromatic therapy
Comparison of inhalation of isopropyl alcohol vs promethazine in the treatment of postoperative nausea and vomiting (PONV) in patients identified as at high risk for developing PONV, 293
- Arretche N see Jansen TK
- Arrhythmias
Anesthetic management of a pregnant patient with an automatic implantable cardioverter-defibrillator: A case report, 29
- Arteriovenous malformation
Anesthetic considerations for the patient with hereditary hemorrhagic telangiectasia (Osler-Weber-Rendu syndrome), 115
- Arthroplasty, knee
Extended-release epidural morphine vs continuous peripheral nerve block for management of postoperative pain after orthopedic knee surgery: A retrospective study, 349; see State of the Science general and oral poster sessions, A50
- ASA physical status
Factors at admission associated with 4 months outcome in elderly patients with hip fracture, 49
- Asepsis see State of the Science general and oral poster sessions, A29
- Asthma therapy see *AANA Journal Course*, Part 6, 59
- Attilio P see State of the Science general and oral poster sessions, A4
- Attitudes
State of the Science general and oral poster sessions, A15; A45; CRNA-physician collaboration in anesthesia, 431
- Attitudes toward physician-nurse collaboration in anesthesia, 343
- Auscultation
Nurse anesthesia program requirements for esophageal/precordial stethoscope earpieces: A survey, 191; see Letters, 330
- Austin R III see State of the Science general and oral poster sessions, A32; A33
- Automatic implantable cardioverter-defibrillator
Anesthetic management of a pregnant patient with an automatic implantable cardioverter-defibrillator: A case report, 29
- Autoregulation
Frontal lobe oxygenation is maintained during hypotension following propofol-fentanyl anesthesia, 271
- Axillary brachial plexus block see State of the Science general and oral poster sessions, A70

B

- Bacterial growth see *AANA Journal Course*, Part 3, 301; see State of the Science general and oral poster sessions, A29
- Bahls CM see State of the Science general and oral poster sessions, A54
- Bakken S see State of the Science general and oral poster sessions, A21
- Balloon catheters see State of the Science general and oral poster sessions, A53
- Balogh E see State of the Science general and oral poster sessions, A31
- Bandura's theory of self-efficacy see State of the Science general and oral poster sessions, A25
- Banek RB see State of the Science general and oral poster sessions, A71
- Bankruptcy, medical
Health insurance in the United States, 439
- Barber MK see State of the Science general and oral poster sessions, A72
- Bariatric surgery see State of the Science general and oral poster sessions, A69
- Barrett AN see State of the Science general and oral poster sessions, A39
- Barton CL see State of the Science general and oral poster sessions, A5
- Baudek AV see State of the Science general and oral poster sessions, A6
- Beck RM see State of the Science general and oral poster sessions, A72
- Bennett J see Pellegrini J
- Benson ML see State of the Science general and oral poster sessions, A7
- Berens CA see State of the Science general and oral poster sessions, A8

- Bergfeld GR see State of the Science general and oral poster sessions, A29
- β -Blocking agents see *AANA Journal Course*, Part 6, 59
- Betty Lank see *Imagining in Time*, 176
- Biddle C see *AANA Journal Course*, Part 2, 229
- Bilateral transversus abdominis plane nerve blocks for analgesia following cesarean delivery: Report of 2 cases, 98
- Biofilms see *AANA Journal Course*, Part 2, 229
- Björkelund KB, Hommel A, Thorgren K-G, Lundberg D, Larsson S: Factors at admission associated with 4 months outcome in elderly patients with hip fracture, 49
- Black C see State of the Science general and oral poster sessions, A9
- β -Blocking agents see *AANA Journal Course*, Part 6, 59
- Blood glucose level see State of the Science general and oral poster sessions, A22
- Blood loss estimation see State of the Science general and oral poster sessions, A65
- Blood loss, surgical
Anesthetic considerations for the patient with hereditary hemorrhagic telangiectasia (Osler-Weber-Rendu syndrome), 115
- Blood pressure
Frontal lobe oxygenation is maintained during hypotension following propofol-fentanyl anesthesia, 271; see State of the Science general and oral poster sessions, A32
- Blood salvaging techniques see State of the Science general and oral poster sessions, A53
- Blood transfusion
Intraosseous infusion of blood products and epinephrine in an adult patient in hemorrhagic shock, 359
- Blood-borne pathogens see State of the Science general and oral poster sessions, A5
- Bloom KC see State of the Science general and oral poster sessions, A42
- Body temperature see State of the Science general and oral poster sessions, A8; A31
- Bohan KJ see State of the Science general and oral poster sessions, A40; A47
- Books, Etc
Simulation in Anesthesia, 90; *Pain Review*, 172; *The Invention of Air: A Story of Science, Faith, Revolution, and the Birth of America*, 172; *A Practical Approach to Obstetric Anesthesia*, 252; *ICU Recall*, 252; *Anesthesiology Keywords Review*, 332; *Current Therapy in Pain*, 419; *Rapid Sequence Intubation and Rapid Sequence Airway*, 419; *Handbook for Stoelting's Anesthesia and Co-Existing Disease*, 420
- Boott L see State of the Science general and oral poster sessions, A17
- Bosworth GA see *AANA Journal Course*, Part 1, 137
- Botten EJ see State of the Science general and oral poster sessions, A37
- Bouchard CM see State of the Science general and oral poster sessions, A10
- Boyce BK see State of the Science general and oral poster sessions, A29
- Brain electrical activity see State of the Science general and oral poster sessions, A15
- Brain ischemia see *AANA Journal Course*, Part 1, 137; see State of the Science general and oral poster sessions, A39
- Brar MS: Airway management in a bleeding adult following tonsillectomy: A case report, 428
- Breast tissue see State of the Science general and oral poster sessions, A64
- Brock M, Guinn C, Jones M: Anesthetic management of an obstetric patient with Charcot-Marie-Tooth disease: A case study, 335
- Brown A see State of the Science general and oral poster sessions, A30
- Brown MJ see State of the Science general and oral poster sessions, A17
- Bruns AR see *AANA Journal Course*, Part 1, 137
- Brydges G see State of the Science general and oral poster sessions, A11; A35
- Bucci M see Merwin E
- Buckingham R see State of the Science general and oral poster sessions, A17
- Bupivacaine
see State of the Science general and oral poster sessions, A72
- Burgert J see State of the Science general and oral poster sessions, A32; A33
- Burgert JM: Intraosseous infusion of blood products and epinephrine in an adult patient in hemorrhagic shock, 359
- Burkard JF see Williamson W
- Burks D see Williamson W
- Burns SM see State of the Science general and oral poster sessions, A12
- Bushey B see State of the Science general and oral poster sessions, A51
- Byrd J see State of the Science general and oral poster sessions, A9

C

- Calcium channel blockers see *AANA Journal Course*, Part 6, 59
- Calstrom M see State of the Science general and oral poster sessions, A17
- Campbell A see State of the Science general and oral poster sessions, A31
- Cancer
Effects of anesthetics and analgesics on natural killer cell activity, 287
- Cann DF: Acute hypotension in a patient undergoing posttraumatic cervical spine fusion with somatosensory and motor-evoked potential monitoring while under total intravenous anesthesia: A case report, 38
- Capital punishment see *Letters*, 89
- Caraffa G see State of the Science general and oral poster sessions, A12
- Cardiac arrest see *AANA Journal Course*, Part 4, 365
- Cardiac output see State of the Science general and oral poster sessions, A34
- Cardiac surgery see State of the Science general and oral poster sessions, A19
- Cardiac tamponade see State of the Science general and oral poster sessions, A27
- Cardiovascular drugs see *AANA Journal Course*, Part 6, 59
- Cardon ML see State of the Science general and oral poster sessions, A13
- Career choice see *Education News*, 92
- Carroll T see State of the Science general and oral poster sessions, A5; A44
- Carroll TL see State of the Science general and oral poster sessions, A36; A65
- Case D see State of the Science general and oral poster sessions, A27
- Catechol O-methyltransferase see State of the Science general and oral poster sessions, A30
- Catheter, intravenous see State of the Science general and oral poster sessions, A72
- Catheterization see State of the Science general and oral poster sessions, A53
- Catlin HB see State of the Science general and oral poster sessions, A14
- CD11a see State of the Science general and oral poster sessions, A26
- CD-ROM see State of the Science general and oral poster sessions, A27

- Cebula MR see State of the Science general and oral poster sessions, A43
- Cell death see State of the Science general and oral poster sessions, A39
- Cell savers see Letters, 9
- Cellular adhesion molecules see State of the Science general and oral poster sessions, A26
- Celox see State of the Science general and oral poster sessions, A32; A33
- Cerebral autoregulation
Frontal lobe oxygenation is maintained during hypotension following propofol-fentanyl anesthesia, 271
- Cerebral ischemia see State of the Science general and oral poster sessions, A39
- Cerebral oximetry see *AANA Journal Course*, Part 1, 137
- Cerebral oxygen saturation
Frontal lobe oxygenation is maintained during hypotension following propofol-fentanyl anesthesia, 271
- Cerebral perfusion see *AANA Journal Course*, Part 1, 137
- Ceremuga TE see Raines T; see State of the Science general and oral poster sessions, A38; see Heese T
- Certification see State of the Science general and oral poster sessions, A40
- Certification examination
A report on the CCNA 2007 professional practice analysis, 181; see State of the Science general and oral poster sessions, A47
- Cervical spine fusion
Acute hypotension in a patient undergoing posttraumatic cervical spine fusion with somatosensory and motor-evoked potential monitoring while under total intravenous anesthesia: A case report, 38
- Cesarean delivery
Bilateral transversus abdominis plane nerve blocks for analgesia following cesarean delivery: Report of 2 cases, 98; Effect of timing of fluid bolus on reduction of spinal-induced hypotension in patients undergoing elective cesarean delivery, 130; Anesthetic management of an obstetric patient with Charcot-Marie-Tooth disease: A case study, 335
- Chalikonda SA: α_2 -Adrenergic agonists and their role in the prevention of perioperative adverse cardiac events, 103
- Chang H see State of the Science general and oral poster sessions, A66
- Charcot-Marie-Tooth disease
Anesthetic management of an obstetric patient with Charcot-Marie-Tooth disease: A case study, 335
- Cheek D see Welliver M
- Chemical dependency see *Imaging in Time*, 254
- Chemoreceptor/chemotaxic trigger zone see Letters, 417
- Chest pain see State of the Science general and oral poster sessions, A41
- Chloroprocaine see State of the Science general and oral poster sessions, A72
- Cholecystectomy see State of the Science general and oral poster sessions, A6
- Chronic pain see State of the Science general and oral poster sessions, A26
- Ciavaglia CL see State of the Science general and oral poster sessions, A15
- Clevidipine see State of the Science general and oral poster sessions, A19
- Clinical benefits of visualization of airway anatomy and manipulation of the endotracheal tube cuff with the GlideScope in the morbidly obese patient during tracheotomy, 437
- Clinical competence
A report on the CCNA 2007 professional practice analysis, 181
- Clinical trials
An update on sugammadex sodium, 219
- Clonidine
 α_2 -Adrenergic agonists and their role in the prevention of perioperative adverse cardiac events, 103; see *AANA Journal Course*, Part 6, 59
- Coates AK see State of the Science general and oral poster sessions, A59
- Cocaine-induced hypertension see State of the Science general and oral poster sessions, A62
- Cognition see *AANA Journal Course*, Part 1, 137; see State of the Science general and oral poster sessions, A42
- Colin J see State of the Science general and oral poster sessions, A25
- Collaboration
Attitudes toward physician-nurse collaboration in anesthesia, 343; CRNA-physician collaboration in anesthesia, 431
- Colorectal surgery see State of the Science general and oral poster sessions, A46
- Combat injuries see State of the Science general and oral poster sessions, A27; A32; A33
- Combitube
Rescue ventilation: Resolving a “cannot mask ventilate, cannot intubate” situation during exchange of a Combitube for a definitive airway, 339
- Communication see State of the Science general and oral poster sessions, A45
- Comparison of inhalation of isopropyl alcohol vs promethazine in the treatment of postoperative nausea and vomiting (PONV) in patients identified as at high risk for developing PONV, 293; see Letters, 417
- Complications
Factors at admission associated with 4 months outcome in elderly patients with hip fracture, 49; α_2 -Adrenergic agonists and their role in the prevention of perioperative adverse cardiac events, 103; Anesthetic considerations for the patient with hereditary hemorrhagic telangiectasia (Osler-Weber-Rendu syndrome), 115; Effect of timing of fluid bolus on reduction of spinal-induced hypotension in patients undergoing elective cesarean delivery, 130; Anesthetic management of acute subcutaneous emphysema and pneumothorax following a Nuss procedure: A case report, 208; Intraosseous infusion of blood products and epinephrine in an adult patient in hemorrhagic shock, 359; see State of the Science general and oral poster sessions, A8; A11; A35; A36; A53; A66; A70; see *AANA Journal Course*, Part 5, 451; Airway management in a bleeding adult following tonsillectomy: A case report, 428; Clinical benefits of visualization of airway anatomy and manipulation of the endotracheal tube cuff with the GlideScope in the morbidly obese patient during tracheotomy, 437
- Compton P see State of the Science general and oral poster sessions, A26
- COMT see Catechol O-methyltransferase
- Confusion
Factors at admission associated with 4 months outcome in elderly patients with hip fracture, 49
- Conklin AM see State of the Science general and oral poster sessions, A58
- Conley Y see State of the Science general and oral poster sessions, A30
- Contamination see State of the Science general and oral poster sessions, A28; A29
- Conti ME: Anesthetic management of acute subcutaneous emphysema and pneumothorax following a Nuss procedure: A case report, 208
- Continuity of patient care see Letters, 170

- Cooper L see State of the Science general and oral poster sessions, A41
- Cooper P see State of the Science general and oral poster sessions, A70
- Corbett S see State of the Science general and oral poster sessions, A16
- Core body temperature see State of the Science general and oral poster sessions, A8; A31
- Corneal abrasion see State of the Science general and oral poster sessions, A66
- Coronary artery disease
 α_2 -Adrenergic agonists and their role in the prevention of perioperative adverse cardiac events, 103
- Correction
 Implementation of Stress Reduction Techniques in Nurse Anesthesia Students (original abstract A55 in *AANA J*, 2009;77(5)397), Correct abstract title, 418
- Cost-benefit analysis see State of the Science general and oral poster sessions, A15; A18
- Costs see State of the Science general and oral poster sessions, A13; A36
- Council on Accreditation of Nurse Anesthesia educational programs to be reviewed during fiscal year 2009, 75; Official listing of members, 461; Recognized educational programs, 461
- Council on Certification of Nurse Anesthetists
 A report on the CCNA 2007 professional practice analysis, 181
- COX10 see State of the Science general and oral poster sessions, A9
- Creatinine
 Factors at admission associated with 4 months outcome in elderly patients with hip fracture, 49
- Credentialing see Education News, 92
- CRNA-physician collaboration in anesthesia, 431
- Cruthirds D see State of the Science general and oral poster sessions, A23; A60
- Cryoablation see State of the Science general and oral poster sessions, A17
- Culture of safety see State of the Science general and oral poster sessions, A21; A45
- Curriculum see State of the Science general and oral poster sessions, A1; A12; A21; A24
- Currie L see State of the Science general and oral poster sessions, A21
- Curry T see State of the Science general and oral poster sessions, A17
- Cyclodextrins
 An update on sugammadex sodium, 219
- Cyclooxygenase see State of the Science general and oral poster sessions, A4; A9
- Cyclooxygenase inhibitors see State of the Science general and oral poster sessions, A16; A18
- Cyclopropane
 see *Imagining in Time*, 176
- Cytochrome oxidase see State of the Science general and oral poster sessions, A9
- D**
- D'Angelo MR, Dutton RP: Hemodynamic measurement in the operating room: a review of conventional measures to identify hypovolemia, 279
- Dai F see State of the Science general and oral poster sessions, A30

Dyer CA see State of the Science general and oral poster sessions, A60

E

Earpiece devices
Nurse anesthesia program requirements for esophageal/precordial stethoscope earpieces: A survey, 191; see Letters, 330
Eaton KK see State of the Science general and oral poster sessions, A59
Ebert KJ see State of the Science general and oral poster sessions, A13
Education
Nurse anesthesia program requirements for esophageal/precordial stethoscope earpieces: A survey, 191; see State of the Science general and oral poster sessions, A1; A10; A12; A13; A24; A27; A34; A40; A44; A47; A55
Education News
Accreditation requirements for practice doctorates in 14 healthcare professions, 19; Doctoral education: Which degree to pursue? 92
Effect of timing of fluid bolus on reduction of spinal-induced hypotension in patients undergoing elective cesarean delivery, 130
Effects of anesthetics and analgesics on natural killer cell activity, 287
Efficacy see *AANA Journal Course*, Part 1, 137; see State of the Science general and oral poster sessions, A40; A67
Eichhorst M see State of the Science general and oral poster sessions, A13
Eisenach JH see State of the Science general and oral poster sessions, A13
Eldridge SD see State of the Science general and oral poster sessions, A20
Electrosurgical units
Fire in the operating room during open heart surgery: A case report, 261
Elevated plus-maze
Investigation of the anxiolytic effects of luteolin, a lemon balm flavonoid in the male Sprague-Dawley rat, 33;
Anxiolytic effects of L-theanine, a component of green tea, in the male Sprague-Dawley rat, 445
Elisha S see *AANA Journal Course*, Part 6, 59
Ellagic acid see State of the Science general and oral poster sessions, A4; A16; A18
Emergencies see State of the Science general and oral poster sessions, A24; A25
Emergency surgery see State of the Science general and oral poster sessions, A62
Employment see State of the Science general and oral poster sessions, A3
Emulsions see *AANA Journal Course*, Part 3, 301; see State of the Science general and oral poster sessions, A29; A58
Endobronchial ultrasonography see State of the Science general and oral poster sessions, A63
Endorphins see State of the Science general and oral poster sessions, A60

A3; The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, A4; Evaluation of needle/syringe reuse among anesthesia providers, A5; The effect of sevoflurane and desflurane on the expression of neuropeptide substance P, A6; Evaluation and effectiveness of the I-Gel supraglottic airway device, A7; Preoperative temperatures in the trauma patient as a predictor of the proximity of postoperative temperatures to normothermia, A8; A comparison of the effects of sevoflurane and isoflurane on the growth, recovery, and gene expression patterns in wild-type and Δ COX9 and Δ COX10 strains of *Saccharomyces cerevisiae*, A9; Peripheral nerve blockade teaching brochure for ambulatory patients, A10; Is routine use of nasogastric or orogastric tube intraoperatively effective in reducing or preventing the incidence of postoperative nausea and vomiting? A literature review, A11; Identification of expectations for students entering nurse anesthesia programs: A pilot study, A12; Cost reduction of inhalational agents after education on improved utilization and low flow techniques, A13; Does dexamethasone prevent postextubation airway inflammation in adult surgical patients? A14; The attitudes and perceptions of Certified Registered Nurse Anesthetists regarding the use, perceived benefits, and barriers to use of depth-of-anesthesia monitors, A15; Evaluation of the anti-inflammatory effects of ellagic acid, A16; A comparison of analgesic requirements with cryoablation vs radiofrequency ablation of renal tumors: A retrospective review of patient outcomes, A17; Investigation of the anti-inflammatory, antinociceptive effect of ellagic acid as measured by digital paw pressure via the Randall-Selitto meter in the male Sprague-Dawley rat, A18; Clevidipine: A clever approach in controlling acute perioperative hypertension in cardiac surgical patients, A19; An evidence-based review of the literature examining patient outcomes after routine endoscopic procedures: A comparison of traditional sedation strategies with propofol sedation, A20; Hazard and near miss reporting to increase nurse anesthesia student mindfulness, A21; Associated factors of perioperative hypoglycemia in surgical patients, A22; Quantification of regenerative skeletal muscle components in a malignant hyperthermia-susceptible porcine model: A possible link to prolonged muscle weakness, A23; A study to assess the effect of an advanced cardiac life support simulation-based educational intervention on performance and knowledge in a group of first year nurse anesthesia students, A24; The effect of an advanced cardiac life support simulation-based educational intervention on perceived ACLS self-efficacy in a group of first-year nurse anesthesia students, A25; The effect of pain on leukocyte cellular adhesion molecules and inflammatory mediators, A26; The effects of human patient simulator vs a CD-ROM on cognition and performance, A27; Forced-air warming devices do not contaminate the surgical field, A28; Diprivan vs propofol: A comparison of microbial growth, A29; The association between genotypes for opioid receptors and catechol-O-methyltransferase with opioid-induced sedation in postoperative orthopedic trauma patients, A30; Perioperative thermometry: Why are patients colder in the postanesthesia care unit than in the operating room? A31; The effects of arterial blood pressure on rebleeding when Celox and Traumadex are used in a porcine model of lethal femoral vascular injury, A32; The effects of Celox and Traumadex on hemorrhage control in a porcine model, A33; Current technology for determining cardiac output: The anesthesia providers' opinion of efficacy, advantages, disadvantages, and potential educational opportunities, A34; Gastric fistula caused by nasogastric tube in patient undergoing esophagectomy and thoracotomy for resection of esophageal adenocarcinoma: A case report, A35; Does improving anesthesia knowledge reduce anxiety among patients before surgery? A36; Frequency of perioperative seizures in patients with a history of a seizure disorder, A37; Evaluation of the anxiolytic properties of myristicin, a component of nutmeg, in the male Sprague Dawley rat, A38; A comparison of the neuroprotective effects of propofol, etomidate, and thiopental on H₂O₂-induced cellular hypoxia of PC 12 cells, A39; High-fidelity patient simulation and nurse anesthesia educational outcomes, A40; Transesophageal echocardiogram-guided percutaneous closure of left ventricular pseudoaneurysm, A41; Pain management in the elderly: Does cognitive function really matter? A42; Use of the human patient simulator laboratory to evaluate safety in the peri-anesthetic period, A43; Perceptions of nurse anesthesia students regarding the choice and dosing of propofol and fentanyl when placing an endotracheal tube or laryngeal mask airway, A44; The relationship of organizational structure and safety climate to CRNA performance and quality outcomes, A45; Effects of supplemental perioperative oxygen administration and surgical site infection, A46; An analysis of selection criteria for a military nurse anesthesia program, A47; Intravenous lidocaine and its effect on intraoperative and postoperative outcomes, A48; Inguinal nerve block versus paravertebral nerve block in the open inguinal hernia repair: A randomized, prospective, parallel groups study, A49; Patient satisfaction and efficacy of intrathecal opioids following total knee arthroplasty surgery, A50; Prophylactic isopropyl alcohol inhalation and intravenous ondansetron vs intravenous ondansetron alone in the prevention of postoperative nausea and vomiting, A51; How is the quality of anesthesia care being measured

- in the state of Michigan? A52; Retrospective study of product requirements for blood loss in abnormal placentation, A53; Correlation of VeinViewer and ultrasound for peripheral vein width, A54; Implementation of stress reduction techniques in nurse anesthesia students [corrected abstract title, 420] A55; Evidence-based anesthesia: Who says one can't use desflurane with laryngeal mask airways? A56; Minimizing the heat loss from warmed intravenous fluids through the use of a thermal sleeve device, A57; Lipid emulsion therapy for treatment of local anesthetic toxicity, A58; Adequate fluid administration and the presence of a urinary catheter, A59; The effect of immobilization stress and hormonal treatment on nociception, A60; Abstract for survey research regarding reversal of nondepolarizing muscle relaxants in patients with 4 out of 4 twitches and sustained tetanus, A61; Is labetalol appropriate for cocaine-induced hypertension? A narrative review, A62; Anesthesia technique for endobronchial ultrasound-guided fine needle aspiration of mediastinal lymph node, A63; Critical review: Anesthetic immunomodulation in surgical breast oncology patients, A64; Assessing the ability of anesthesia providers to estimate blood loss, A65; Comparison of techniques for eye protection from corneal abrasions during general anesthesia, A66; Patient-controlled epidural anesthesia vs patient-controlled anesthesia plus continuous lumbar epidural anesthesia in laboring women, A67; Laryngeal mask airway in outpatient laparoscopic surgery, A68; Obstructive sleep apnea in patients undergoing gastric bypass surgery, A69; Comparison of ultrasound-guided and peripheral nerve stimulation techniques for axillary brachial plexus anesthesia on success, duration, and complications, A70; The effect of epidural normal saline bolus prior to catheter removal on parturient sensory and motor function recovery, A71; A comparison of the pain perceived during intravenous catheter insertion after injection with various local anesthetics, A72
