The following is an index of the major topics addressed in the AANA Journal during 2020. The index is alphabetized according to headings. Author and subject indexes are integrated.

A

AANA Journal Courses. See also Education; Training
anesthesia and perioperative considerations for patients with myasthenia gravis, 485
brain state monitoring: current research and future possibilities, 407
enterohepatic recirculation: From death by mushroom to perioperative pharmacokinetics, 71
optimizing mechanical ventilation during general anesthesia, 149
perioperative anesthesia techniques in reducing surgical morbidity after amputation, 312
review of the pharmacology and anesthetic implications of cannabis, 237
Abdominal surgery
intraoperative cardiac arrest and Takotsubo cardiomyopathy diagnosis following, 355
Addiction
of electronic cigarettes, 27
in opioid-naive patients, 18
Adolescents
vaping in, 27
Adults
repeated postanesthetic laryngospasm in male, 97
Adverse events
changes in airway management and, related to laryngeal mask airway use in obese patients in the ambulatory surgical setting, 439
Aerosols
spread of airborne, 261
Age
determining for dog, 262
Airborne virus
understanding definitions regarding, 261
Air speed
for commercial air flight, 354
Airway management
anesthesia challenges in, 35
“cannot ventilate, cannot intubate” scenario in, 116
changes in, and adverse events related to laryngeal mask airway use in obese patients in the ambulatory surgical setting, 439
for deep sedation and, 123
ultrasonographic measurement of gastric content influence on decisions, 107
Allen NS
brain state monitoring: current research and future possibilities [Carroll et al.], 407
Alves SL
use of computer-assisted instrument guidance technology by student registered nurse anesthetists for simulated invasive procedures [Haughlum et al.], 289
Alzheimer disease
blood test for diagnosing, 353
Ambulatory surgical setting
changes in airway management and adverse events related to laryngeal mask airway use in obese patients in, 439
American Association of Nurse Anesthetists (AANA)
on development of a clinical assessment tool for evaluation in nurse anesthesia education, 11
Amputation
perioperative anesthetic techniques to reduce surgical morbidity after, 312
Anderson B
preparing a nonsurgical pain practice for reopening during COVID-19 [Barnhill et al.], 57
Anesthesia
advancing nurses’ role to address issues facing Japanese practices, 453
airway management for deep sedation and, 123
antiemetic decision tool for management of postoperative nausea and vomiting in patients receiving neurotransmitter-modulating medications, 312
brain state monitoring and, 407
“cannot ventilate, cannot intubate” scenario in, 116
case report and literature review for patients with fat embolism syndrome, 222
case studies of machine failure, 209
challenges in the management of Freeman-Sheldon syndrome, 35
clinical assessment tool for evaluation in, 11
considerations for automated high-frequency jet ventilation during electromagnetic navigation bronchoscopy, 101
considerations for patients using electronic cigarettes, 27, 135
effect of simulation training on cognitive performance using transesophageal electrocardiography, 59
exploratory analysis of gabapentin on postoperative nausea and vomiting in patients undergoing arthroplasty with neuraxial, 391
implications of cannabis for, 237
implications of patient use of electronic cigarettes, 135
improving endotracheal cuff inflation pressures in a military medical center, 203
optimizing mechanical ventilation during general, 149
perioperative considerations and, for patients with myasthenia gravis, 485
perioperative techniques to reduce surgical morbidity after amputation, 312
repeated postanesthetic laryngospasm in a male adult during general, 97
repeated postanesthetic laryngospasm in a male adult during, 97
simulation of, in cardiac surgery, 183
sustained value of implementation of a flexibility-based compensation structure for, in large multihospital healthcare system, 66
turnover, burnout, and job satisfaction in, 39
vigilance required during all phases of, 97
vincristine-induced, presented as foot drop in the postoperative period, 299
Antiemetic decision tool for management of postoperative nausea and vomiting in high-risk patients receiving neurotransmitter-modulating medications, 312

Aortic rupture
damage control resuscitation of patient with traumatic, 49

Apnea
use of STOP-BANG questionnaire to identify obstructive sleep, 307

Arndt K
vaping: anesthesia considerations for patients using electronic cigarettes [Hobson et al.], 27

Aroke EN
pharmacogenetics of postoperative pain management: a review [Aroke and Kittelsrud], 229

Arytenoid dislocation
vocal cord immobility and, after emergent fiberoptic intubation: a case report, 459

Asbestos
usefulness, versatility and toxicity of, 176

Ashworth L
optimizing mechanical ventilation during general anesthesia [Wright et al.], 149

Assessment
cell, and response to oxygen availability, 9
development of common clinical tool for evaluation in nurse anesthesia education, 11
of military personnel, veterans, and family taking dietary supplements [Ceremuga et al.], 191
of postoperative nausea and vomiting in pediatrics, 264

Astronomers
opposition of, to Space X's launch of satellites, 175

Autonomy
turnover, burnout, and job satisfaction of nurse anesthetists, 39

Autosomal recessive disorders
methylenetetrahydrofolate reductase deficiency as, 303

Awareness with recall
brain state monitoring: current research and future possibilities, 407

Ayala MP
knowledge assessment of military personnel, veterans, and family taking dietary supplements [Ceremuga et al.], 191

B

Baidya J
comparative evaluation of tube first versus video laryngoscope first techniques in a normal and simulated difficult airway model: a randomized controlled trial [Lee et al.], 479

Barrenklau S
vaping: anesthesia considerations for patients using electronic cigarettes [Hobson et al.], 27

Bariatric surgery
prevention of nausea and vomiting after laparoscopic sleeve gastrectomy, 142

Barnhill WK
preparing a nonsurgical pain practice for reopening during COVID-19 [Barnhill et al.], 57

Barnwell LH
brain state monitoring: current research and future possibilities [Carroll et al.], 398

Barrows MS
evidence-based practice: use of STOP-BANG questionnaire to identify obstructive sleep apnea [Barrows et al.], 307

Bates J
cut to air [Scott-Herring et al.], 116
Brenn BR
comparative evaluation of tube first versus video laryngoscope first techniques in a normal and simulated difficult airway model: a randomized controlled trial [Lee et al.], 479
Broken heart syndrome
surviving, 355
Bronchoscopy
anesthetic considerations for automated high-frequency jet ventilation during electromagnetic navigation, 101
Bromme ME
advancing nurses’ role to address issues facing Japanese anesthesia practice [Tsumura et al.], 453
Brown CA
dexmedetomidine dosing to prevent pediatric emergence delirium [Manning et al.], 359
Brown P
Brain state monitoring: current research and future possibilities [Carroll et al.], 407
Burnout
for Certified Registered Nurse Anesthetists, 39
relationship between emotional intelligence and occupational stress levels among Certified Registered Nurse Anesthetists, 398
Calcium replacement
incidence of hypocalcemia and role of, in trauma patients requiring operative intervention, 383
Calendar of events, 77, 158, 246, 334, 416, 493
Cancer
electromagnetic navigation bronchoscopy in diagnosing lung, 101
vincristine-induced neuropathy presenting as foot drop in postoperative period, 299
Cannabis
pharmacology and anesthetic implications of, 237
“Cannot ventilate, cannot intubate” scenario, 116
Cardiac arrest
intraoperative, and Takotsubo cardiomyopathy, 355
Cardiac surgery
anesthesia simulation in, 183
Cardiomyopathy
intraoperative cardiac arrest and, 355
Carroll AM
brain state monitoring: current research and future possibilities [Carroll et al.], 407
Case reports
anesthesia challenges in the management of Freeman-Sheldon syndrome, 35
of anesthesia machine failure, 209
arytenoid dislocation and vocal cord immobility after emergent fiberoptic intubation, 459
damage control resuscitation of patient with traumatic aortic rupture, 49
fat embolism syndrome for the anesthetized patient, 222
methyleneetetrahydrofolate reductase deficiency, 303
of postpoliomyelitis syndrome and reversal with sugammadex, 380
recognition and management of subcutaneous emphysema as complication of robotic assisted laparoscopic surgery, 131
Cataract surgery
patient comfort during, 429
Catechol O-methyl transferase
pharmacogenetics of postoperative pain management, 229
Cesarean delivery
prophylactic tranexamic acid in high-risk patients undergoing, 273
Chambers P
repeated postanesthetic laryngospasm in a male adult, 97
Chemotherapy
vincristine-induced neuropathy presenting as foot drop in postoperative period, 299
Chicoine RW
knowledge assessment of military personnel, veterans, and family taking dietary supplements [Ceremuga et al.], 191
Children. See Pediatrics
Choudry DK
comparative evaluation of tube first versus video laryngoscope first techniques in a normal and simulated difficult airway model: a randomized controlled trial [Lee et al.], 479
Christianson A
association of prescription opioid exposure and patient factors with prolonged postoperative opioid use in opioid-naïve patients [Lanzillotta-Rangeley et al.], 18
Chun SM
knowledge assessment of military personnel, veterans, and family taking dietary supplements [Ceremuga et al.], 191
Cieslak JR
doest ultrasonographic measurement of gastric content influence airway management decisions [Cieslak et al.], 107
Cigarettes
anesthesia considerations for patients using electronic, 27
Clark A
association of prescription opioid exposure and patient factors with prolonged postoperative opioid use in opioid-naïve patients [Lanzillotta-Rangeley et al.], 18
Clayton BA
Climate control
wearing your, 261
Clinical assessment
development of common tool for evaluation in nurse anesthesia education and, 11
Clinical competence
anesthesia simulation in cardiac surgery, 183
Clinical observation
airway management for deep sedation, 123
Coagulopathy
incidence of hypocalcemia and role of calcium replacement in trauma patients requiring operative intervention, 383
Cochrane JA
feasibility and acceptability of a low-tech simulation using local resources in a rural community hospital [Mogler et al.], 445
Coffin E
relationship between emotional intelligence and occupational stress levels among Certified Registered Nurse Anesthetists [Bittinger et al.], 398
Cognitive performance
effect of simulation training on, using transesophageal echocardiography, 59
Collins S
AANA Journal course: anesthesia and perioperative considerations for patients with myasthenia gravis [Collins et al.], 485
Combination sedation
cost analysis of intravenous propofol monotherapy versus intravenous in patients undergoing outpatient gastrointestinal endoscopy, 373
Commercial air flight
air speed for, 354
Common Clinical Assessment Tool (CCAT)
development of, for nurse anesthesia education, 11
Compensation
sustained value of implementation of a flexibility-based, for nurse anesthetists in multihospital health care system, 66
Computer-assisted instrument guidance technology
by student registered nurse anesthetists for simulated invasive procedures, 289
Condit MT
anesthesia machine failure: a case study [Wren and Condit], 209
Congenital myopathy. See Freeman-Sheldon syndrome
Cornelius A
incidence of hypocalcemia and role of calcium replacement in major trauma patients requiring operative intervention [Cornelius et al.], 383
Cornelius B
incidence of hypocalcemia and role of calcium replacement in major trauma patients requiring operative intervention [Cornelius et al.], 383
CO₂ scrubber
need for, in office, 175
Cost analysis
of intravenous propofol monotherapy versus intravenous combination sedation in patients undergoing outpatient gastrointestinal endoscopy, 373
COVID-19. See also Pandemic
as airborne virus, 261
implementing smoking cessation interventions in a preoperative clinic in patients with, 283
pregnancy and, 353
preparing nonsurgical pain practice for reopening during, 57
Cox R
incidence of hypocalcemia and role of calcium replacement in major trauma patients requiring operative intervention [Cornelius et al.], 383
Craniocarpotarsal dysplasia
anesthesia challenges in the management of, 35
Cricothyrotomy
“cannot ventilate, cannot intubate” scenario in, 116
Crippen L
cost analysis of intravenous propofol monotherapy versus intravenous combination sedation in patients undergoing outpatient gastrointestinal endoscopy [Sasala et al.], 373
Critical events
damage control resuscitation of patient with traumatic aortic rupture, 49
CRNAs. See Certified Registered Nurse Anesthetists (CRNAs)
Crohn’s disease
contributions of fungi to, 10
Cuff manometer
improving inflation pressures in a military medical center, 203
Cvek U
Incidence of hypocalcemia and role of calcium replacement in major trauma patients requiring operative intervention [Cornelius et al.], 383
Cytochrome 450
pharmacogenetics of postoperative pain management, 229
Cytotoxic compounds
anesthesia considerations for patients using electronic cigarettes, 27

D
Damage control resuscitation
of patient with traumatic aortic rupture, 49
Dan D
surviving a broken heart: a case of intraoperative cardiac arrest and Takotsubo cardiomyopathy [Dan and Moore], 355
Datta PK
sevoflurane consumption during inhalational induction in children: a randomized comparison of minute ventilation-based techniques with standard fixed fresh gas flow technique [Gupta and Datta], 177
Davies M
evidence-based antiemetic decision tool for management of postoperative nausea and vomiting in patients receiving neurotransmitter-modulating medications [Hymel and Davies], 312
Deeds, JL
improving endotracheal cuff inflation pressures: an evidence-based project in a military medical center [Turner et al.], 203
Deep monitored anesthesia care (MAC)
airway management for deep sedation, 123
DeGroot JM
knowledge assessment of military personnel, veterans, and family taking dietary supplements [Ceremuga et al.], 191
Delirium
dexmedetomidine in preventing pediatric emergence, 359
Delphi study
on clinical assessment tools for evaluation in nurse anesthesia education, 11
Denslow S
exploratory analysis of impact of gabapentin on incidence of postoperative nausea and vomiting in patients undergoing knee and hip arthroplasty with neuraxial anesthesia [Tепles et al.], 391
Dexmedetomidine
in preventing pediatric emergence delirium, 359
Diapers
monitoring of, 94
Dietary supplements
knowledge assessment of military personnel, veterans, and family taking, 191

Difficult airway
anesthesia challenges in the management of, 35
“cannot ventilate, cannot intubate” scenario in, 116

Disease
ccontributions of fungi to, 10

Diskerud L
recognition and management of subcutaneous emphysema as a complication of robotic-assisted laparoscopic surgery [Pallaria et al.], 131

Dog
determining age of, 262

Draeger Apollo
case studies of anesthesia machine failure, 209

Droplets, 261

Dubose A
Incidence of hypocalcemia and role of calcium replacement in major trauma patients requiring operative intervention [Cornelius et al.], 383

Dunn K
relationship between emotional intelligence and occupational stress levels among Certified Registered Nurse Anesthetists [Bittinger et al.], 398

Dunworth BA
sustained value of implementation of flexibility-based compensation structure for nurse anesthetists in a large multihospital healthcare system, 66

E

Echocardiography
effect of simulation training on cognitive performance using transesophageal, 99

Editorials
of celestial bodies and professional life: “connecting the dots,” 349
ignoring “stay at home!” . . . the life and times of the frontline CRNA during a pandemic, 171

The Editor’s Desk
the airborne virus: understanding definitions is a good start to being safe, 261
asbestos--useful, versatile, and quite toxic, 176
black versus white children and surgical outcome: what do we know?, 353
bugs in the gut: our “gut microbiota” may influence the brain, 93
diagnosing Alzheimer disease early: a blood test on the horizon?, 353
discovery of a new, old planet: a self-taught man with a passion for the cosmos, 94
Emrod, an entrepreneurial firm in New Zealand, builds a long-range, commercial wireless power transmitter, 354
a few brief sound-bites; maybe the office needs a CO2 scrubber?, 175
is Earth’s moon really all that “barren”? , 353
“limited” nuclear war would still have devastating consequences, 9
mach 3 (that’s 2301.81 miles per hour!) for commercial air flight?, 354

Nobel medicine prize: how cells assess and respond to oxygen availability, 9

pregnancy and COVID-19: are there special concerns, 353
reducing waste, one easy approach: “shake and fold,” 9
researchers at MIT do it again! another break-through in monitoring, 94
setback in a gene therapy trial, 261

Space X’s planned launching of 42,000 satellites troubles astronomers (and others), 175
superstar flights across the Atlantic, 93
a 3D painted house, 26
transdermal optical imaging, 9
we are (literally) covered in fungi: so what?, 10
wear your climate control?, 261
and you think your dog is how old (in human years)?, 262

Education. See also AANA Journal Courses; Training anesthesia and perioperative considerations for patients with myasthenia gravis, 485
anesthesia simulation in cardiac surgery for students, 183
brain state monitoring: current research and future possibilities, 407
clinical assessment tool for evaluation in nurse anesthesia, 11
computer-assisted instrument guidance technology by student registered nurse anesthetists for invasive procedures, 289
Delphi study on clinical assessment tools for evaluation in nurse anesthesia education, 11
effect of simulation training on cognitive performance using transesophageal echocardiography, 59
enterohepatic recirculation and, 71
improving endotracheal cuff inflation pressures in a military medical center, 203
optimizing mechanical ventilation during general anesthesia, 149
perioperative anesthesia techniques in reducing surgical morbidity after amputation, 312
pharmacology and anesthetic implications of cannabis, 237

Efficacy
enterohepatic recirculation and, 71
Electroencephalography
brain state monitoring: current research and future possibilities, 407

Electromagnetic navigation bronchoscopy
anesthetic considerations for automated high-frequency jet ventilation during, 101

Electronic cigarettes
anesthesia implications of patient use of, 27, 135

Electronic nicotine delivery systems (ENDS), 27, 135

Elevated homocysteine
methylene tetrahydrofolate reductase deficiency and, 303

Elisha S
development of a common clinical assessment tool for evaluation in nurse anesthesia education [Elisha et al.], 11

Emergence delirium
dexmedetomidine in preventing pediatric, 359

Emergency surgical airway
“cannot ventilate, cannot intubate” scenario in, 116

Emotional intelligence
relationship between occupational stress and among Certified Registered Nurse Anesthetists, 398

Empysema
recognition and management of subcutaneous, 131

Endotracheal anesthesia
improving endotracheal cuff inflation pressures in a military medical center, 203

Endotracheal cuff
improving inflation pressures in a military medical center, 203

Enhanced Recovery After Surgery
perioperative anesthetic techniques to reduce surgical morbidity after amputation, 312

Emrod
manufacture of long-range, commercial wireless power transmitter by, 354

www.aana.com/aanajournalonline

AANA Journal ■ December 2020 ■ online content 67
Enterohepatic recirculation
perioperative pharmacokinetics and, 71
Eteldorf JR
implementing smoking cessation interventions in a preoperative clinic [Eteldorf et al.], 283
Evaluation
development of clinical assessment tool for, in nurse anesthesia education, 11
Everson MG
exploring production pressure and normalization of deviation and their relationship to poor patient outcomes [Everson et al.], 365
Evidence-based practices
antiemetic decision tool for management of postoperative nausea and vomiting in high-risk patients receiving neurotransmitter-modulating medications, 312
assessment of postoperative nausea and vomiting in pediatrics, 264
implementing smoking cessation interventions in a preoperative clinic, 283
improving endotracheal cuff inflation pressures in a military medical center, 203
substance abuse and misuse identification and prevention, 319
use of STOP-BANG questionnaire in identifying obstructive sleep apnea as, 307
Exploratory analysis
of impact of gabapentin on incidence of postoperative nausea in patients undergoing knee and hip arthroplasty with neuraxial anesthesia, 391
F
Facemasks
mandating, 261
Fat embolism syndrome
case report and literature review of, for the anesthetized patient, 222
Feeding guidelines
establishment of, in ultrasonographic measurement of gastric content and influence on airway management decisions, 107
Feeney M
improving endotracheal cuff inflation pressures: an evidence-based project in a military medical center [Turner et al.], 203
Femur fracture intramedullary nailing
case report and literature review for fat embolism syndrome, 222
Ferrell E
incidence of hypocalcemia and role of calcium replacement in major trauma patients requiring operative intervention [Cornelius et al.], 383
Fiberoptic intubation
arytenoid dislocation and vocal cord immobility after emergent, 459
Flexibility-based compensation
sustained value of implementation of for nurse anesthetists in multihospital healthcare systems, 66
Flight
evolution in the technology of, 93
Flynn D
exploratory analysis of impact of gabapentin on incidence of postoperative nausea and vomiting in patients undergoing knee and hip arthroplasty with neuraxial anesthesia [Teeples et al.], 391
Foernges L
damage control resuscitation of a patient with traumatic aortic rupture: a case report [Heiss et al.], 49
Foley EM
anesthesia implications of patient use of electronic cigarettes [Harris and Foley], 135
Foot drop
vincristine-induced neuropathy presenting as, in the postoperative period, 299
Freed L
anesthesia simulation in cardiac surgery (ASICS) [Staun et al.], 183
Freeman-Sheldon syndrome
anesthesia challenges in the management of, 35
Fresh gas flow
comparison of minute ventilation-based techniques with, 177
Fungi
contributions to disease, 10
G
Gabapentin
impact of, on incidence of postoperative nausea in patients undergoing knee and hip arthroplasty with neuraxial anesthesia, 391
Gadsden JC
does ultrasonographic measurement of gastric content influence airway management decisions [Cieslak et al.], 107
Gastrectomy
prevention of nausea and vomiting after laparoscopic sleeve, 142
Gastric content
relationship between preoperative stress, pulmonary aspiration and, for type 2 diabetes mellitus, 463
ultrasonographic navigation bronchoscopy of, in influencing airway management decisions, 107
Gastrointestinal endoscopy
cost analysis of intravenous propofol monotherapy versus intravenous combination sedation in patients undergoing outpatient, 373
Gene therapy
setback in, 261
Gentry R
effect of simulation training on cognitive performance using transesophageal echocardiography [Shields and Gentry], 59
Gerbasi F
development of a common clinical assessment tool for evaluation in nurse anesthesia education [Elisha et al.], 11
Gill J
changes in airway management and adverse events related to laryngeal mask airway use in obese patients in the ambulatory surgical setting [Gill et al.], 439
Glynn AE
knowledge assessment of military personnel, veterans, and family taking dietary supplements [Ceremuga et al.], 191
Golden R
incidence of hypocalcemia and role of calcium replacement in major trauma patients requiring operative intervention [Cornelius et al.], 383
Goode V
maximizing use of social media to improve member engagement in a professional organization [Wang et al.], 473
Gupta A
anesthesia challenges in the management of Freeman-Sheldon Syndrome: report of two cases and literature review [Kamal et al.], 35
sevoflurane consumption during inhalational induction in
children: a randomized comparison of minute ventilation-based techniques with standard fixed fresh gas flow technique [Gupta and Datta], 177

Gupta N
- a rare case of vincristine-induced neuropathy presenting as foot drop in the postoperative period [Gupta et al], 299

“Gut microbiota”
- influence on the brain, 93

Gut microflora
- enterohepatic recirculation and, 71

H

Haas RE
- type 2 diabetes mellitus: relationships between preoperative physiologic stress, gastric content volume and quality and risk of pulmonary aspiration [Reed and Haas], 465

Hale N
- methylenetetrahydrofolate reductase deficiency: a case report [Hale and Minzola], 303

Hamilton BK
- patient comfort during cataract surgery: a comparison of troche and intravenous sedation [Smith et al], 429

Harris DE
- anesthesia implications of patient use of electronic cigarettes [Harris and Foley], 135

Hauglum SD
- use of computer-assisted instrument guidance technology by student registered nurse anesthetists for simulated invasive procedures [Hauglum et al], 289

Healthcare system
- sustained value of implementation of flexibility-based compensation for nurse anesthetists in multihospital, 66

Heath effects
- anesthesia considerations for patients using electronic cigarettes, 27

Heiss C
- damage control resuscitation of a patient with traumatic aortic rupture: a case report [Heiss et al], 49

Hemorrhage
- incidence of hypocalcemia and role of calcium replacement in trauma patients requiring operative intervention and, 383

Henderson KJ
- dexmedetomidine dosing to prevent pediatric emergence delirium [Manning et al], 359

Henson DT
- knowledge assessment of military personnel, veterans, and family taking dietary supplements [Ceremuga et al], 191

Hepatic metabolism
- enterohepatic recirculation and, 71

Hewer I
- AANA Journal course: anesthesia and perioperative considerations for patients with myasthenia gravis [Collins et al], 485

High-frequency jet ventilation
- anesthetic considerations for automated, during electromagnetic navigation bronchoscopy, 101

High-risk patients
- prophylactic tranexamic acid in, undergoing Cesarean delivery, 273

High-risk pregnancy
- prophylactic tranexamic acid in patients undergoing Cesarean delivery, 273

Hill RW
- Comparative evaluation of tube first versus video laryngoscope first techniques in a normal and simulated difficult airway model: a randomized controlled trial [Lee et al], 479

Hippocrates
- impact of gabapentin on incidence of postoperative nausea and vomiting in patients undergoing, 391

Hobson A
- vaping: anesthesia considerations for patients using electronic cigarettes [Hobson et al], 27

Hobson JK
- dexmedetomidine dosing to prevent pediatric emergence delirium [Manning et al], 359

Homocysteinemia
- methylenetetrahydrofolate reductase deficiency and, 303

Hooper VA
- Exploratory analysis of impact of gabapentin on incidence of postoperative nausea and vomiting in patients undergoing knee and hip arthroplasty with neuraxial anesthesia [Teeples et al], 391

Hopkins TJ
- perioperative anesthetic techniques to reduce surgical morbidity after amputation [Hutto et al], 325

Hranchuk A
- relationship between emotional intelligence and occupational stress levels among Certified Registered Nurse Anesthetists [Bittinger et al], 398

Huffman JS
- fat embolism syndrome revisited: a case report and review of literature, with new recommendations for the anesthetized patient [Huffman et al], 222

Humston C
- fat embolism syndrome revisited: a case report and review of literature, with new recommendations for the anesthetized patient [Huffman et al], 222

Hutto EDG
- perioperative anesthetic techniques to reduce surgical morbidity after amputation [Hutto et al], 325

Hymel JS
- perioperative anesthetic techniques to reduce surgical morbidity after amputation [Hutto et al], 325

Hymel N
- evidence-based antiemetic decision tool for management of postoperative nausea and vomiting in patients at high risk of QT prolongation and patients receiving neurotransmitter-modulating medications [Hymel and Davies], 312

Hyperhomocysteinemia
- methylenetetrahydrofolate reductase deficiency and, 303

Hypocalcemia
- incidence of, and role of calcium replacement in trauma patients requiring operative intervention, 383

I

Inhalational induction
- sevoflurane consumption during, in children, 177

Innovation
- sustained value of implementation of a flexibility-based compensation structure for nurse anesthetists in multihospital healthcare system, 66

Instrument guidance
- computer-assisted technology by student registered nurse anesthetists for simulated invasive procedures, 289

Intraoperative cardiac arrest
- Takotsubo cardiomyopathy and, 355

Intravenous sedation
- comparison with troche for cataract surgery, 429

Japanese anesthesia practice
advancing nurses’ role in addressing issues facing, 453
Jet ventilation
anesthetic considerations for automated high-frequency,
during electronic navigation bronchoscopy, 101
Jillson IA
turnover, burnout, and job satisfaction of Certified
Registered Nurse Anesthetists in the United States: role of
job characteristics and personality [Mahoney et al.], 39
Job satisfaction
for Certified Registered Nurse Anesthetists, 39
Joyner M
changes in airway management and adverse events related
to laryngeal mask airway use in obese patients in the
ambulatory surgical setting [Gill et al], 439

K
Kalarchian MA
association of prescription opioid exposure and patient
factors with prolonged postoperative opioid use in opioid-
naive patients [Lanzillotta-Rangeley et al.], 18
Kamal G
anesthesia challenges in the management of Freeman-
Sheldon Syndrome: report of two cases and literature
review [Kamal et al.], 35
Kilgore P
Incidence of hypocalcemia and role of calcium
replacement in major trauma patients requiring operative
intervention [Cornelius et al.], 383
Kittelsrud JM
pharmacogenetics of postoperative pain management: a
review [Aroke and Kittelsrud], 229
Knee arthroplasty
impact of gabapentin on incidence of postoperative nausea
and vomiting in patients undergoing, 391

L
Lanzillotta J
anesthesia simulation in cardiac surgery (ASICS) [Staun et
al.], 183
Lanzillotta-Rangeley J
association of prescription opioid exposure and patient
factors with prolonged postoperative opioid use in opioid-
naive patients [Lanzillotta-Rangeley et al.], 18
Laryngeal mask airway
anesthesia challenges in the management of, 35
changes in airway management and adverse events related
to use of, in obese patients in the ambulatory surgical
setting, 439
Laryngospasm
repeated postanesthetic, in a male adult, 97
Lea J
turnover, burnout, and job satisfaction of Certified
Registered Nurse Anesthetists in the United States: role of
job characteristics and personality [Mahoney et al.], 39
Lee WT
Comparative evaluation of tube first versus video
laryngoscope first techniques in a normal and simulated
difficult airway model: a randomized controlled trial [Lee
et al.], 479
Letters, 62
Literature review
anesthesia challenges in the management of Freeman-
Sheldon syndrome, 35
anesthesia implication of patient use of electronic
cigarettes, 135
antiemetic decision tool for management of in patients
receiving neurotransmitter-modulating medications, 312
development of common clinical assessment of tool for
evaluation in nurse anesthesia education, 11
fat embolism syndrome for the anesthetized patient, 222
relationship between emotional intelligence and
occupational stress among Certified Registered Nurse
Anesthetists, 398
Liver metabolism
enterohepatic recirculation and, 71
Local resources
feasibility and acceptability of a low-tech simulation using,
in a rural community hospital, 445
Low-tech simulation
feasibility and acceptability of, using local resources in a
rural community hospital, 445
Lung injury
optimizing mechanical ventilation during general
anesthesia, 149

M
Mahoney CB
turnover, burnout, and job satisfaction of Certified
Registered Nurse Anesthetists in the United States: role of
job characteristics and personality [Mahoney et al.], 39
Male adults
repeated postanesthetic laryngospasm in a, 97
Manning AN
dexmedetomidine dosing to prevent pediatric emergence
delirium [Manning et al.], 359
March AL
prevention of nausea and vomiting after laparoscopic
sleeve gastrectomy: are we doing enough? [Varner and
March], 142
Maresch KJ
Arytenoid dislocation and vocal cord immobility after
emergent fiberoptic intubation: a case report, 459
Marienau MES
feasibility and acceptability of a low-tech simulation using
local resources in a rural community hospital [Mogler et
al.], 445
Marshall VE
postpoliomyelitis syndrome and reversal with
Masters R
anesthetic considerations for automated high-frequency
jet ventilation during electromagnetic navigation
bronchoscopy [Masters et al.], 101
McCarthy EJ
evidence-based practice: use of STOP-BANG questionnaire
to identify obstructive sleep apnea [Barrows et al.], 307
McLaughlin M
recognition and management of subcutaneous emphysema
as a complication of robotic-assisted laparoscopic surgery
[Pallaria et al.], 131
McMurray M
airway management for deep sedation: current practice,
limitations, and needs as identified by clinical observation
and survey results [McMurray R et al.], 123
McMurray R
airway management for deep sedation: current practice,
limitations, and needs as identified by clinical observation
and survey results [McMurray R et al.], 123
Medications
antiemetic decision tool for management of
postoperative nausea and vomiting in patients receiving neurotransmitter-modulating, 312
effects of anti-aging, 262
pharmacogenetics of postoperative pain, 229
Member engagement
maximizing use of social media in improving, in a professional organization, 473
Mercante DE
development of a common clinical assessment tool for evaluation in nurse anesthesia education [Elisha et al.], 11
Meta-analysis
prophylactic tranexamic acid in high-risk patients undergoing Cesarean delivery in, 273
Methylenetetrahydrofolate reductase deficiency
case report of, 303
Microbiome-gut/brain axis, 93
Military medical center
improving endotracheal cuff inflation pressures in a, 203
Military personnel
knowledge assessment of, taking dietary supplements, 191
Minzola D
damage control resuscitation of a patient with traumatic aortic rupture: a case report [Heiss et al.], 49
methylenetetrahydrofolate reductase deficiency: a case report [Hale and Minzola], 303
vasa previa: a case report [Reichenbach and Minzola], 436
Mishra S
a rare case of vincristine-induced neuropathy presenting as foot drop in the postoperative period [Gupta et al], 299
Mogler SK
feasibility and acceptability of a low-tech simulation using local resources in a rural community hospital [Mogler et al.], 445
Monitoring
of diapers, 94
Moon
barrenness of, 353
Moore C
surviving a broken heart: a case of intraoperative cardiac arrest and Takotsubo cardiomyopathy [Devon and Moore], 355
Moore ZD
anesthetic considerations for automated high-frequency jet ventilation during electromagnetic navigation bronchoscopy [Masters et al.], 101
Morgan B
maximizing use of social media to improve member engagement in a professional organization [Wang et al.], H preparing a nonsurgical pain practice for reopening during COVID-19 [Barnhill et al.], 57
Morosanu I
cut to air [Scott-Herring et al.], 116
Motor vehicle collision
damage control resuscitation of patient with traumatic aortic rupture, 49
Muckler VC
perioperative anesthetic techniques to reduce surgical morbidity after amputation [Hutto et al.], 325
Multihospital healthcare system
sustained value of implementation of a flexibility-based compensation structure for nurse anesthetists in, 66
Multivariate logistic regression
prescription opioid use postoperatively in opioid-naive patients, 18
Mushrooms
enterohepatic recirculation and perioperative pharmacokinetics, 71
Myasthenia gravis
anesthesia and perioperative considerations for patients with, 485
Myotubular myopathy, 262

N
Nasal airways
airway management for deep sedation, 123
National Certification Examination for Nurse Anesthetists
development of a clinical assessment tool for evaluation in nurse anesthesia education, 11
Nausea
See also Postoperative nausea and vomiting
Neft MW
cost analysis of intravenous propofol monotherapy versus intravenous combination sedation in patients undergoing outpatient gastrointestinal endoscopy [Sasala et al.], 373
Nerve block
perioperative anesthetic techniques to reduce surgical morbidity after amputation, 312
Neuraxial anesthesia
exploratory analysis of impact of gabapentin on incidence of postoperative nausea and vomiting in patients undergoing knee and hip arthroplasty with, 391 vincristine-induced, presenting as foot drop in the postoperative period, 299
Neuropathy
rare care of vincristine-induced, presenting as foot drop in the postoperative period, 299
Neurotransmitter-modulating medications
evidence-based antiemetic decision tool for management of postoperative nausea and vomiting in patients receiving, 312
Nicotine
anesthesia considerations for patients using electronic cigarettes, 27
Nigro T Jr
letters [Young et al.], 62
Nigro TM Jr
comprehensive reentry policy for student registered nurse anesthetists with substance use disorder [Nigro et al.], 319
Nobel Medicine Prize for cell response to oxygen availability, 9
Nonsurgical pain practice
preparing, for reopening during COVID-19 [Barnhill et al.], 57
Nontriggering anesthesia
anesthesia challenges in the management of Freeman-Sheldon syndrome, 35
Normalization of deviance
exploration of production pressure and, in relationship to poor patient outcomes, 365
Nuclear war
consequences of limited, 9
Nurses
advancing role in addressing issues facing Japanese anesthesia practice, 433
Obese patients
changes in airway management and adverse events related to laryngeal mask airway in the ambulatory surgical setting, 439
Obstetrics
prophylactic tranexamic acid in high-risk patients undergoing Cesarean delivery, 273
Obstructive sleep apnea
STOP-BANG questionnaire in identifying, 307
Occupational stress
relationship between emotional intelligence and among Certified Registered Nurse Anesthetists, 398

Olsen KF
airway management for deep sedation: current practice, limitations, and needs as identified by clinical observation and survey results [McMurray R et al.], 123

Opioids
addiction in opioid-naive patients, 18
impact of gabapentin on incidence of postoperative nausea and vomiting in patients undergoing knee and hip arthroplasty with neuraxial anesthesia, 391

Opioid μ receptors
pharmacogenetics of postoperative pain management, 229

Optical imaging
dermsal, 9

Oral airways
airway management for deep sedation, 123

Ornithine transcarbamylase deficiency syndrome (OTCD), 262

Outpatient therapy
cost analysis of intravenous propofol monotherapy versus intravenous combination sedation in patients undergoing gastrointestinal endoscopy, 373

Oxygen
cell assessment and response to availability of, 9

P

Packard P
maximizing use of social media to improve member engagement in a professional organization [Wang et al.], 473

Pain
preparing a nonsurgical practice for reopening during COVID-19, 57

Pain medications
pharmacogenetics of postoperative pain management, 229

Pallaria TJ
recognition and management of subcutaneous emphysema as a complication of robotic-assisted laparoscopic surgery [Pallaria et al.], 131

Pancreas
presence of fungi in, 10

Pandemic. See also COVID-19
life and death of the frontline CRNA during a, 171

Parks C
anesthetic considerations for automated high-frequency jet ventilation during electromagnetic navigation bronchoscopy [Masters et al.], 101

Patients. See also High-risk patients

optimizing mechanical ventilation during general anesthesia [Wright et al.], 149

Phantom limb pain
perioperative anesthetic techniques to reduce surgical morbidity after amputation, 312

Pharmacogenetics
of postoperative pain management, 229

Pharmacokinetics
enterohepatic recirculation and perioperative, 71

Pharmacology
anesthetic implications of cannabis, 237

Placenta previa
prophylatic tranexamic acid in high-risk patients undergoing Cesarean delivery and, 273

Pluto
discovery of, 94

Porche D
development of a common clinical assessment tool for evaluation in nurse anesthesia education [Elisha et al.], 11

Positive end-expiratory pressure
optimizing mechanical ventilation during general anesthesia and, 149

Postoperative nausea and vomiting (PNOV)
antiemetic decision tool for management of in patients receiving neurotransmitter-modulating medications, 312

assessing impact of, in pediatric patients, 264
impact of gabapentin on incidence of, in patients undergoing knee and hip arthroplasty with neuraxial anesthesia, 391

prevention of, after laparoscopic sleeve gastrectomy, 142

Postoperative period
in opioid-naive patients, 18

pharmacogenetics of pain management in, 229

vincristine-induced neuropathy presenting as foot drop in, 299

Postoperative pulmonary complications
STOP-BANG questionnaire in identifying obstructive sleep apnea, 307

Postoperative sore throat
airway management for deep sedation and, 123

Postpartum hemorrhage
prophylatic tranexamic acid in high-risk patients undergoing Cesarean delivery and, 273

Postpoliomyelitis syndrome
reversal with sugammadex and, 380

Practice management
sustained value of implementation of a flexibility-based compensation structure for nurse anesthetists in multihospital healthcare system, 66

Pregnancy
COVID-19 and, 353
prophylatic tranexamic acid in high-risk patients undergoing Cesarean delivery, 273

Preoperative clinic
implementing smoking cessation interventions in, 283
Preoperative stress
relationship between gastric content, pulmonary aspiration and, for type 2 diabetes mellitus, 465
Pressure support ventilation
optimizing, during general anesthesia, 149
Prevention
dexmedetomidine dosing for pediatric emergence delirium, 399
Production pressure
exploration of and normalization of deviation in relationship to poor patient outcomes, 365
Professional organization
maximizing use of social media in improving member engagement in, 473
Prophylactic tranexamic acid in high-risk patients undergoing Cesarean delivery, 273
Propofol monotherapy
cost analysis of intravenous combination sedation versus, in patients undergoing outpatient gastrointestinal endoscopy, 373
Pulmonary aspiration
presence of gastric content before induction of general anesthesia as risk factor in prevention of, 107
relationship between preoperative stress, gastric content, and, for type 2 diabetes mellitus, 465
Pulmonary mechanics
optimizing mechanical ventilation during general anesthesia, 149
Pulseless electrical activity
case report and literature review for fat embolism syndrome, 222

QT prolongation
evidence-based antimetic decision tool for management of postoperative nausea and vomiting in patients receiving neurotransmitter-modulating medications and, 312

Randall SA
knowledge assessment of military personnel, veterans, and family taking dietary supplements [Ceremuga et al.], 191
Randomized controlled trials
comparative evaluation of tube first versus video laryngoscope first techniques in normal and simulated difficult airway model, 479
prophylactic tranexamic acid in high-risk patients undergoing Cesarean delivery in, 273
Recruitment
sustained value of implementation of a flexibility-based compensation structure for nurse anesthetists in multihospital healthcare system, 66
