The following is an index of the major topics addressed in the AANA Journal during 2019. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

A

AANA Foundation closed malpractice claims database: preventable closed claims in, 408
AANA Journal Courses: assessing frailty and its implications on anesthesia care and postoperative outcomes in surgical patients, 152; clarifying the confusion of adult emergent delirium in, 243; ketamine and treatment-resistant depression, 411; perioperative management of the direct-acting oral anticoagulants, 325; review of the analgesic benefits and potential complications related to epidural corticosteroid injections, 71; update for nurse anesthetists–current evidence-based practice for pediatric emergence agitation, 495. See also Education; Training programs
Accumulated Deficits Theory of Frailty: assessing frailty on anesthesia care and postoperative outcomes in surgical patients, 152
Admissions: inclusive recruitment and standards for, in increasing diversity in CRNA educational programs, 379
Adolescents: anesthetic management and perioperative outcomes associated with novel fusionless scoliosis surgery in, 404
Adults: clarifying the confusion of emergent delirium in, 243
African American parturients: refusal of epidural anesthesia for labor pain management by, 299
Aftermath of perioperative catastrophes survey: preliminary psychometric evaluation of the nurse anesthesia, 441
Aging: thinking positively about, 349; word games in forestalling cognitive decline, 95
Airway management: nasal ventilation mask for prevention of upper, in patients with obesity or obstructive sleep apnea, 395
Albala MZ: intravenous lidocaine for relief of chronic neuropathic pain [Wren et al.], 351
Alveolar-arterial gradient: in partial pressure of oxygen and \( \text{PaO}_2/\text{fraction of inspired oxygen} \) ratio measurements in pulmonary dysfunction, 214
Analgesia: comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty, 51; review of the benefits and potential complications related to epidural corticosteroid injections, 71
Anesthesia: assessing frailty and its implications on care and postoperative outcomes in surgical patient, 152; combined general and epidural, for emergency Cesarean delivery of twins in a parturient with coarctation of the aorta, 437; combined interscalene brachial plexus and superficial cervical plexus nerve block for midshaft clavicle surgery, 374; comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty, 51; double gloving technique in decreasing cross-contamination by providers, 307; exposure in the young child and long-term cognition, 231; hemo dynamically stable method for low flow, 390; high-fidelity mannequin simulation versus virtual simulation for recognition of critical events by student registered nurse anesthetists, 105; impact of education on professional involvement for student registered nurse anesthetists’s potential activism, 138; implications of inspired carbon dioxide during ophthalmic surgery performed using monitored care, 285; intraoperative change in urine color and, 26; management and perioperative outcomes associated with novel fusionless scoliosis surgery in adolescents, 404; management of laboring patient with a closed-loop stimulation pacemaker, 483; management of patient with severe diastolic dysfunction for umbilical hernia repair, 319; marijuana use in patient, 451; physiologic effects of ketamine in general, and spinal blockade, 489; preparing for total power failure in the operating room, 291; randomized controlled trial of, guided by bispectral index versus standard care, 115; randomized controlled trial of hemodynamically stable method for low-flow, 390; refusal of epidural, for labor pain management by African American parturients, 299; resuscitative endovascular balloon occlusion of the aorta as option for unexpected hemorrhagic shock, 19; role of telehealth in pre-anesthetic evaluations, 43; role of ultrasonography in guiding plan for patient with Charcot-Marie-Tooth disease, 110; ultrasound-guided intravascular line placement course for nurse anesthetists, 269
Anesthesia providers: evaluating a quality improvement initiative to increase use of and understanding of quantitative neuromuscular monitors, 357
Anesthetic equipment: preparing for total power failure in the operating room, 291
Animals: discovery of new species, 95
Anterior vertebral tethering: anesthesia management and perioperative outcomes associated with novel fusionless scoliosis surgery in adolescents, 404
Antibiotics: bacteria resistant to as cause of infection deaths and disability, 350
Anticoagulants: perioperative management of the direct-acting oral, 325
Aortic occlusion: resuscitative endovascular balloon, as an option for uncontrolled hemorrhagic shock, 19
Arms: pins and needles in, 265
Aroke EN: primer to pharmacogenetics of postoperative pain management [Aroke and Kittelsrud], 131
Arredondo A: ketamine and treatment-resistant depression [Lent et al.], 411
Arthroplasty: comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee, 51; near-infrared spectroscopy to measure tissue oxygen saturation during total knee, with use of a tourniquet, 192
Arthroscopy: beach chair position in a patient with subclavian steal syndrome and axillary lymph node dissection, 185
Assel M: effects of midazolam on postoperative nausea and vomiting and discharge times in outpatients undergoing cancer-related surgery [Majumdar et al.], 179
Assessment: role of alveolar-arterial gradient in partial pressure of oxygen and \( \text{PaO}_2/\text{fraction of inspired oxygen} \) ratio measurements in, for pulmonary dysfunction, 214. See also Measurement
Braun JT: characterizing anesthetic management and potential complications related to epidural corticosteroid injections, 71
Bacteria: antibiotic-resistant, as cause of infection, deaths, and disability, 350
Baribeau Y: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269
Barnhill WK: AANA Journal Course: a review of the analogic benefits and potential complications related to epidural corticosteroid injections [Gegel et al.], 71
Bartlett A: high-fidelity mannequin simulation versus virtual simulation for recognition of critical events by student registered nurse anesthetists [Erlinger et al.], 105
Batoo B: resuscitative endovascular balloon occlusion of the aorta as an option for uncontrolled hemorrhagic shock: current best practices and anesthetic implications [Howie et al.], 19
Beach chair position: in patient with subclavian steal syndrome and axillary lymph node dissection, 185
Becker A: critical events leading to endotracheal reintubation in the postanesthesia care unit: a retrospective inquiry of contributory factors [Haritos et al.], 59
Bedworth MB: evaluating a quality improvement initiative to increase anesthetics providers’ use of and understanding of quantitative neuromuscular monitors [Bedworth et al.], 357
Benzodiazepine: effects of midazolam on postoperative nausea and vomiting and discharge times in outpatients undergoing cancer-related surgery, 179
Best practices: resuscitative endovascular balloon occlusion of the aorta as an option for uncontrolled hemorrhagic shock, 19
Bispectral index: versus standard care in randomized controlled trial of anesthesia and effects of cognition, 115
Bittle C: toll of child neglect, and worse: two little, too late, 177
Bjørshol C: combined interscalene brachial plexus and superficial cervical plexus nerve block for midshaft clavicle surgery: a case series [Fugelli et al.], 374
Blindness: posterior ischemic optic neuropathy after extensive spine surgery, 37
Blood loss: accuracy of visually estimated, in surgical sponges by members of the surgical team, 277
Borza J: impact of education on professional involvement for student registered nurse anesthetists’s political activism: does education play a role? [Poole et al.], 138
Bose R: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269
Boust RR: preventable closed claims in the AANA Foundation closed malpractice claims database [Kremer et al.], 468
Boyd AS: burnout and the nurse anesthetist [Del Grosso and Boyd], 205
Brachial plexus blocks: delayed onset and prolonged Horner syndrome after single-shot ultrasound-guided infraclavicular and subclavian perivascular, for upper extremity surgery, 313
Braun JT: characterizing anesthetic management and perioperative outcomes associated with a novel, fusionless scoliosis surgery in adolescents [Chen et al.], 404
Broome ME: nasal ventilation mask for prevention of upper airway obstruction in patients with obesity or obstructive sleep apnea [Willard et al.], 395
Broussard M: resuscitative endovascular balloon occlusion of the aorta as an option for uncontrolled hemorrhagic shock: current best practices and anesthetic implications [Howie et al.], 19
Bubble boy disease: gene therapy in treating, 266
Bug bombs: effectiveness of, 96
Buonora JE: management of gravity intravenous infusions in an austere environment using the DripAssist Infusion Rate Monitor, 65
Burnout: nurse anesthetist and, 205

C
Calendar of Events, 80, 161, 252, 333, 420, 500
Cancer-related surgery: effects of midazolam on postoperative nausea and vomiting and discharge times in outpatients undergoing, 179
Cansino, C: effects of midazolam on postoperative nausea and vomiting and discharge times in outpatients undergoing cancer-related surgery [Majumdar et al.], 179
Carbon dioxide: implications of inspired, during ophthalmic surgery performed using monitored anesthesia care, 285
Cardiac arrest: cardiovascular complications in patients undergoing noncardiac surgery, 124
Cardiac closed claims thematic analysis: cardiovascular complications in patients undergoing noncardiac surgery, 124
Cardiology: management of a laboring patient with a closed-loop stimulation pacemaker, 483
Cardiovascular collapse: cardiovascular complications in patients undergoing noncardiac surgery, 124
Cardiovascular complications: in patients undergoing noncardiac surgery, 124
Case reports: anesthetic management of patient with severe diastolic dysfunction for umbilical hernia repair, 319; anesthetic management of laboring patient with, 483; beach chair position in patient with subclavian steal syndrome and axillary lymph node dissection, 185; combined interscalene brachial plexus and superficial cervical nerve block for midshaft clavicle surgery, 374; delayed onset and prolonged Horner syndrome after single-shot ultrasound-guided infraclavicular and subclavian perivascular brachial plexus blocks for upper extremity surgery, 313; posterior ischemic optic neuropathy after extensive spine surgery, 37
Catheters: development of a training program in, for Certified Registered Nurse Anesthetists using an N-of-1 method of placing, 11
Centimole SF: randomized controlled trial of anesthesia guided by bispectral index versus standard care: effects on cognition [Centimole et al.], 115
Centimole Z: randomized controlled trial of anesthesia guided by bispectral index versus standard care: effects on cognition [Centimole et al.], 115
Certification: perceived value of, in nonsurgical pain management, 29
Certified Registered Nurse Anesthetists (CRNA): barriers and facilitators to intraoperative alternatives to opioids, 459; burnout and the nurse anesthetist, 205; development of a training program in peripherally inserted central catheter placement for, 11; impact of education on professional involvement for students in political activism,
138; inclusive recruitment and admissions strategies to increase diversity in educational programs, 379; perceived value of certification in nonsurgical pain management, 29; resuscitative endovascular balloon occlusion of the aorta as an option for uncontrolled hemorrhagic shock, 19; ultrasound-guided intravenous line placement course for, 269. See also Anesthesia

Cesarean delivery: combined general and epidural anesthesia for emergency, for twins in a parturient with coarctation of aorta, 437

Chance EA: single dose of ketamine during kyphoplasty procedures does not reduce postoperative narcotic consumption [Sharp et al.], 199

Charcot-Marie-Tooth disease: ultrasonography in guiding an anesthetic plan for patient with, 110

Chen E: characterizing anesthetic management and perioperative outcomes associated with a novel, fusionless scoliosis surgery in adolescents [Chen et al.], 404

Children. See Pediatrics

Chronic pain: intravenous lidocaine for relief of neuropathic, 351; perceived value of certification in nonsurgical pain management, 29

Clavicle surgery: combined interscalene brachial plexus and superficial cervical nerve block for midshalt, 374

Clayton BA: it’s never just a block: an analysis of regional anesthesia closed claims [Hirsch et al.], 365; preventable closed claims in the AANA Foundation closed malpractice claims database [Kremer et al.], 468

Closed claims: analysis of regional anesthesia in, 365; preventable, in the AANA Foundation closed malpractice claims database, 468

Closed-loop stimulation pacemaker: management of laboring patient with, 483

Coarctation of aorta: combined general and epidural anesthesia for emergency Cesarean delivery of twins in a parturient with, 437

Cognition: anesthesia exposure in the young child and long-term, 231; randomized controlled trial of anesthesia guided by bispectral index versus standard care, 115; word games in forestalling age-related decline in, 95

Collins S: prevention and treatment of laryngospasm in the pediatric patient: a literature review [Collins et al.], 15

Collins-Yoder A: perioperative considerations in patients with concussion [King and Collins-Yoder], 97

Complications: cardiovascular, in patients undergoing noncardiac surgery, 124; review of the analgesic benefits and potential related to epidural corticosteroid injections, 71

Concussion: perioperative considerations in patients with, 97

Contamination: double gloving technique in decreasing cross-contamination by anesthesia providers, 307

Cook LA: impact of education on professional involvement for student registered nurse anesthetists’s political activism: does education play a role? [Poole et al.], 138

Coolidge B: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269

Corticosteroids: review of the analgesic benefits and potential complications related to epidural injections, 71

Critical events: high-fidelity mannequin simulation versus virtual simulation for recognition of, by student registered nurse anesthetists, 105; leading to endotracheal reintubation in the postanesthesia care unit, 59

Cross-contamination: double gloving technique in decreasing, by anesthesia providers, 307

Cubbison S: single dose of ketamine during kyphoplasty procedures does not reduce postoperative narcotic consumption [Sharp et al.], 199

D

Dalley CB: marijuana use in the anesthetized patient: history, pharmacology, and anesthetic considerations [Horvath et al.], 451

Darlong V: most hemodynamically stable method for change from high to low anesthesia flow: a randomized controlled trial comparing state entropy, high fresh gas flow for 10 minutes, and 0.8 ratio of end-expired agent concentration to inspired agent concentration [Punj et al.], 390

Death: antibiotic resistant bacteria as cause of, 350; improved genetic, to mosquitos, 96

Del Grosso B: burnout and the nurse anesthetist [Del Grosso and Boyd], 203

Denny NA: operating room waste reduction, 477

Depression: ketamine and treatment-resistant, 411

Diagnoses: differential, certifying the confusion of adult emergence delirium, 243

Diastolic dysfunction: anesthetic management of patient with severe, for umbilical hernia repair, 319

Diet: fiber in, 265

Differential diagnosis: clarifying the confusion of adult emergence delirium, 243

Direct-acting oral anticoagulants: perioperative management of, 325

Disability-adjusted life years: antibiotic resistant bacteria as cause of, 350

Discharge times: effects of midazolam on postoperative nausea and vomiting and, in outpatients undergoing cancer-related surgery, 179

Disparity: refusal of epidural anesthesia for labor pain management by African American parturients, 299

Diversity: inclusive recruitment and admissions strategies to increase, in CRNA educational programs, 379

Donoghue TJ: AANA Journal Course: assessing frailty and its implications on anesthesia care and postoperative outcomes in surgical patients, 152

Double-crust phenomenon: role of ultrasonography in guiding anesthetic plan for a patient with Charcot-Marie-Tooth disease, 110

Double gloving: in decreasing cross-contamination by anesthesia providers, 307

Drip Assist infusion rate monitor: management of gravity infusion rate, 19

Emergence delirium, 243

Contributory factors: critical events leading to endotracheal reintubation in the postanesthesia care unit, 59

Cook LA: impact of education on professional involvement for student registered nurse anesthetists’s political activism: does education play a role? [Poole et al.], 138

Coolidge B: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269

Corticosteroids: review of the analgesic benefits and potential complications related to epidural injections, 71

Critical events: high-fidelity mannequin simulation versus virtual simulation for recognition of, by student registered nurse anesthetists, 105; leading to endotracheal reintubation in the postanesthesia care unit, 59

Cross-contamination: double gloving technique in decreasing, by anesthesia providers, 307

Cubbison S: single dose of ketamine during kyphoplasty procedures does not reduce postoperative narcotic consumption [Sharp et al.], 199

D

Dalley CB: marijuana use in the anesthetized patient: history, pharmacology, and anesthetic considerations [Horvath et al.], 451

Darlong V: most hemodynamically stable method for change from high to low anesthesia flow: a randomized controlled trial comparing state entropy, high fresh gas flow for 10 minutes, and 0.8 ratio of end-expired agent concentration to inspired agent concentration [Punj et al.], 390

Death: antibiotic resistant bacteria as cause of, 350; improved genetic, to mosquitos, 96

Del Grosso B: burnout and the nurse anesthetist [Del Grosso and Boyd], 203

Denny NA: operating room waste reduction, 477

Depression: ketamine and treatment-resistant, 411

Diagnoses: differential, certifying the confusion of adult emergence delirium, 243

Diastolic dysfunction: anesthetic management of patient with severe, for umbilical hernia repair, 319

Diet: fiber in, 265

Differential diagnosis: clarifying the confusion of adult emergence delirium, 243

Direct-acting oral anticoagulants: perioperative management of, 325

Disability-adjusted life years: antibiotic resistant bacteria as cause of, 350

Discharge times: effects of midazolam on postoperative nausea and vomiting and, in outpatients undergoing cancer-related surgery, 179

Disparity: refusal of epidural anesthesia for labor pain management by African American parturients, 299

Diversity: inclusive recruitment and admissions strategies to increase, in CRNA educational programs, 379

Donoghue TJ: AANA Journal Course: assessing frailty and its implications on anesthesia care and postoperative outcomes in surgical patients, 152

Double-crust phenomenon: role of ultrasonography in guiding anesthetic plan for a patient with Charcot-Marie-Tooth disease, 110

Double gloving: in decreasing cross-contamination by anesthesia providers, 307

Drip Assist infusion rate monitor: management of gravity infusion rate, 19

Emergence delirium, 243

Contributory factors: critical events leading to endotracheal reintubation in the postanesthesia care unit, 59

Cook LA: impact of education on professional involvement for student registered nurse anesthetists’s political activism: does education play a role? [Poole et al.], 138

Coolidge B: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269

Corticosteroids: review of the analgesic benefits and potential complications related to epidural injections, 71

Critical events: high-fidelity mannequin simulation versus virtual simulation for recognition of, by student registered nurse anesthetists, 105; leading to endotracheal reintubation in the postanesthesia care unit, 59

Cross-contamination: double gloving technique in decreasing, by anesthesia providers, 307

Cubbison S: single dose of ketamine during kyphoplasty procedures does not reduce postoperative narcotic consumption [Sharp et al.], 199

D
death to mosquitoes?, 96; increase in female speakers at medical conferences over the past decade, 266; more reasons to include fiber in your diet?, 265; mosquitoes—what's good to know about these pests?, 349; new critters and plants added to the Earth’s species list, 95; “pins & needles” in the arms and legs, 263; poop vault? it’s all in the name of microbial biodiversity, 8; smell receptors in the tongue?, 266; thinking positive about getting older may have some health benefits, 349; toll of child neglect and worse; too little, too late, 177; treating cancer of the cervix: minimally invasive radical hysterectomy may not be the way to go; 7; word games: a way to forestall age-related cognitive decline?, 95

Education: clarifying the confusion of adult emergence delirium, 243; impact of, on professional involvement for student registered nurse anesthetist's political activism, 138; inclusive recruitment and admissions strategies to increase diversity in CRNA programs, 379; ketamine and treatment-resistant depression, 411; perioperative management of the direct-acting oral anticoagulants, 325; review of the analgesic benefits and potential complications related to epidural corticosteroid injections, 71; ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists, 269; update for nurse anesthetists—current evidence-based practice for pediatric emergence agitation, 495. See also AANA Journal Courses; Training courses

Eichhorn J: randomized controlled trial of anesthesia guided by bispectral index versus standard care: effects on cognition [Centimole et al.], 115

Elderly: assessing frailty and implications on anesthesia care and postoperative outcomes in surgical patients, 152

Emergence delirium: clarifying confusion of adult, 243

Endotracheal reintubation: critical events leading to, in the postanesthesia care unit, 59

Endovascular balloon occlusion of the aorta as an option for uncontrollable hemorrhagic shock, 19

Epidemiology: ketamine and treatment-resistant depression, 411

Epidurals: analgesic benefits and potential complications related to corticosteroid injection, 71; combined general and, for emergency Cesarean delivery of twins in a parturient with coarctation of aorta, 437; refusal of anesthesia, for labor pain management by African American parturients, 299; use of nalbuphine for treatment of neuropathic opioid-induced pruritus, 222. See also Anesthesia

Erlinger LR: high-fidelity mannequin simulation versus virtual simulation for recognition of critical events by student registered nurse anesthetist [Erlinger et al.], 105

Ersdal H: combined interscalene brachial plexus and superficial cervical plexus nerve block for midshaft clavicle surgery: a case series [Fugelli et al.], 374

Evidence-based practice: current, for pediatric emergence agitation, 495

F

Falyar CR: to block or not to block: role of ultrasonography in guiding an anesthetic plan for a patient with Charcot-Marie-Tooth disease [Falyar], 110

Female speakers: increase in, at medical conferences, 266

Femoral nerve blocks: comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty, 51

Feng R: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269

Fiber: in diet, 265

Floyd JP IV: AANA Journal Course: a review of the analgesic benefits and potential complications related to epidural corticosteroid injections [Gegel et al.], 71

Food addictions: identifying, 95

Frailty: assessment of, in anesthesia care and postoperative outcomes in surgical patients, 152

Frazier SK: randomized controlled trial of anesthesia guided by bispectral index versus standard care: effects on cognition [Centimole et al.], 115

Fugelli, CG: combined interscalene brachial plexus and superficial cervical plexus nerve block for midshaft clavicle surgery: a case series [Fugelli et al.], 374

G

Gadsden JC: use of near-infrared spectroscopy to measure tissue oxygen saturation during total knee arthroplasty with use of a tourniquet [Gaines et al.], 192

Gaines RR: use of near-infrared spectroscopy to measure tissue oxygen saturation during total knee arthroplasty with use of a tourniquet [Gaines et al.], 192

Garg R: intraoperative change in urine color: be cautious for a clinical entity! [Puri and Garg], 26

Gazoni FM: preliminary psychometric evaluation of the nurse anesthesia and the aftermath of perioperative catastrophes survey and the ways of coping questionnaire [van Pelt et al.], 441

Gegel BT: AANA Journal Course: a review of the analgesic benefits and potential complications related to epidural corticosteroid injections [Gegel et al.], 71

General anesthesia: combined interscalene brachial plexus and superficial cervical plexus nerve block for midshaft clavicle surgery, 374; physiologic effects of ketamine in, spinal blockade and, 489. See also Anesthesia

Gene therapy: in treating bubble boy disease, 266

Genetic death: improvised, to mosquitoes, 96

Golinski M: It's never just a block: an analysis of regional anesthesia closed claims [Hirsch et al.], 365

Goode VM: evaluating a quality improvement initiative to increase anesthesia providers’ use of and understanding of quantitative neuromuscular monitors [Bedworth et al.], 357

Grant SA: evaluating a quality improvement initiative to increase anesthesia providers’ use of and understanding of quantitative neuromuscular monitors [Bedworth et al.], 357

Grass N: marijuana use in the anesthetized patient: history, pharmacology, and anesthetic considerations [Horvath et al.], 451

Gravity: management of intravenous infusions in an austere environment using the Drip Assist infusion rate monitor, 65

Green urine: intraoperative change in urine color and, 26

Greiner S: JAMA Internal Medicine Course: understanding the ways of coping questionnaire [van Pelt et al.], 441

Greiner S: AANA Journal Course: understanding the ways of coping questionnaire [van Pelt et al.], 441

Greiner S: JAMA Internal Medicine Course: understanding the ways of coping questionnaire [van Pelt et al.], 441

Guglielmo RC: pharmacology and anesthetic considerations [Horvath et al.], 451

Guyer JM: operating room waste reduction, 477

Haas RE: critical events leading to endotracheal reintubation in the postanesthesia care unit: a retrospective inquiry of contributory factors [Haritos et al.], 59

Haggstrom A-C E: accuracy of visually estimated blood loss in surgical sponges by members of the surgical team [Kolberg et al.], 277

Hamilton Depression Scale (HAM-D): ketamine and treatment-resistant depression, 411

Harenberg JL: use of nalbuphine for treatment of neuraxial opioid-induced pruritus: a systematic review and meta-analysis [Tubog et al.], 222

Haritos G: critical events leading to endotracheal reintubation in the postanesthesia care unit: a retrospective inquiry of contributory factors [Haritos et al.], 59

Harman RJ: preparing for total power failure in the operating room [Vetter et al.], 291

Harris DE: role of alveolar-arterial gradient in partial pressure of oxygen and PaO2/fraction of inspired oxygen ratio measurements in assessment of pulmonary dysfunction [Harris and Massie], 214

Harris EM: evaluating a quality improvement initiative to increase anesthesia providers’ use of and understanding of quantitative neuromuscular monitors [Bedworth et al.], 357

Hart DW: AANA Journal Course: a review of the analgesic benefits and potential complications related to epidural corticosteroid injections [Gegel et al.], 71

Health benefits: positive thoughts about getting older, 349

Heart failure: management of patient with severe diastolic dysfunction for umbilical hernia repair, 319

Hemodynamically stable: determination for low-flow anesthesia, 390

Hemorrhage: resuscitative endovascular balloon occlusion for the aorta as option for uncontrolled noncompressible torso, 19

Hemorrhagic shock: resuscitative endovascular balloon occlusion of the aorta as option for uncontrolled, 19

Henson KS: comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty [Henson et al.], 51

Hepatitis C virus: contamination of vial surfaces, 266

Herna: anesthetic management of a patient with severe diastolic dysfunction for umbilical repair, 319

Hestand JD: use of nalbuphine for treatment of neuraxial opioid-induced pruritus: a systematic review and meta-analysis [Tubog et al.], 222

High-fidelity mannequin simulation: versus virtual simulation for recognition of critical events by student registered nurse anesthetists, 105

Hill L: inclusive recruitment and admissions strategies increase diversity in CRNA educational programs [Kilburn et al.], 379

Hirsch M: it’s never just a block: an analysis of regional anesthesia closed claims [Hirsch et al.], 365; preventable closed claims in the AANA Foundation Closed Malpractice Claims Database [Kremer et al.], 468

Horner syndrome: delayed onset and prolonged, after single-shot ultrasound-guided infraclavicular and subclavian perivascular brachial plexus block for upper extremity surgery, 313

Horvath C: marijuana use in the anesthetized patient: history, pharmacology, and anesthetic considerations [Horvath et al.], 451

Howe W: resuscitative endovascular balloon occlusion of the aorta as an option for uncontrolled hemorrhagic shock: current best practices and anesthetic implications [Howie et al.], 19

Hudson A: intravenous lidocaine for relief of chronic neuropathic pain [Wren et al.], 351

Infection: antibiotic-resistant bacteria as cause of, 350

Infection control: double gloving technique to decrease cross-contamination by anesthesia providers, 307; electric hand dryers in restrooms and, 330

Inspired carbon dioxide: implications of, during ophthalmic surgery performed using monitored anesthesia care, 285

Integrated reviews: anesthesia exposure in the young child and long-term cognition, 231; burnout and the nurse anesthetist, 205

Interscalene brachial plexus blocks: combined with superficial cervical nerve block for midshaft clavicle surgery, 374

Interventions: burnout and the nurse anesthetist, 205

Intraoperative change: for urine color, 26

Intravenous infusion: management of gravity in an austere environment using the DripAssist infusion rate monitor, 65

Intravenous lidocaine: for relief of chronic neuropathic pain, 351

Intravenous line placement: ultrasound-guided, course for Certified Registered Nurse Anesthetists, 269

Jaffe G: double gloving technique in decreasing cross-contamination by anesthesia providers [Jaffe and Moriber], 307

Jicha GA: randomized controlled trial of anesthesia guided by bispectral index versus standard care: effects on cognition [Centimole et al.], 115

Jones S: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269

Kane TD: AANA Journal Course: perioperative management of the direct-acting oral anticoagulants, 325

Karsonovich T: single dose of ketamine during kyphoplasty procedures does not reduce postoperative narcotic consumption [Sharp et al.], 199

Ketamine: physiologic effects of, in general anesthesia and spinal blockade, 489; single dose of, during kyphoplasty procedures does not reduce postoperative narcotic consumption, 199; treatment-resistant depression and, 411

Kilburn F: inclusive recruitment and admissions strategies increase diversity in CRNA educational programs
King D: perioperative considerations in patients with concussion [King and Collins-Yoder], 97
Kittelsrud JM: primer to pharmacogenetics of postoperative pain management [Aroke and Kittelsrud], 131
Klein M: critical events leading to endotracheal reintubation in the postanesthesia care unit: a retrospective inquiry of contributory factors [Haritos et al.], 59
Kollberg SE: accuracy of visually estimated blood loss in surgical sponges by members of the surgical team [Kolberg et al.], 277
Krasucki DJ: beach chair position in a patient with subclavian steal syndrome and axillary lymph node dissection, 185
Krawczuk S: barriers and facilitators to intraoperative alternatives to opioids: examining CRNA perspectives and practices, 459
Kremer M: AANA Journal course: clarifying the confusion of adult emergence delirium [Greiner and Kremer], 243; anesthesia exposure in the young child and long-term cognition [Rosenblatt et al.], 231; it’s never just a block: an analysis of regional anesthesia closed claims [Hirsch et al.], 365; perceived value of certification in nonsurgical pain management [Ward et al.], 29
Kremer MJ: preventable closed claims in the AANA Foundation Closed Malpractice Claims Database [Kremer et al.], 468
Kristol A: prevention and treatment of laryngospasm in the pediatric patient: a literature review [Collins et al.], 15
Krogh MA: perceived value of certification in nonsurgical pain management [Ward et al.], 29
Kyphoplasty: single dose of ketamine during, does not reduce postoperative narcotic consumption, 199

Labor pain: refusal of epidural anesthesia for, in African American parturients, 299
Lancaster RJ: intravenous lidocaine for relief of chronic neuropathic pain [Wren et al.], 351
Laryngospasm: prevention and treatment of, in the pediatric patient, 145
Leavitt K: intravenous lidocaine for relief of chronic neuropathic pain [Wren et al.], 351
Legs: pins and needles in, 265
Lent JK: ketamine and treatment-resistant depression [Lent et al.], 411
Lidocaine: intravenous, for relief of chronic neuropathic pain, 351
Lingehall HC: accuracy of visually estimated blood loss in surgical sponges by members of the surgical team [Kolberg et al.], 277
Literature review: development of a training program in peripherally inserted central catheter placement for Certified Registered Nurse Anesthetists using an N-of-1 method, 11; implications of inspired carbon dioxide during ophthalmic surgery performed using monitored anesthesia care, 285; intravenous lidocaine for relief of chronic neuropathic pain, 351; physiologic effects of ketamine in general anesthesia and spinal blockade, 489; posterior ischemic optic neuropathy after extensive spine surgery, 37; preparing for total power failure in the operating room, 291; prevention and treatment of laryngospasm in the pediatric patient, 145; role of telehealth in pre-anesthetic evaluations, 43
Local anesthesia: combined interscalene brachial plexus and superficial cervical plexus nerve block for midshaft clavicle surgery, 374. See also Anesthesia
Long M: effects of midazolam on postoperative nausea and vomiting and discharge times in outpatients undergoing cancer-related surgery [Majumdar et al.], 179
Low anesthesia flow: hemodynamically stable method for, 390
Lowrie LJ: comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty [Henson et al.], 51

Mahmood F: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269
Major depressive disorder: ketamine and treatment-resistant depression in, 411
Majumdar JR: effects of midazolam on postoperative nausea and vomiting and discharge times in outpatients undergoing cancer-related surgery [Majumdar et al.], 179
Malpractice: analysis of regional anesthesia closed claims, 365; cardiovascular complications in patients undergoing noncardiac surgery, 124; preventable closed claims in the AANA Foundation Closed Malpractice Claims Database, 468
Margolosky K: intravenous lidocaine for relief of chronic neuropathic pain [Wren et al.], 351
Marienau MS: operating room waste reduction, 477
Marijuana: in the anesthetized patient, 451
Massie M: role of alveolar-arterial gradient in partial pressure of oxygen and PaO2/fraction of inspired oxygen ratio measurements in assessment of pulmonary dysfunction [Harris and Massie], 214
Matyal R: ultrasound-guided intravenous line placement course for Certified Registered Nurse Anesthetists: a necessary step [Bortman et al.], 269
Maye JP: AANA Journal Course: a review of the analgesic benefits and potential complications related to epidural corticosteroid injections [Gegg et al.], 71
McDowell M: prevention and treatment of laryngospasm in the pediatric patient: a literature review [Collins et al.], 15
McHugh TA: implications of inspired carbon dioxide during ophthalmic surgery performed using monitored anesthesia care, 285
Meador GD: characterizing anesthetic management and perioperative outcomes associated with a novel, fusionless scoliosis surgery in adolescents [Chen et al.], 404
Measurement: integrative review of burnout and the nurse anesthetist, 205; role of alveolar-arterial gradient in partial pressure of oxygen and PaO2/fraction of inspired oxygen ratio, in assessment of pulmonary dysfunction, 214; of tissue oxygen saturation with near-infrared spectroscopy during total knee arthroplasty with use of a tourniquet, 192
Medical conferences: increase in female speakers at, 266
Meta-analysis: use of nalbuphine for treatment of neuraxial opioid-induced pruritus, 222
Methylene blue: intraoperative change in urine color and, 26
Midorazolam: effects of, on postoperative nausea and vomiting and discharge times in outpatients undergoing cancer-related surgery, 179
Mild traumatic brain injury: perioperative considerations in patients with, 97
Modak S: combined general and epidural anesthesia for...
emergency cesarean delivery of twins in a parturient with coarctation of aorta, 437
Monitored anesthesia care: implications of inspired carbon dioxide during ophthalmic surgery performed using, 285
Montgomery-Asberg Depression Rating Scale (MASRS): ketamine and treatment-resistant depression, 411
Morgan BT: use of near-infrared spectroscopy to measure tissue oxygen saturation during total knee arthroplasty with use of a tourniquet (Gaines et al.), 192
Moriber N: use of a double gloving technique to decrease cross-contamination by anesthesia providers [Jaffe and Moriber], 307
Morphine milligram equivalent dose: intravenous lidocaine for relief of chronic neuropathic pain, 351
Morrison S: development of a training program in peripherally inserted central catheter placement for Certified Registered Nurse Anesthetists using an N-of-1 method [Ostrowski et al.], 11
Moser DK: randomized controlled trial of anesthesia guided by bispectral index versus standard care: effects on cognition [Centimole et al.], 115
Mosquitoes: improvised genetic death to, 96; needed information on, 349
Muckler VC: nasal ventilation mask for prevention of upper airway obstruction in patients with obesity or obstructive sleep apnea [Willard et al.], 395
Muckle Tj: perceived value of certification in nonsurgical pain management [Ward et al.], 29

N
Nalbuphine: in treating neuraxial opioid-induced pruritus, 222
Narcotic consumption: single dose of ketamine during kyphoplasty procedures as not reducing postoperative, 199
Nasal ventilation mask: for prevention of upper airway obstruction in patients with obesity or obstructive sleep apnea, 395
Nausea: effects of midazolam on postoperative in patients undergoing cancer-related surgery, 179
Near-infrared spectroscopy: in measuring tissue oxygen saturation during total knee arthroplasty with a tourniquet, 192
Neuraxial opioid-induced pruritus: nalbuphine in treating, 222
Neuroaxial block: analysis of regionall anesthesia closed claims, 365
Neurometabolic cascade: perioperative considerations in patients with, 97
Neuromuscular blocking agents: evaluating a quality improvement initiative in increasing anesthesia providers’ use of, and understanding of quantitative, 357
Neuromuscular monitors: evaluating a quality improvement initiative in increasing anesthesia providers’ use of and understanding of quantitative, 357
Neuropathic pain: intravenous lidocaine for relief of chronic, 351
Neurotoxicity: anesthesia exposure in the young child and long-term cognition, 231
Nguyen D: critical events leading to endotracheal reintubation in the postanesthesia care unit: a retrospective inquiry of contributory factors [Haritos et al.], 59
N-of-1 method: development of a training program in peripherally inserted central catheter placement for Certified Registered Nurse Anesthetists, 11
Noncardiac surgery: cardiovascular complications in patients undergoing, 124
Noncompressible torso hemorrhage: resuscitative endovascular balloon occlusion of the aorta as option for uncontrolled, 19
Noninvasive cardiovascular monitoring: beach chair position in patient with subclavian steal syndrome and auxiliary lymph node dissection, 185
Nonsurgical pain management: perceived value of certification in, 29
Nurse anesthesia: high-fidelity mannequin simulation versus virtual simulation for recognition of critical events, by student registered nurse anesthetists, 105; impact of education for students in political activism, 138; preliminary psychometric evaluation of, 441; ultrasound-guided intravenous line placement course for, 269; update for, current evidence-based practice for pediatric emergence agitation, 495. See also Anesthesia

O
Obesity: nasal ventilation mask for prevention of upper airway obstruction in patients with, 395
Obstetrics: combined general and epidural anesthesia for emergency Cesarean delivery of twins in a parturient with coarctation of aorta, 437; management of a laboring patient with a closed-loop stimulation pacemaker, 483; refusal of epidural anesthesia for labor pain management by African American parturients, 299
Obstructive sleep apnea: nasal ventilation mask for preention of upper airway obstruction in patients with, 395
Olofsson B: accuracy of visually estimated blood loss in surgical sponges by members of the surgical team [Kolberg et al.], 277
Operating room: preparing for total power failure in the operating room, 291; waste reduction in, 477
Ophthalmic surgery: implications of inspired carbon dioxide during, performed using monitored anesthesia care, 285
Opioids: barriers and facilitators to intraoperative alternatives to, 459; comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty, 51; use of nalbuphine in treating neuraxial pruritus, 222
Oral anticoagulants: perioperative management of the direct-acting, 325
Orthopedics: combined interscalene brachial plexus and superficial cervical plexus nerve block for midshaft clavicle surgery, 374; comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty, 51; delayed onset and prolonged Horner Syndrome, after single-shot ultrasound-guided infraclavicular and subclavian perivascular brachial plexus blocks for upper extremity surgery, 313; use of near-infrared spectroscopy to measure tissue oxygen saturation during total knee arthroplasty with use of a tourniquet, 192
Ostrowski AM: development of a training program in peripherally inserted central catheter placement for Certified Registered Nurse Anesthetists using an N-of-1 method [Ostrowski et al.], 11
Outpatients: effects of midazolam on postoperative nausea and vomiting and discharge times in, when undergoing cancer-related surgery, 179; nasal ventilation mask for
P

Pain management: primer to pharmacogenetics of postoperative, 131; review of the analgesic benefits and potential complications related to epidural corticosteroid injections, 71

Pandey R: most hemodynamically stable method for change from high to low anesthesia flow: a randomized controlled trial comparing state entropy, high fresh gas flow for 10 minutes, and 0.8 ratio of end-expired agent concentration to inspired agent concentration [Punj et al.], 390

Paresthesias, 265

Partial pressure of oxygen and PaO₂/fraction: role of alveolar-arterial gradient in assessment of pulmonary dysfunction, 214

Parturients: combined general and epidural anesthesia for emergency Cesarean delivery of twins in, with coarctation of aorta, 437; refusal of epidural anesthesia for labor pain management by African American, 299

Patient care: beach chair position in patient with subclavian steal syndrome and axillary lymph node dissection, 185; perioperative considerations in patients with concussion, 97

Patient simulation: high-fidelity mannequin versus virtual for recognition of critical events by student registered nurse anesthetists, 105

Pell C: inclusive recruitment and admissions strategies increase diversity in CRNA educational programs [Kilburn et al.], 379

Perceived value of certification: in nonsurgical pain management, 29

Perceived Value of Certification Tool (PVCT): perceived value of certification in nonsurgical pain management, 29

Perez A: high-fidelity mannequin simulation versus virtual simulation for recognition of critical events by student registered nurse anesthetists [Erlinger et al.], 105

Periarticular injections: comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty, 51

Perioperative Catastrophes Survey: preliminary psychometric evaluation of the nurse anesthetist and the aftermath of, 441

Perioperative management: of anesthesia associated with novel fusionless scoliosis surgery in adolescents, 404; of the direct-acting oral anticoagulants, 325; in patients with concussion, 97

Peripherally inserted central catheter placement: development of a training program in, for Certified Registered Nurse Anesthetists using an N-of-1 method, 11

Peripheral nerve block: analysis of regional anesthesia closed claims, 365

Peripheral nerve stimulation: evaluating a quality improvement initiative in increasing anesthesia providers' use of and understanding of quantitative neuromuscular monitors, 357

Peripheral neuropathy: ultrasonography in guiding anesthetic plan for a patient with Charcot-Marie-Tooth disease, 110

Pharmacogenetics: primer to, for postoperative pain management, 131

Pharmacogenomics: primer to pharmacogenetics of postoperative pain management, 131

Pharmacology: barriers and facilitators to intraoperative alternatives to opioids, 459; marijuana use in the anesthetized patient, 451

Phenotype Theory of Frailty: assessing frailty on anesthesia care and postoperative outcomes in surgical patients, 152

Pins and needles in the arms and legs, 265

Plants: discovery of new species, 95

Poepsel S: anesthetic management of a laboring patient with a closed-loop stimulation pacemaker: a case report, 483

Political activism: impact of education on professional involvement for student registered nurse anesthetists, 138

Polamono RC: preliminary psychometric evaluation of the nurse anesthetist and the aftermath of perioperative catastrophes survey and the ways of coping questionnaire [van Pelt et al.], 441

Poole J: impact of education on professional involvement for student registered nurse anesthetists’s political activism: does education play a role? [Poole et al.], 138

Porter MD: Inclusive recruitment and admissions strategies increase diversity in CRNA educational programs [Kilburn et al.], 379

Postanesthesia care: critical events leading to endotracheal reintubation in, 59

Posterior ischemic optic neuropathy: after extensive spine surgery, 37

Posterior spinal fusion: anesthesia management and perioperative outcomes associated with novel fusionless scoliosis surgery in adolescents, 404

Postoperative cognitive dysfunction: randomized controlled trial of anesthesia guided by bispectral index versus standard care, 115

Postoperative narcotic consumption: single dose of ketamine during kyphoplasty procedures as not reducing, 199

Postoperative nausea and vomiting: effects of midazolam on, and discharge times in outpatients undergoing cancer-related surgery, 179

Postoperative outcomes: assessing frailty and its implications on anesthesia care and, in surgical patients, 152

Postoperative pain: single dose of ketamine during kyphoplasty procedures as not reducing narcotic consumption, 190

Postoperative vision loss: posterior ischemic optic neuropathy after extensive spine surgery, 37

Power failure: preparing for total, in the operating room, 291

Prater K: role of telehealth in pre-anesthetic evaluations [Schoen and Prater], 43

Pre-anesthetic evaluations: role of telehealth in, 43

Prevention: of laryngospasm in the pediatric patient, 145

Professional involvement: impact of education, on student registered nurse anesthetists's political activism, 138

Protective reflex: prevention and treatment of laryngospasm in the pediatric patient, 145

Pruritus: use of nalbuphine for treatment of neuraxial opioid-

Telehealth: in pre-anesthetic evaluations, 43

Tendolkar BA: combined general and epidural anesthesia for emergency cesarean delivery of twins in a parturient with coarctation of aorta, 437

Thakur D: combined general and epidural anesthesia for emergency cesarean delivery of twins in a parturient with coarctation of aorta, 437

Thomley JE: comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing total knee arthroplasty [Henson et al.], 31

Thompson JA: evaluating a quality improvement initiative to increase anesthesia providers’ use of and understanding of quantitative neuromuscular monitors [Bedworth et al.], 357

Tissue oxygen saturation: use of near-infrared spectroscopy to measure, during total knee arthroplasty with use of a tourniquet, 192

Titch JF: preparing for total power failure in the operating room [Vetter et al.], 291

Tola DH: marijuana use in the anesthetized patient: history, pharmacology, and anesthetic considerations [Horvath et al.], 451

Tongue: smell receptors in the, 266

Total intravenous anesthesia (TIVA): management of gravity intravenous infusions in an austere environment using the DripAssist Infusion Rate Monitor, 65. See also Anesthesia

Total knee arthroplasty (TKA): comparison of selected outcomes associated with two postoperative analgesic approaches in patients undergoing, 31; near-infrared spectroscopy in measuring tissue oxygen saturation during, with use of a tourniquet, 192

Tourniquet: near-infrared spectroscopy in measuring tissue oxygen saturation during total knee arthroplasty with use of a, 192

Tracheal reintubation: of surgical patient in the postanesthesia care unit, 59

Training program: development of, in peripherally inserted central catheter placement for Certified Registered Nurse Anesthetists using an N-of-1 method, 11. See also AANA Journal Courses; Education

Transversus abdominis plane: anesthetic management of patient with severe diastolic dysfunction for umbilical hernia repair, 319

Trauma: resuscitative endovascular balloon occlusion of the aorta (REBOA) as option for uncontrolled hemorrhagic shock, 19

Traumatic brain injury: perioperative considerations in patients with, 97

Treatment: prevention and, of laryngospasm in the pediatric patient, 145

Trunical blocks: management of patient with severe diastolic dysfunction for umbilical hernia repair, 319

Tubog TD: perioperative management of the direct-acting oral anticoagulants [Kane and Tubog], 325; use of nalbuphine for treatment of neuraxial opioid-induced pruritus: a systematic review and meta-analysis [Tubog et al.], 222

Twersky R: effects of midazolam on postoperative nausea and vomiting and discharge times in outpatients undergoing cancer-related surgery [Majumdar et al.], 179
brachial plexus block for upper extremity surgery, 313; in
guiding an anesthetic plan for patient with Charcot-Marie-
Tooth disease, 110; ultrasound-guided intravenous line
placement course for nurse anesthesia, 269
Umbilical hernia repair: anesthetic management of patient with
severe diastolic dysfunction for, 319
Upper extremity surgery: delayed onset and prolonged
Horner syndrome after single-shot ultrasound-guided
infraclavicular and subclavian perivascular brachial plexus
blocks for, 313
Urine color: intraoperative change in, 26
Vacchiano CA: evaluating a quality improvement initiative to
increase anesthesia providers’ use of and understanding of
quantitative neuromuscular monitors [Bedworth et al.],
357; preparing for total power failure in the operating
room [Vetter et al.], 291; use of near-infrared spectroscopy
to measure tissue oxygen saturation during total knee
arthroplasty with use of a tourniquet (Gaines et al.), 192
Validation: perceived value of certification in nonsurgical pain
management, 29
van Pelt FA: preliminary psychometric evaluation of the nurse
anesthesia and the aftermath of perioperative catastrophes
survey and the ways of coping questionnaire [van Pelt et
al.], 441
van Pelt M: preliminary psychometric evaluation of the nurse
anesthesia and the aftermath of perioperative catastrophes
survey and the ways of coping questionnaire [van Pelt et
al.], 441
Veasey B: prevention and treatment of laryngospasm in the
pediatric patient: a literature review [Collins et al.], 15
Velasco D: barriers and facilitators to intraoperative
alternatives to opioids: examining CRNA perspectives and
practices, 459
Venous access: ultrasound-guided intravenous line placement
course for nurse anesthesia, 269
Vertosick E: effects of midazolam on postoperative nausea
and vomiting and discharge times in outpatients
undergoing cancer-related surgery [Majumdar et al.], 179
Vetter AG: preparing for total power failure in the operating
room [Vetter et al.], 291
Vial surfaces: Hepatitis C virus contamination of, 266
Vision loss: posterior ischemic optic neuropathy after
extensive spine surgery, 37
Visual estimation: accuracy of, for blood loss in surgical
sponges by members of the surgical team, 277
Wade KL: update on the physiologic effects of ketamine in
general anesthesia and spinal blockade: a review of the
literature [Ragule et al.], 489
Walesh M: intravenous lidocaine for relief of chronic
neuropathic pain [Wren et al.], 351
Walker D: comparison of selected outcomes associated
with two postoperative analgesic approaches in patients
undergoing total knee arthroplasty [Henson et al.], 51
Ward RC: perceived value of certification in nonsurgical pain
management [Ward et al.], 29
Warfarin: perioperative management of the direct-acting oral
anticoagulants, 325
Waste reduction: operating room, 477
Watkins JF: randomized controlled trial of anesthesia guided
by bispectral index versus standard care: effects on
cognition [Centimole et al.], 115
Ways of coping questionnaire: preliminary psychometric
evaluation of the nurse anesthesia and the aftermath of, 441
Westley ET: combined interscalene brachial plexus and
superficial cervical plexus nerve block for midshaft clavicle
surgery: a case series [Fugelli et al.], 374
Wilbanks B: It’s never just a block: an analysis of regional
anesthesia closed claims [Hirsch et al.], 365
Wilbanks BA: preventable closed claims in the AANA
Foundation Closed Malpractice Claims Database [Kremer
et al.], 468
Willard CE: nasal ventilation mask for prevention of upper
airway obstruction in patients with obesity or obstructive
sleep apnea [Willard et al.], 395
Wong V: ultrasound-guided intravenous line placement
course for Certified Registered Nurse Anesthetists: a
necessary step [Bortman et al.], 269
Word games: in forestalling age-related cognitive decline, 95
Wren K: intravenous lidocaine for relief of chronic
neuropathic pain [Wren et al.], 351
X
X-linked severe combined immunodeficiency disorder:
treating with gene therapy, 266
