

The following is an index of the major topics addressed in the AANA Journal during 2008. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

- A**
- AANA contact information, 52; 207; 324
- AANA history see *Imagining in Time*, 173
- AANA Journal Course No. 27 Examination Information—Update for nurse anesthetists, 139
- AANA Journal Course No. 27 Examination—Update for nurse anesthetists (answer form), 140
- AANA Journal Course No. 27 Examination—Update for nurse anesthetists (examination questions), 144
- AANA Journal Course No. 27 Examination—Update for nurse anesthetists (examination answers), 302
- AANA Journal Course No. 27—2008 Evaluation Form, 141
- AANA Journal Course
- Part 6—Oxygen: The two-faced elixir of life, 61; Part 1—Toward reducing perioperative transfusions, 131; Part 2—Evidence-based anesthesia: Fever of unknown origin in parturients and neuraxial anesthesia, 221; Part 3—An emerging clinical paradigm: The cuffed pediatric endotracheal tube, 293; Part 4—Gender differences in pain: Does X = Y? 355; Part 5—Implications of immune function to anesthesia care, 449
- Abdominal aortic aneurysm see State of the Science general and oral poster sessions, A61
- Abdominal surgery
- The effects of chrysin, a *Passiflora incarnata* extract, on natural killer cell activity in male Sprague-Dawley rats undergoing abdominal surgery, 113 (correction, 413)
- Absorptive capacity see State of the Science general and oral poster sessions, A8
- Academic faculty see Faculty
- Academic persistence
- Attrition in nurse anesthesia educational programs as reported by program directors: The class of 2005, 277
- Accreditation
- Council on Accreditation of Nurse Anesthesia educational programs to be reviewed during fiscal year 2009, 36
- Achondroplasia
- Anesthesia for cesarean delivery in an achondroplastic dwarf: A case report, 435
- ACLS see Advanced cardiac life support
- Acute normovolemic hemodilution see AANA Journal Course, Part 1, 131
- Adamczak JL see State of the Science general and oral poster sessions, A1
- Adams C see State of the Science general and oral poster sessions, A32
- Adjunct
- Dexmedetomidine: A useful adjunct to consider in some high-risk situations, 335
- Administration
- see Education News, 12; 331
- Advanced cardiac life support see State of the Science general and oral poster sessions, A28; A29; A30
- Advanced practice see State of the Science general and oral poster sessions, A14; A22
- Adverse drug reactions
- Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41
- Adverse events
- Epidural conduction device fractures and complications of retained fragments, 37; Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41
- Age factors see State of the Science general and oral poster sessions, A42; A67
- Airway
- see Letters, 11; Difficult mask ventilation in a 5-year-old due to submental hypertrophic scar: A case report, 177; State of the Science general and oral poster sessions, A40; A58; Anesthesia for cesarean delivery in an achondroplastic dwarf: A case report, 435
- Aker J see AANA Journal Course, Part 3, 293
- Albertini R see State of the Science general and oral poster sessions, A28
- Albuterol see State of the Science general and oral poster sessions, A39
- alpha-Amylase see State of the Science general and oral poster sessions, A9
- Alzheimer disease see State of the Science general and oral poster sessions, A42
- Ama TC see State of the Science general and oral poster sessions, A2
- Ambient temperature see State of the Science general and oral poster sessions, A7
- Ambulatory surgery see State of the Science general and oral poster sessions, A27
- Aminocaproic acid
- Current antifibrinolytic therapy for coronary artery revascularization, 121; see AANA Journal Course, Part 1, 131
- Amniotic fluid embolism
- Suspected amniotic fluid embolism following amniotomy: A case report, 53
- Amundson T see DeBoer S
- Amyloid@ peptide see State of the Science general and oral poster sessions, A42
- Analgesia
- Dexmedetomidine: A useful adjunct to consider in some high-risk situations, 335; see AANA Journal Course, Part 4, 355; State of the Science general and oral poster sessions, A5; A6; A24; A25; A53; A54; A62; A68; A69
- Anaphylactoid syndrome of pregnancy
- Suspected amniotic fluid embolism following amniotomy: A case report, 53
- Anaphylaxis
- Methylene blue for refractory hypotension: A case report, 271
- Anatomy see AANA Journal Course, Part 3, 293
- Ancona AL see Wetzel LE; Letters 246
- Anesthesia care team see State of the Science general and oral poster sessions, A64
- Anesthesia critical events
- CRNA performance using a handheld, computerized, decision-making aid during critical events in a simulated environment: A methodologic inquiry, 29
- Anesthesia for cesarean delivery in an achondroplastic dwarf: A case report, 435
- Anesthesia in a child with pyruvate dehydrogenase deficiency: A case report, 432

- Anesthesia equipment see State of the Science general and oral poster sessions, A12
- Anesthesia gas concentrations see Letters, 327
- Anesthesia machines see State of the Science general and oral poster sessions, A55
- Anesthesia providers see State of the Science general and oral poster sessions, A23
- Anesthetic management of an infant undergoing radical nephrectomy for Wilms tumor: A case report, 199
- Anesthetic mechanism
- A review of recent studies relating ligand diffusion, general anesthesia, and sleep, 109
- Annual meetings see *Imagining in Time*, 173
- Antifibrinolytics
- Current antifibrinolytic therapy for coronary artery revascularization, 121; see *AANA Journal Course*, Part 1, 131
- Antepartum patient education see State of the Science general and oral poster sessions, A24
- Antibiotics see *AANA Journal Course*, Part 2, 221
- Anticoagulation see State of the Science general and oral poster sessions, A41
- Antimuscarinic agents see Letters, 165
- Anxiety
- The effects of chrysin, a *Passiflora incarnata* extract, on natural killer cell activity in male Sprague-Dawley rats undergoing abdominal surgery, 113; see State of the Science general and oral poster sessions, A9; A27; A32 (correction, 413)
- Anxiolysis
- Investigation of the anxiolytic effects of linalool, a lavender extract, in the male Sprague-Dawley rat, 47; Dexmedetomidine: A useful adjunct to consider in some high-risk situations, 335
- Apnea see State of the Science general and oral poster sessions, A56
- Aprepitant see State of the Science general and oral poster sessions, A43
- Aprotinin
- Current antifibrinolytic therapy for coronary artery revascularization, 121; see *AANA Journal Course*, Part 1, 131
- Arndt M see State of the Science general and oral poster sessions, A17
- Arrhythmia
- Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41; see State of the Science general and oral poster sessions, A58
- Arterial pressure see State of the Science general and oral poster sessions, A34
- Arthroscopic knee procedures see State of the Science general and oral poster sessions, A69
- Arthroscopic shoulder surgery see State of the Science general and oral poster sessions, A53
- Assessment see State of the Science general and oral poster sessions, A38
- Asthma see State of the Science general and oral poster sessions, A39
- Asystole see Letters, 165
- Asystole during laryngoscopy of a patient with pleural and pericardial effusions: A case report, 25
- Atrial fibrillation
- High-frequency jet ventilation during radiofrequency ablation: A case report, 209
- Atrial tachycardia
- High-frequency jet ventilation during radiofrequency ablation: A case report, 209
- Atropine see Letters, 165
- Attitudes see State of the Science general and oral poster sessions, A47; A64
- Attrition
- Attrition in nurse anesthesia educational programs as reported by program directors: The class of 2005, 277
- Audiovisual facilitation of clinical knowledge: A paradigm for dispersed student education based on Paivio's dual coding theory, 194
- Auscultation see State of the Science general and oral poster sessions, A58
- Austere environment see State of the Science general and oral poster sessions, A20
- Austin see State of the Science general and oral poster sessions, A3
- Autologous blood donation see *AANA Journal Course*, Part 1, 131
- Autologous transfusion see State of the Science general and oral poster sessions, A61
- Autonomic nervous system see State of the Science general and oral poster sessions, A66
- Autonomous practice see State of the Science general and oral poster sessions, A36
- Awake intubation
- Multidisciplinary Management of Peripartum Cardiomyopathy During Repeat Cesarean Delivery: A Case Report, 443

## B

- Babins N see Huang J
- Bain SA see State of the Science general and oral poster sessions, A4
- Baker W see State of the Science general and oral poster sessions, A69
- Bakken DP see State of the Science general and oral poster sessions, A61
- Balalubramaniam M see State of the Science general and oral poster sessions, A17
- Barber KR see Brewer D
- Barr Z see State of the Science general and oral poster sessions, A3
- Baudek AV see State of the Science general and oral poster sessions, A5
- Baxter S see Brewer D
- Beaumont DM, Mark TM Jr, Hills R, Dixon P, Veit B, Garrett N: The effects of chrysin, a *Passiflora incarnata* extract, on natural killer cell activity in male Sprague-Dawley rats undergoing abdominal surgery, 113 (correction, 413)
- Behavioral therapy see State of the Science general and oral poster sessions, A66
- Beltz J see State of the Science general and oral poster sessions, A6
- Beneficence see Legal Briefs, 417
- Benzocaine spray
- Intraoperative detection of methemoglobinemia in a patient given benzocaine spray to relieve discomfort from a nasogastric tube: A case report, 99
- Bertrand PM see State of the Science general and oral poster sessions, A66
- Beta blockers see Letters, 413
- Bevel orientation
- The influence of spinal needle orientation during administration of subarachnoid blocks on discharge criteria in same-day surgical patients, 203
- Biddle C see Coopmans VC; *AANA Journal Course*, Part 6, 61; see Hartland W
- Bilsky EJ see State of the Science general and oral poster sessions, A51
- Bier block
- The efficacy of ketorolac as an adjunct to the Bier block for controlling postoperative pain following nontraumatic hand and wrist surgery, 341

Biomedical research see State of the Science general and oral poster sessions, A31

Blaze JL see State of the Science general and oral poster sessions, A2

Blood contamination see State of the Science general and oral poster sessions, A12

Blood glucose see State of the Science general and oral poster sessions, A15; A17

Blood loss see State of the Science general and oral poster sessions, A63

Blood substitutes see State of the Science general and oral poster sessions, A37

Blood transfusion see State of the Science general and oral poster sessions, A37

Body piercing and airway management: Photo guide to tongue jewelry removal techniques, 19

Bohan KJ see State of the Science general and oral poster sessions, A9

Books, Etc.  
 Procedures, Techniques, and Minimally Invasive Monitoring in Intensive Care Medicine, 28; Complications in Anesthesiology, 120; Raj's Practical Management of Pain, 248; Perianesthesia Patient Care for Uncommon Diseases, 326

Bounmythavong S see State of the Science general and oral poster sessions, A2

Bower TC see State of the Science general and oral poster sessions, A61

Boyle JW see State of the Science general and oral poster sessions, A20

Bracken S see Cline M

Bradycardia see Letters, 413

Brain injury see State of the Science general and oral poster sessions, A45

Brandt S see State of the Science general and oral poster sessions, A10

Breece L see State of the Science general and oral poster sessions, A6

Brewer D, Baxter S, Marsh D, Saraceno D, Barber KR, Lebeck LL: The influence of spinal needle orientation during administration of subarachnoid blocks on discharge criteria in same-day surgical patients, 203

Brommer CJ see State of the Science general and oral poster sessions, A41

Bronchodilators see State of the Science general and oral poster sessions, A39

Bronchospasm see State of the Science general and oral poster sessions, A58

Brown J see State of the Science general and oral poster sessions, A35

Brown K see State of the Science general and oral poster sessions, A6

Brown M see State of the Science general and oral poster sessions, A30

Brown M-A see State of the Science general and oral poster sessions, A36

Buen JE see State of the Science general and oral poster sessions, A9

Bullard laryngoscope  
 Preliminary case series report: Use of the laryngeal mask airway Fastrach oral endotracheal tube with the Bullard laryngoscope, 265

Bullock RM see State of the Science general and oral poster sessions, A45

Burgess H see State of the Science general and oral poster sessions, A60

Burkard JF see Rivera JJ

Burns SM see State of the Science general and oral poster sessions, A7

Butterweck V, see Letters, 413

## C

Cain BS see Shannon-Cain J

Cain GP see State of the Science general and oral poster sessions, A8

Cancer  
 The effects of chrysin, a *Passiflora incarnata* extract, on natural killer cell activity in male Sprague-Dawley rats undergoing abdominal surgery, 113 (correction, 413)

Capital punishment see Legal Briefs, 417

Carbon dioxide  
 Subcutaneous carbon dioxide emphysema following laparoscopic salpingo-oophorectomy: A case report, 282

Cardiac bypass  
 Current antifibrinolytic therapy for coronary artery revascularization, 121

Cardiac effusion  
 Asystole during laryngoscopy of a patient with pleural and pericardial effusions: A case report, 25; see Letters, 165

Cardiac output see State of the Science general and oral poster sessions, A34

Cardiac rhythm disturbances see State of the Science general and oral poster sessions, A34

Cardiac valves  
 Mitral valve replacement: A case report, 125

Cardiomyopathy  
 Multidisciplinary Management of Peripartum Cardiomyopathy During Repeat Cesarean Delivery: A Case Report, 443

Cardiopulmonary bypass see State of the Science general and oral poster sessions, A41

Cardiopulmonary complications see State of the Science general and oral poster sessions, A58

Cardiovascular effects  
 Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41; see Letters, 413

Carpenter KD see State of the Science general and oral poster sessions, A63

Carroll T see State of the Science general and oral poster sessions, A8; A24

Carroll TL see State of the Science general and oral poster sessions, A13

Catheter fragments  
 Epidural conduction device fractures and complications of retained fragments, 37

Catheters, vascular see State of the Science general and oral poster sessions, A44

Central nervous system see State of the Science general and oral poster sessions, A32

Central venous catheters see State of the Science general and oral poster sessions, A44

Cerebral oxygenation see State of the Science general and oral poster sessions, A45

Ceremuga TE see Cline M; State of the Science general and oral poster sessions, A23; see Letters, 413

Cesarean delivery  
 Anesthesia for cesarean delivery in an achondroplastic dwarf: A case report, 435; Multidisciplinary Management of Peripartum Cardiomyopathy During Repeat Cesarean Delivery: A Case Report, 443

Chandler R see State of the Science general and oral poster sessions, A43

Chemical weapons  
 Nerve agents: Implications for anesthesia providers, 95 (correction, 166)

Chiffer KA see State of the Science general and oral poster sessions, A9

Child  
 Anesthetic management of an infant undergoing radical nephrectomy for Wilms tumor: A case report, 199; see

- AANA Journal Course, Part 3, 293; Masseter muscle rigidity, elevated creatine kinase, and rhabdomyolysis following succinylcholine administration: A case report, 349; State of the Science general and oral poster sessions, A48; A49
- Chin-Quee C see State of the Science general and oral poster sessions, A29; A30
- Cholinesterase inhibitors  
Nerve agents: Implications for anesthesia providers, 95 (correction, 166)
- Chong N see Elisha S
- Chorioamnionitis see AANA Journal Course, Part 2, 221
- Chreode theory  
A review of recent studies relating ligand diffusion, general anesthesia, and sleep, 109
- Chronic obstructive pulmonary disease see State of the Science general and oral poster sessions, A39
- Chronic pain see State of the Science general and oral poster sessions, A66
- Chronotype see State of the Science general and oral poster sessions, A60
- Chrysin  
The effects of chrysin, a *Passiflora incarnata* extract, on natural killer cell activity in male Sprague-Dawley rats undergoing abdominal surgery, 113 (correction, 413)
- Cipic E see Reckard D
- Cline M, Taylor JE, Flores J, Bracken S, Ceremuga TE:  
Investigation of the anxiolytic effects of linalool, a lavender extract, in the male Sprague-Dawley rat, 47
- Clark DN see State of the Science general and oral poster sessions, A10
- Clinical doctorate completion program see State of the Science general and oral poster sessions, A22
- Clinical faculty see Faculty
- Clinical performance see State of the Science general and oral poster sessions, A67
- Clinical practice patterns see State of the Science general and oral poster sessions, A56
- Clinical preceptors see State of the Science general and oral poster sessions, A57
- Coagulation tests see State of the Science general and oral poster sessions, A41
- Coagulopathies  
Suspected amniotic fluid embolism following amniotomy: A case report, 53; see State of the Science general and oral poster sessions, A41
- Cognitive impairment see State of the Science general and oral poster sessions, A42
- Cold see State of the Science general and oral poster sessions, A20
- Cold pressor test see State of the Science general and oral poster sessions, A66
- Collaboration see State of the Science general and oral poster sessions, A64; A65
- Combat  
see Letters, 11; A field-expedient Ohmeda universal portable anesthesia complete draw-over vaporizer setup, 185; see State of the Science general and oral poster sessions, A18; A45
- Comfort see State of the Science general and oral poster sessions, A48
- Communication skills  
A successful partnership to help reduce health disparities: The Institute for Culturally Competent Care and the Kaiser Permanente School of Anesthesia/California State University Fullerton, 437
- Comparison of 2 laryngeal tracheal anesthesia techniques in reducing emergence phenomena, 425
- Competence see State of the Science general and oral poster sessions, A57
- Complications  
AANA Journal Course, Part 6, 61; Subcutaneous carbon dioxide emphysema following laparoscopic salpingo-oophorectomy: A case report, 282; see State of the Science general and oral poster sessions, A10; A42; A44; A56; A58
- Computer-assisted decision making  
CRNA performance using a handheld, computerized, decision-making aid during critical events in a simulated environment: A methodologic inquiry, 29
- Confusion see State of the Science general and oral poster sessions, A42; A49
- Conners M see State of the Science general and oral poster sessions, A52
- Continuous lumbar epidural analgesia see State of the Science general and oral poster sessions, A68
- Contracts see Legal Briefs, 85
- Controlled substances see State of the Science general and oral poster sessions, A36
- Convection warming device see State of the Science general and oral poster sessions, A46
- Cooper AS see Wetzel LE; Letters 246
- Cooper K see State of the Science general and oral poster sessions, A56
- Cooper KE see State of the Science general and oral poster sessions, A7
- Coopmans VC, Biddle C: CRNA performance using a handheld, computerized, decision-making aid during critical events in a simulated environment: A methodologic inquiry, 29
- COPD see Chronic obstructive pulmonary disease
- Coping mechanisms see State of the Science general and oral poster sessions, A19
- Corazza M see State of the Science general and oral poster sessions, A17
- Core temperature measurements see State of the Science general and oral poster sessions, A21
- Cormack and Lehane Scale see State of the Science general and oral poster sessions, A40
- Coronary arteries  
Current antifibrinolytic therapy for coronary artery revascularization, 121
- Corrections  
(Nerve agents: Implications for anesthesia providers, 95), 166; (The effects of chrysin, a *Passiflora incarnata* extract, on natural killer cell activity in male Sprague-Dawley rats undergoing abdominal surgery, 113), 413
- Cortisol see State of the Science general and oral poster sessions, A60
- Cotton K see State of the Science general and oral poster sessions, A35
- Cough  
The effectiveness of 4% intracuff lidocaine reducing coughing during emergence from general anesthesia in smokers undergoing procedures lasting less than 1.5 hours, 105; see Letters 246; see State of the Science general and oral poster sessions, A1; Comparison of 2 laryngeal tracheal anesthesia techniques in reducing emergence phenomena, 425
- Council for Public Interest in Anesthesia, Official listing of members 468
- Council on Accreditation of Nurse Anesthesia educational programs to be reviewed during fiscal year 2009, 36, 431; Official listing of members, 455; Recognized educational programs, 455
- Council on Certification of Nurse Anesthetists, Official listing of members, 469
- Council on Recertification of Nurse Anesthetists, Official listing of members, 469
- Courtney JT see State of the Science general and oral poster sessions, A11
- Covert K see Education News, 257

- Cox GH see Letters, 328
- Creatine kinase  
 Masseter muscle rigidity, elevated creatine kinase, and rhabdomyolysis following succinylcholine administration: A case report, 349
- Crerar C, Weldon E, Salazar J, Gann K, Kelly JA, Pellegrini JE: Comparison of 2 laryngeal tracheal anesthesia techniques in reducing emergence phenomena, 425
- Cricothyrotomy see State of the Science general and oral poster sessions, A13; A55
- Crisis resource management see Education News, 257
- Critical events  
 CRNA performance using a handheld, computerized, decision-making aid during critical events in a simulated environment: A methodologic inquiry, 29
- CRNA performance using a handheld, computerized, decision-making aid during critical events in a simulated environment: A methodologic inquiry, 29
- Cross LM see State of the Science general and oral poster sessions, A12
- Crum P see State of the Science general and oral poster sessions, A18
- Crum-Cianflone N see *AANA Journal* Course, Part 2, 221
- Cuffed endotracheal tube see *AANA Journal* Course, Part 3, 293
- Cuffed tracheal tube see State of the Science general and oral poster sessions, A38
- Cultural competency  
 A successful partnership to help reduce health disparities: The Institute for Culturally Competent Care and the Kaiser Permanente School of Anesthesia/California State University Fullerton, 437; see Education News, 421
- Cunningham C see Books, Etc, 28
- Curriculum development  
 An educational curriculum used to improve the knowledge and perceptions of Certified Registered Nurse Anesthetist clinical educators, 287
- Curry T see State of the Science general and oral poster sessions, A61
- Cushenbery CS see State of the Science general and oral poster sessions, A13
- Cyclooxygenase see State of the Science general and oral poster sessions, A6; A25; A35
- Czar AK see State of the Science general and oral poster sessions, A59
- D**
- 
- Dalglish AH see State of the Science general and oral poster sessions, A16
- Damages, liquidated see Legal Briefs, 85
- Daniel CA see State of the Science general and oral poster sessions, A53
- Daniels JC see State of the Science general and oral poster sessions, A62
- Databases see State of the Science general and oral poster sessions, A52
- Davis T see State of the Science general and oral poster sessions, A39
- DeBoer S, McNeil M, Amundson T: Body piercing and airway management: Photo guide to tongue jewelry removal techniques, 19
- DeCarlo-Piccirillo SM see State of the Science general and oral poster sessions, A14
- Decision making  
 CRNA performance using a handheld, computerized, decision-making aid during critical events in a simulated environment: A methodologic inquiry, 29
- Decontamination  
 Nerve agents: Implications for anesthesia providers, 95 (correction, 166)
- Dehner BJ see Rivera JJ
- Delaney JM see State of the Science general and oral poster sessions, A115
- del Busto J see State of the Science general and oral poster sessions, A30
- Delirium see State of the Science general and oral poster sessions, A49
- Desflurane  
 Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41; see State of the Science general and oral poster sessions, A5
- Device explantation see State of the Science general and oral poster sessions, A10
- Device fractures  
 Epidural conduction device fractures and complications of retained fragments, 37
- Dewan JA see State of the Science general and oral poster sessions, A37
- Dexamethasone see State of the Science general and oral poster sessions, A15
- Dexmedetomidine  
 Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41; Dexmedetomidine: A useful adjunct to consider in some high-risk situations, 335; see State of the Science general and oral poster sessions, A49
- Diabetes mellitus see State of the Science general and oral poster sessions, A15; A17
- Dickerson TJ see State of the Science general and oral poster sessions, A1
- Diegel RR see State of the Science general and oral poster sessions, A41
- Difficult airway see Airway
- Difficult mask ventilation in a 5-year-old due to submental hypertrophic scar: A case report, 177
- Diffusion, molecule  
 A review of recent studies relating ligand diffusion, general anesthesia, and sleep, 109
- Discography  
 Inadvertent discogram during epidural steroid injection: a case report, 189
- Disseminated intravascular coagulation  
 Suspected amniotic fluid embolism following amniotomy: A case report, 53
- Distance education  
 Audiovisual facilitation of clinical knowledge: A paradigm for dispersed student education based on Paivio's dual coding theory, 194
- Diurnal rhythm see State of the Science general and oral poster sessions, A60
- Diversity  
 A successful partnership to help reduce health disparities: The Institute for Culturally Competent Care and the Kaiser Permanente School of Anesthesia/California State University Fullerton, 437; see Education News, 421
- Dixon MD see State of the Science general and oral poster sessions, A16
- Dixon P see Beaumont DM
- Doctoral education  
 see State of the Science general and oral poster sessions, A14; A22; A47
- Dolasetron  
 Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41
- Dominguez J see State of the Science general and oral poster sessions, A25
- Dosch MP, Jarvis S, Schlosser K: Attrition in nurse anesthesia educational programs as reported by program directors: The class of 2005, 277

- Draw-over anesthesia  
A field-expedient Ohmeda universal portable anesthesia complete draw-over vaporizer setup, 185
- Droperidol  
Heart block and prolonged Q-Tc interval following muscle relaxant reversal: A case report, 41
- Drug delivery devices see State of the Science general and oral poster sessions, A39
- Drug deposition see State of the Science general and oral poster sessions, A39
- Drug-induced immunosuppression see *AANA Journal Course*, Part 5, 449
- Drug response see State of the Science general and oral poster sessions, A2
- Dual coding theory  
Audiovisual facilitation of clinical knowledge: A paradigm for dispersed student education based on Paivio's dual coding theory, 194
- Dukatz T see State of the Science general and oral poster sessions, A17
- Dunklee G see State of the Science general and oral poster sessions, A18
- Dwarfism  
Anesthesia for cesarean delivery in an achondroplastic dwarf: A case report, 435
- Dyer CA see State of the Science general and oral poster sessions, A27; A66
- Dysphonia  
Comparison of 2 laryngeal tracheal anesthesia techniques in reducing emergence phenomena, 425
- Dyspnea  
Asystole during laryngoscopy of a patient with pleural and pericardial effusions: A case report, 25; see Letters, 165
- ## E
- EACA  
Current antifibrinolytic therapy for coronary artery revascularization, 121
- Eborn TW see State of the Science general and oral poster sessions, A53
- Education  
Council on Accreditation of Nurse Anesthesia educational programs to be reviewed during fiscal year 2009, 36; Audiovisual facilitation of clinical knowledge: A paradigm for dispersed student education based on Paivio's dual coding theory, 194; What keeps some program directors in their positions so long? An examination of job longevity among anesthesia program directors, 213; Attrition in nurse anesthesia educational programs as reported by program directors: The class of 2005, 277; An educational curriculum used to improve the knowledge and perceptions of Certified Registered Nurse Anesthetist clinical educators, 287; see State of the Science general and oral poster sessions, A2; A4; A13; A14; A19; A22; A28; A29; A30; A31; A33; A47; A50; A57; A59; A63; A65; A67; A successful partnership to help reduce health disparities: The Institute for Culturally Competent Care and the Kaiser Permanente School of Anesthesia/California State University Fullerton, 437
- Education News  
Development of a position statement: The nurse anesthesia program administrator, 12; Salaries, recruitment, and retention for CRNA faculty—Part 1, 89; Clinical faculty: Major contributors to the education of new CRNAs—Part 2, 167; Simulation-based education: What's in it for nurse anesthesia educators? 257; Mentoring: The courage to cultivate new leaders, 331; Cultural Competency Training in Nurse Anesthesia Education, 421
- An educational curriculum used to improve the knowledge and perceptions of Certified Registered Nurse Anesthetist clinical educators, 287
