

Please complete the following:

Name of Individual:

Title of Continuing Education:

Date and location of Education:

Individual's prospective role(s) in education

Identify the prospective role(s) that you may have in the planning and delivery of this education (*choose all that apply*)

☐

Planner

Examples: planning committee, staff involved in choosing topics, faculty, or content

☐

Teacher, Instructor, Faculty

☐

Author, Writer

☐

Reviewer

☐

Other

As a prospective planner or faculty member, we would like to ask for your help in protecting our learning environment from industry influence. Please complete the form below and return it to **Contact Name/email** by **Date**.

The ACCME Standards for Integrity and Independence require that we disqualify individuals who refuse to provide this information from involvement in the planning and implementation of accredited continuing education. Thank you for your diligence and assistance. If you have questions, please contact us at **Contact Name/email**.

To be Completed by Planner, Faculty, or Others Who May Control Educational Content

Please disclose **all financial relationships** that you have had in the past 24 months with ineligible companies (see definition below). For each financial relationship, enter the name of the ineligible company and the nature of the financial relationship(s). There is no minimum financial threshold; we ask that you disclose all financial relationships, regardless of the amount, with ineligible companies. You should disclose all financial relationships regardless of the potential relevance of each relationship to the education.

Enter the Name of Ineligible Company

An **ineligible company** is any entity whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

For specific examples of ineligible companies visit accme.org/standards.

Enter the Nature of Financial Relationship

Examples of financial relationships include employee, researcher, consultant, advisor, speaker, independent contractor (including contracted research), royalties or patent beneficiary, executive role, and ownership interest. Individual stocks and stock options should be disclosed; diversified mutual funds do not need to be disclosed. Research funding from ineligible companies should be disclosed by the principal or named investigator even if that individual's institution receives the research grant and manages the funds.

Has the Relationship Ended?

If the financial relationship existed during the last 24 months, but has now ended, please check the box in this column. This will help the education staff determine if any mitigation steps need to be taken.

Example: ABC Company

Consultant

☐
☐

In the past 24 months, I have not had **any** financial relationships with any ineligible companies.

I attest that the above information is correct as of this date of submission.

Name

FOR AANA STAFF ONLY

Use this sample worksheet to identify and mitigate relevant financial relationships that you have identified for planners, faculty, and others who will control educational content for your education activity. Please make sure that (1) the mitigation strategy is appropriate to the person's role in the activity, and (2) that mitigation is implemented before each person takes on their role.

STEP 1: Review collected information about financial relationships and **exclude owners or employees of ineligible companies** from participating as planners or faculty.

After collecting all financial relationships from prospective planners, faculty, and others, exclude any persons who are owners or employees of ineligible companies. Ineligible companies are those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. For information about exceptions to this exclusion, see [accme.org/standards](https://www.accme.org/standards).

STEP 2: Determine relevant financial relationships.

Review the information for all persons whom you did not exclude in Step 1 and determine whether each person's financial relationships with ineligible companies are relevant to the content of the education you are planning. Financial relationships are relevant if the following three conditions are met for the prospective person who will control content of the education:

- ✓ A financial relationship, in **any amount**, exists between the person in control of content and an ineligible company.
- ✓ The financial relationship existed during the past **24 months**.
- ✓ The content of the education is related to the products of an ineligible company with whom the person has a financial relationship.

STEP 3: Choose a **mitigation strategy** for each person who has a relevant financial relationship and **implement** that strategy before the person assumes their role.

Using the lists below, identify which mitigation strategy(ies) will be used for **all persons** with relevant financial relationships who control the educational content of the educational activity. You may select multiple strategies but be sure to use strategies **appropriate to the role(s)** that each person has. You can also identify your own strategies for mitigation.

Mitigation steps for planners *(choose at least one)*

- ✓ **Divest** the financial relationship
- ✓ **Recusal** from controlling aspects of planning and content with which there is a financial relationship
- ✓ **Peer review** of planning decisions by persons without relevant financial relationships
- ✓ Use **other methods** (*please describe*):

Mitigation steps for faculty and others (choose at least one)

- ✓ **Divest** the financial relationship
- ✓ **Peer review** of content by persons without relevant financial relationships
- ✓ Attest that clinical recommendations are **evidence-based** and **free of commercial bias** (e.g., peer-reviewed literature, adhering to evidence-based practice guidelines)
- ✓ Use **other methods** (*please describe*):

Step 4: Document the mitigation strategy(ies) you used for each person with a relevant financial relationship.
