

Non-Research (Case Study or Innovation)					
	Character count maximum (with spaces)	Criteria	Yes (1 point)	No (0 points)	Reviewer Comments (*Required for "no" responses)
Overall		Is this abstract worthy of acceptance? If no, and if there is a critical flaw or weakness that would preclude the abstract from being accepted (e.g., inaccurate, incomplete, literature review only), please make note and explain. You must still score the remainder of the abstract. A literature review ONLY will not be accepted. A literature review is a review and synthesis of existing published literature on a specific topic or research question.			
Purpose/Question	290 characters (including spaces) or less; 45 words	Does the Title reflect the project?			
		Is the focus of the case/innovation clearly described?			
		Is the relevant etiology, epidemiology presented (Case Study) or Is the problem, and aim of the innovation described (Innovation)?			
		Are unique features of the case/innovation included?			
Methods/Results	1300 characters (including spaces) or less; 210 words	Has appropriate approval been obtained such as facility approval or IRB/IACUC determination and is a statement included? (Note: this is provided separately in the submission outside of abstract text)			
		Is relevant patient history provided (Case Study) or Is the innovation described (Innovation)?			
		Are research ethics adequately addressed?			
		Is the perianesthesia/analgesia course described (Case Study) or Is the innovation utilization described? (Innovation)			
		Is Data Analysis and/or an Evaluation Plan described? (Innovation)			
Implications/Conclusion	400 characters (including spaces) or less; 70 words	Is a detailed description of the outcomes of the case or innovation provided?			
		Are detailed and appropriate conclusions for the case study or innovation discussed?			
		Is an evidenced-based plan of care described (Case Study)? Does the literature support the innovation design and implementation? (Innovation)?			
		Are Implications and recommendations for Clinical practice and/or the anesthesia profession discussed?			
Writing Style & Format		Are the guidelines followed?			
		Is correct AMA format used?			
		Is correct grammar, punctuation and sentence structure used?			
		Is the abstract logical and well organized?
