The following is an index of the major topics addressed in the AANA Journal during 2012. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

A

AANA Education Committee
see Education News, 334

AANA Journal Course

Part 6—Awake craniotomy: a practice overview, 61; Part 1—Anesthetic-induced anaphylaxis, 129; Part 2—Evidence-based anesthesia: the use of preprocedural ultrasonography during labor to facilitate placement of an epidural catheter, 223; Part 3—Anesthesia and safety considerations for office-based cosmetic surgery practice, 299; Part 4—Is that snoring something to worry about? Anesthetic implications for obstructive sleep apnea, 393; Part 5—The Perioperative Implications of Posttraumatic Stress Disorder, 463

AANA Journal Course No. 31 Examination Information—Update for nurse anesthetists, 141

AANA Journal Course No. 31 Examination—Update for nurse anesthetists (examination questions), 146

AANA Journal Course No. 31 Examination—Update for nurse anesthetists (examination answers), 307 [correction, 344]

AANA Journal Course No. 31–2012 Evaluation Form, 142

Abdominal pain
Rapunzel syndrome in a pediatric patient: a case report, 115
Abdominal surgery
Effect of intraoperative intravenous lidocaine on postoperative pain and return of bowel function after laparoscopic abdominal gynecologic procedures, 282
Abecasis P see Lehavi A
Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]

Accreditation, educational programs
Council on Accreditation of Nurse Anesthesia Educational Programs: Upcoming Accreditation Reviews, 16
Accreditation, facility
see Letters, 330

Acquired tracheoesophageal fistula
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53
Acute myocardial infarction
Myocardial infarction and pregnancy: a case report, 32 [correction, 169]

Addiction
Opioid abuse among nurse anesthetists and anesthesiologists, 120
Admission, educational programs
The use of high-fidelity simulation in the admissions process: one nurse anesthesia program's experience, 43
Adults
Anesthesia for the adult patient with an unrepaired congenital cyanotic heart defect: a case report, 197 [correction, 258]

Advanced Cardiac Life Support
Comparison of tibial intrasosseous, sternal intrasosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56
Advocacy
see Education News, 423

Age factors
Risk factors for development of postoperative sore throat and hoarseness after endotracheal intubation in women: a secondary analysis, 567; Anesthetic management of patients with major burn injury, 430
Airway fistula
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53
Airway management
Simulation training for advanced airway management for anesthesia and other healthcare providers: a systematic review, 25; Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53; Difficult airway management following severe gasoline burn injury: a case report, 268; Awake video laryngoscope intubation: case report of a patient with a nasopharyngeal mass, 347; see Letters, 418; Anesthetic management of patients with major burn injury, 430
Alexandrov AW see Baxter JL
Allergen
see AANA Journal Course, Part 1, 129
Allergic immune response
see AANA Journal Course, Part 1, 129

α-Agonists
Catecholamine-resistant hypotension following induction for spinal exploration, 55

Anesthesia
Intrathecal hydromorphone for postoperative analgesia after cesarean delivery: a retrospective study, 523; Comparison of fascia iliaca compartment block and 3-in-1 block in adults undergoing knee arthroscopy and meniscal repair, 537; Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 445

Anaphylaxis
see AANA Journal Course, Part 1, 129
Andrade JA see Wallace JB
Anesthesia apparatus checkout procedure
Anesthesia clinical performance outcomes: does teaching method make a difference? S11
Anesthesia clinical performance outcomes: does teaching method make a difference? S11
Anesthesia delivery
Anesthetic implications of postpolio syndrome: new concerns for an old disease, 356
Anesthesia equipment
Infection control practices of laryngoscope blades: a review of the literature, 274; Anesthesia clinical performance outcomes: does teaching method make a difference? S11; Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453
Anesthesia for the adult patient with an unrepaired congenital cyanotic heart defect: a case report, 197 [correction, 258]

Anesthesia providers
Opioid abuse among nurse anesthetists and anesthesiologists, 120; Shared experiences of CRNAs who were on duty in New Orleans during Hurricane Katrina, 205; Experiences of military CRNAs with service personnel who are emerging from general anesthesia, 260; Training rotations at hospitals as a recruitment tool for Certified Registered Nurse Anesthetists, 545; Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, 549; Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, 560; Health-promoting collaboration in anesthesia nursing: a qualitative study of nurse anesthetists in Norway, 574; see Education News, 423; Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Anesthesia support personnel, technicians
Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Anesthesia-induced neuronal apoptosis during synaptogenesis: a review of the literature, 281
Anesthesiologists see Anesthesia providers
Anesthetic implications of postpolio syndrome: new concerns for an old disease, 356
Anesthetic management for implantation of a treatment device: the Rheos Baroreflex Hypertensive Therapy System, 18
Anesthetic management of a pediatric patient undergoing a pancreatoduodenectomy with portal vein reconstruction, 37
Anesthetic management of patients with major burn injury, 430
Anesthetic-induced anaphylaxis
see AANA Journal Course, Part 1, 129
Angiotensin II receptor blockers
Catecholamine-resistant hypotension following induction for spinal exploration, 55
Animal models
Anesthesia-induced neuronal apoptosis during synaptogenesis: a review of the literature, 291; Comparison of titial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56
Anticoagulation
Methylene blue to treat vasoplegia due to a severe protamine reaction: a case report, 170
Anxiety disorders
see AANA Journal Course, Part 5, 463
Apoptosis
Anesthesia-induced neuronal apoptosis during synaptogenesis: a review of the literature, 291
Arginine-vasopressin system
Catecholamine-resistant hypotension following induction for spinal exploration, 55
Arndt KL see Lutjen DL
Arousal, persistent
see AANA Journal Course, Part 5, 463
Arterial puncture
Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]
Arthroscopy
Comparison of fascia iliaca compartment block and 3-in-1 block in adults undergoing knee arthroscopy and meniscal repair, S37
ASA Guidelines, obstructive sleep apnea
see AANA Journal Course, Part 4, 393
Assessment
Anesthetic implications of postpolio syndrome: new concerns for an old disease, 356
Atchley JA see Penprase B
Atkinson R see AANA Journal Course, Part 6, 61
Audiovisual aids
Anesthesia clinical performance outcomes: does teaching method make a difference? S11
Averlid G, Axelsson SB: Health-promoting collaboration in anesthesia nursing: a qualitative study of nurse anesthetists in Norway, S74
Avoidance
see AANA Journal Course, Part 5, 463
Awake craniotomy
see AANA Journal Course, Part 6, 61
Awake intubation
Awake video laryngoscope intubation: case report of a patient with a nasopharyngeal mass, 347
Awake video laryngoscope intubation: case report of a patient with a nasopharyngeal mass, 347
Axelsson SB see Averlid G

B
Baroreflex
Anesthetic management for implantation of a treatment device: the Rheos Baroreflex Hypertensive Therapy System, 18
Baskervitch A see Lehavi A
Baxter JL, Alexandrow AW: Utility of cocaine drug screens to predict safe delivery of general anesthesia for elective surgical patients, S33
Bennett M see Geisz-Everson MA
Bergakker SA see Penprase B
Berlin Questionnaire
see AANA Journal Course, Part 4, 393
β-Agonists

Catecholamine-resistant hypotension following induction for spinal exploration, 55
β-Blockers
Perioperative hypoglycemia in patients with diabetes: incidence after low normal fasting preoperative blood glucose versus after hyperglycemia treated with insulin, S17
Bezoar
Rapunzel syndrome in a pediatric patient: a case report, 115
Biddle C see McLain NE
Bittinger A see Penprase B
Blood glucose
Perioperative hypoglycemia in patients with diabetes: incidence after low normal fasting preoperative blood glucose versus after hyperglycemia treated with insulin, S17
Blood pressure regulation
Anesthetic management for implantation of a treatment device: the Rheos Baroreflex Hypertensive Therapy System, 18; Catecholamine-resistant hypotension following induction for spinal exploration, 55
Blood transfusion
Anesthetic management of a pediatric patient undergoing a pancreatoduodenectomy with portal vein reconstruction, 37; Utilization of a massive transfusion protocol during liver lobe resection: a case report, 174
Body surface area, burns
Difficult airway management following severe gasoline burn injury: a case report, 268; Anesthetic management of patients with major burn injury, 430
Bogan V see AANA Journal Course, Part 3, 299; see Letters, 330
Books, Etc.
The Knowledgeable Patient: Communication and Participation in Health, 9
Bowdoin S see AANA Journal Course, Part 2, 223
Bowel function
Effect of intraoperative intravenous lidocaine on postoperative pain and return of bowel function after laparoscopic abdominal gynecologic procedures, 282
Bowles ED, Gold ME: Rethinking the paradigm: evaluation of ketamine as a neuromuscular anesthetic, 445
Brachial plexus
Skin electrical resistance does not change following infraclavicular block, 185
Brain injury
Experiences of military CRNAs with service personnel who are emerging from general anesthesia, 260
Brentin SN see Drews HL III
Broca area
see AANA Journal Course, Part 6, 61
Bronchial intubation
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53
Bronchodilation
Rethinking the paradigm: evaluation of ketamine as a neuromuscular anesthetic, 445
Bronchoesophageal fistula
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53
Brydges G see AANA Journal Course, Part 6, 61
Burgert J see Gasko J
Burn classification
Anesthetic management of patients with major burn injury, 430
Burn injury
Difficult airway management following severe gasoline burn injury: a case report, 268; see Letters, 418
Burn management
Anesthetic management of patients with major burn injury, 430
Burn shock
Anesthetic management of patients with major burn injury, 430

www.aana.com/aanajournalonline
AANA Journal December 2012 Vol. 80, No. 6
Burn surgery
Anesthetic management of patients with major burn injury, 430

C
Calendar of Events, 73, 155, 232, 312, 402, 483
Cannon-Diel RL, Rugart SM, Jones TS: High-fidelity simulation for continuing education in nurse anesthesia, 191
Cannulation
Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]
Carbon monoxide poisoning
Anesthetic management of patients with major burn injury, 430
Cardiac anomalies
Anesthesia for the adult patient with an unrepaired congenital cyanotic heart defect: a case report, 197 [correction, 258]; Dexmedetomidine infusion as an adjunct anesthetic for tetralogy of Fallot repair during a pediatric cardiac mission trip in Jamaica: a case report, 385
Cardiac arrest
Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56
Cardiac surgery
Dexmedetomidine infusion as an adjunct anesthetic for tetralogy of Fallot repair during a pediatric cardiac mission trip in Jamaica: a case report, 385
Cardiothoracic
Total artificial heart freedom driver in a patient with end-stage biventricular heart failure, 105
Cardiopulmonary bypass
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53
Cardiopulmonary resuscitation
Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56
Cardiovascular diseases
Myocardial infarction and pregnancy: a case report, 32 [correction, 169]; see AANA Journal Course, Part 5, 463
Carotid artery catheterization
Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]
Carotid baroreflex
Anesthetic management for implantation of a treatment device: the Rheos Baroreflex Hypertensive Therapy System, 18
Carotid endarterectomy
Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99
Castiglione AL see Drews HL III
Catecholamine-resistant hypotension following induction for spinal exploration, 55
CD-ROM
Effects of using simulation versus CD-ROM in the performance of ultrasound-guided regional anesthesia, 556
Central venous catheter
Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]
Cerebral cortex
see AANA Journal Course, Part 6, 61
Cerebral hemodynamic effects
Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 445
Cereumuga T see Burger J
Certification
Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, 560
Certified Registered Nurse Anesthetists see Anesthesia providers
Cesarean delivery
Intrathecal hydromorphone for postoperative analgesia after cesarean delivery: a retrospective study, 525; Emergency cesarean delivery in primigravida with portal hypertension, esophageal varices, and preeclampsia, 379
A cesarean hysterectomy for invading placenta percreta: anesthetic safety considerations: a case report, 373
Checklists
Implementation of an evidence-based extubation checklist to reduce extubation failure in patients with trauma: a pilot study, 179
Chezmosis
A preventive intervention for rising intracranial pressure: development of the Molloy/Bridgeport Anesthesia Associates Observation Scale, 213
Chest injuries
Difficult airway management following severe gasoline burn injury: a case report, 268
Chopas A, Cordrey D, Floyd D, Grubbs L, Miller S, Tyre B: Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, 549
Christensen JP see Wallace JB
Cirrhosis
Emergency cesarean delivery in primigravida with portal hypertension, esophageal varices, and preeclampsia, 379
Clark N see Grady P
Clinical performance outcomes
Anesthesia clinical performance outcomes: does teaching method make a difference? S11
Coagulation
Myocardial infarction and pregnancy: a case report, 32 [correction, 169]; see AANA Journal Course, Part 5, 463
Cold intolerance
Anesthetic implications of postpolio syndrome: new concerns for an old disease, 356
Collaboration
Health-promoting collaboration in anesthesia nursing: a qualitative study of nurse anesthetists in Norway, 574; see Education News, 423
Collins S see Loftis GK
Communication
Health-promoting collaboration in anesthesia nursing: a qualitative study of nurse anesthetists in Norway, 574
Comorbid conditions
Comparison of fascia iliaca compartment block and 3-in-1 block in adults undergoing knee arthroscopy and meniscal repair, 357
Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56
Competency
see Education News, 89
Complications
Catecholamine-resistant hypotension following induction for spinal exploration, 55; Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]; Risk factors for development of postoperative sore throat and hoarseness after endotracheal intubation in women: a secondary analysis, 567; see AANA Journal Course, Part 4, 393
Computer-based testing
Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, 560
Congenital heart disease
Anesthesia for the adult patient with an unrepaired congenital
cyanotic heart defect; a case report, 197 [correction, 258]

Conjunctiva
A preventive intervention for rising intraocular pressure: development of the Molloy/Bridgeport Anesthesia Associates Observation Scale, 213

Continuing education
High-fidelity simulation for continuing education in nurse anaesthesia, 191

Contraindications
see AANA Journal Course, Part 3, 299; Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 445

Cook T see Letters, 330

Coping
Shared experiences of CRNAs who were on duty in New Orleans during Hurricane Katrina, 205; Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, S49

Cordrey D see Chips A

Cornea
A preventive intervention for rising intraocular pressure: development of the Molloy/Bridgeport Anesthesia Associates Observation Scale, 213

Coronary artery bypass graft
Methylene blue to treat vasoplegia due to a severe protamine reaction: a case report, 170

Coronary artery dissection
Myocardial infarction and pregnancy: a case report, 32 [correction, 169]

Corrections
The physiology of the nicotinic acetylcholine receptor and its importance in the administration of anesthesia, 9; AANA Journal Course No. 31 Examination, table of contents, 169; Myocardial infarction and pregnancy: a case report, 169; Anesthesia for the adult patient with an unrepaired congenital cyanotic heart defect: a case report, 238; Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 344; Isobaric spinal anesthesia: a suitable approach for a morbidly obese patient, 428; Awake video laryngoscope intubation: case report of a patient with a nasopharyngeal mass, 428

Cortical mapping
see AANA Journal Course, Part 6, 61

Cosgrove MS: Anesthesia for the adult patient with an unrepaired congenital cyanotic heart defect: a case report, 197 [correction, 258]

Cosmetic surgery
see AANA Journal Course, Part 3, 299; see Letters, 330

Costs of healthcare
Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99; Total artificial heart freedom driver in a patient with end-stage biventricular heart failure, 105; see Education News, 423

Coster JJ see McLain NE

Council on Accreditation of Nurse Anesthesia Educational Programs: Upcoming Accreditation Reviews, 16

Craig J see Gasko J

Craniotherapy
see AANA Journal Course, Part 6, 61

Critical thinking
Effects of using simulation versus CD-ROM in the performance of ultrasound-guided regional anesthesia, 556

CRNAs see Anesthesia providers

Cyanotic heart lesions
Anesthesia for the adult patient with an unrepaired congenital cyanotic heart defect: a case report, 197 [correction, 258]

D

Darlong V see Khanna P; Pandey R

Depression
Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, S49; see AANA Journal Course, Part 5, 463

Desai M see Burgert J

Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Dexmedetomidine infusion as an adjunct anesthetic for tetralogy of Fallot repair during a pediatric cardiac mission trip in Jamaica: a case report, 385

Dexter F see Wachtel RE

Diabetes
Perioperative hypoglycemia in patients with diabetes: incidence after low normal fasting preoperative blood glucose versus after hyperglycemia treated with insulin, S17

Diagnosis
Opioid abuse among nurse anesthetists and anesthesiologists, 120; Anesthetic implications of postpolio syndrome: new concerns for an old disease, 356; see AANA Journal Course, Part 4, 393; see AANA Journal Course, Part 5, 463

Difficult airway
Simulation training for advanced airway management for anesthesia and other healthcare providers: a systematic review, 25; Awake video laryngoscope intubation: case report of a patient with a nasopharyngeal mass, 347; see Letters, 418; Anesthetic management of patients with major burn injury, 430

Difficult airway management following severe gasoline burn injury: a case report, 268

Disaster activation
Shared experiences of CRNAs who were on duty in New Orleans during Hurricane Katrina, 205

Disposable laryngoscope blade
Infection control practices of laryngoscope blades: a review of the literature, 274

Doddy-McCue D see Geisz-Everson MA

Dosch MP: Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, S60

Dotson M: Awake video laryngoscope intubation: case report of a patient with a nasopharyngeal mass, 347 [correction, 428]

Double-lumen endotracheal tube
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53

Drug concentration
Comparison of tidal intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56

Drug doses
Comparison of tidal intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56

Drug effects
Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 445

Drug efficacy
Intrathecal hydromorphone for postoperative analgesia after cesarean delivery: a retrospective study, S25

Drug interactions
Catecholamine-resistant hypotension following induction for spinal exploration, 55

Drug safety
Intrathecal hydromorphone for postoperative analgesia after cesarean delivery: a retrospective study, S25

Drug screen
Utility of cocaine drug screens to predict safe delivery of general anesthesia for elective surgical patients, S33

Dual coding theory
Anesthesia clinical performance outcomes: does teaching method make a difference? S11

Dukatz TK see Drews HL III

Dutton RP see Howie WO

Ease of intubation with the Parker Flex-Tip or a standard Mallinckrodt disposable laryngoscope blade: a pilot study, 55

E

Early T see Letters, 330

Ease of intubation with the Parker Flex-Tip or a standard Mallinckrodt disposable laryngoscope tube using a video laryngoscope (GlideScope), 363
Echocardiogram
Management of a pulmonary artery embolectomy and recurrent embolus, 11

Edema
A preventive intervention for rising intraocular pressure: development of the Molloy/Bridgeport Anesthesia Associates Observation Scale, 213

Education
Simulation training for advanced airway management for anesthesia and other healthcare providers: a systematic review, 25; The use of high-fidelity simulation in the admissions process: one nurse anesthesia program’s experience, 43; High-fidelity simulation for continuing education in nurse anesthesia, 191; Anesthesia clinical performance outcomes: does teaching method make a difference? S11; Training rotations at hospitals as a recruitment tool for Certified Registered Nurse Anesthetists, S45; Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, S49; Effects of using simulation versus CD-ROM in the performance of ultrasound-guided regional anesthesia, S56; Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, S60; Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Education News
The use of electronic portfolios in nurse anesthesia education and practice, 89; The role of the AANA Education Committee in developing education standards, 334; Policy, practice, and education, 423

Effect of intraoperative intravenous lidocaine on postoperative pain and return of bowel function after laparoscopic abdominal gynecologic procedures, 282

Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99

Effects of using simulation versus CD-ROM in the performance of ultrasound-guided regional anesthesia, 556

Eimers TJ see Penprase B
Inspsorn R see Radesic BP

Elective surgery
Role of splenic artery partial embolization in a patient with portal hypertension and pancytopenia undergoing hysterectomy under anesthesia, 96

Electrical resistance, skin
Skin electrical resistance does not change following infraclavicular block, 185

Electronic portfolio see Education News, 89

Embolectomy
Management of a pulmonary artery embolectomy and recurrent embolus, 11

Pulmonary artery
Management of a pulmonary artery embolectomy and recurrent embolus, 11

Embolism
Management of a pulmonary artery embolectomy and recurrent embolus, 11

Embolization, splenic artery, partial
Role of splenic artery partial embolization in a patient with portal hypertension and pancytopenia undergoing hysterectomy under anesthesia, 96

Emergency delirium
Experiences of military CRNAs with service personnel who are emerging from general anesthesia, 260

Emergence phenomenon
Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99

Emergency care
Difficult airway management following severe gasoline burn injury: a case report, 268; Emergency cesarean delivery in primigravida with portal hypertension, esophageal varices, and pre-ecclampsia, 379; see Letters, 418

Emergency cesarean delivery in primigravida with portal hypertension, esophageal varices, and pre-ecclampsia, 379

Emotional numbing see AANA Journal Course, Part 5, 463

Employment
Training rotations at hospitals as a recruitment tool for Certified Registered Nurse Anesthetists, S45

Endobronchial balloon
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53

Endotracheal tube
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53; Risk factors for development of postoperative sore throat and hoarseness after endotracheal intubation in women: a secondary analysis, S67; Ease of intubation with the Parker Flex-Tip or a standard Mallinckrodt endotracheal tube using a video laryngoscope ( GlideScope), 363

Epidural analgesia
Anesthetic management of a pediatric patient undergoing a pancreateoduodenectomy with portal vein reconstruction, 37

Epidural catheter see AANA Journal Course, Part 2, 223

Epinephrine
Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56

Equipment
Infection control practices of laryngoscope blades: a review of the literature, 274; Anesthesia clinical performance outcomes: does teaching method make a difference? S11; Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Error
Implementation of an evidence-based extubation checklist to reduce extubation failure in patients with trauma: a pilot study, 179; Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]

Error reduction
Implementation of an evidence-based extubation checklist to reduce extubation failure in patients with trauma: a pilot study, 179; Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]

Ersig CR see Drews HL III

Ethnography
Shared experiences of CRNAs who were on duty in New Orleans during Hurricane Katrina, 205

Evidence-based practice
Implementation of an evidence-based extubation checklist to reduce extubation failure in patients with trauma: a pilot study, 179; Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 445

Experiences of military CRNAs with service personnel who are emerging from general anesthesia, 260

Extrusion
Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99; Implementation of an evidence-based extubation checklist to reduce extubation failure in patients with trauma: a pilot study, 179

Facial injuries
Difficult airway management following severe gasoline burn injury: a case report, 268

Failed extubation
Implementation of an evidence-based extubation checklist to reduce extubation failure in patients with trauma: a pilot study, 179

Faircloth AC, Noble J: Anesthetic management of a pediatric patient undergoing a pancreateoduodenectomy with portal vein reconstruction, 37

Fascia iliaca compartment block
Comparison of fascia iliaca compartment block and 3-in-1 block in adults undergoing knee arthroscopy and meniscal repair, 537

Fentanyl
Intrathecal hydromorphone for postoperative analgesia after cesarean delivery: a retrospective study, S25

Floyd D see Chiras A

Focused ethnography
Shared experiences of CRNAs who were on duty in New Orleans during Hurricane Katrina, 205
during Hurricane Katrina, 205
Ford JM, Shields JA: Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53
Ford MB: Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453
Franson HE see Penprase B
Franzen T see Gasko J
Frasca D: A cesarean hysterectomy for invading placenta percreta; anesthetic safety considerations: a case report, 373
Freedom driver (artificial heart)
Total artificial heart Freedom driver in a patient with end-stage biventricular heart failure, 105
Fresh frozen plasma
Utilization of a massive transfusion protocol during liver lobe resection: a case report, 174
Friedline K, Hassinger P: Total artificial heart Freedom driver in a patient with end-stage biventricular heart failure, 105

G
Garg R see Khanna P, Pandey R
Gastrointestinal motility
Effect of intraoperative intravenous lidocaine on postoperative pain and return of bowel function afterlaparoscopic abdominal gynecologic procedures, 282
Gegel B see Burgert J; Gasko J
Geisz-Everson MA, Dodd-McCue D, Bennett M: Shared experiences of CRNAs who were on duty in New Orleans during Hurricane Katrina, 205
General anesthesia
Simulation training for advanced airway management for anesthesia and other healthcare providers: a systematic review, 25
Myocardial infarction and pregnancy: a case report, 32 [correction, 169]; Anesthetic management of a pediatric patient undergoing a pancreaticoduodenectomy with portal vein reconstruction, 37; Catecholamine-resistant hypotension following induction for spinal exploration, 55; Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53; see AANA Journal Course, Part 6, 61; Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99; Anesthesia for the adult patient with an unrepaired congenital cyanotic heart defect: a case report, 197 [correction, 258]; Utility of cocaine drug screens to predict safe delivery of general anesthesia for elective surgical patients, 533; Isobaric spinal anesthesia: a suitable approach for a morbidly obese patient, 341 [correction, 428]; GlideScope
see Letters, 330; Ease of intubation with the Parker Flex-Tip or a standard Mallinckrodt endotracheal tube using a video laryngoscope (GlideScope), 363
Global health
Dexmedetomidine infusion as an adjunct anesthetic for tetralogy of Fallot repair during a pediatric cardiac mission trip in Jamaica: a case report, 385
Gold ME see Bowles ED
Grade point average
Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, 560
Graduate nurse education
The use of high-fidelity simulation in the admissions process: one nurse anesthesia program's experience, 43
Greathouse JS see Letters, 418
Grubbs L see Chupas A
Gupta A see Jaensson M
Gynecologic surgery
Effect of intraoperative intravenous lidocaine on postoperative pain and return of bowel function after laparoscopic abdominal gynecologic procedures, 282

H
Harbin KR, Norris TE: Anesthetic management of patients with major burn injury, 430
Harrison BE see Drews HL III
Hassinger P see Friedline K
Hawkins R see Grady P
Hawks SJ see Education News, 89

AANA Journal  December 2012  Vol. 80, No. 6  495
IgE

Hypersensitivity reaction

Hypermetabolic response

Hydromorphone

Intracranial pressure

Interview, educational program admission

Inhalation injury

Infraclavicular block

Information for authors, 78, 94, 238, 306, 392, 462

Inflammatory mediators

Infection control practices of laryngoscope blades: a review of the literature, 274

Inflammatory mediators

Infraclavicular block

Inhalation injury

Intracranial pressure

Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 445

Intraocular pressure

A preventive intervention for rising intraocular pressure: development of the Molloy/Bridgeport Anesthesia Associates Observation Scale, 213

Intraoperative wake up

see AANA Journal Course, Part 6, 61

Intraosseous route

Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, 56

Intrathecal hydromorphone for postoperative analgesia after cesarean delivery: a retrospective study, S25

Intrathoracic anesthetic

Intubation

Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53; Risk factors for development of postoperative sore throat and hoarseness after endotracheal intubation in women: a secondary analysis, S67; Ease of intubation with the Parker Flex-Tip or a standard Mallinckrodt endotracheal tube using a video laryngoscope ( Glide Scope), 363

Intussusception

Rapunzel syndrome in a pediatric patient: a case report, 115

Ischemic optic neuropathy

A preventive intervention for rising intraocular pressure: development of the Molloy/Bridgeport Anesthesia Associates Observation Scale, 213

Isobaric spinal anesthesia: a suitable approach for a morbidly obese patient, 341 [correction, 428]

J

Jaensson M, Gupta A, Nilsson UG: Risk factors for development of postoperative sore throat and hoarseness after endotracheal intubation in women: a secondary analysis, S67

Jamaica

Dexmedetomidine infusion as an adjunct anesthetic for tetralogy of Fallot repair during a pediatric cardiac mission trip in Jamaica: a case report, 385

Job functions

Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Starnes-Ort K see Education News, 334

Sternum

Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, S6

STOP-BANG Questionnaire

see AANA Journal Course, Part 4, 393

Stress

Shared experiences of CRNAs who were on duty in New Orleans during Hurricane Katrina, 205; Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, S49

Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, S49; Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, S60

Stullenbarger E see Wright EL

Substance abuse

Opioid abuse among nurse anesthetists and anesthesiologists, 120; Utility of cocaine drug screens to predict safe delivery of general anesthesia for elective surgical patients, S33; see AANA Journal Course, Part 5, 463

Suicide

Stress: perceptions, manifestations, and coping mechanisms of student registered nurse anesthetists, S49

Surgery, and posttraumatic stress disorder

see AANA Journal Course, Part 5, 463

Sympathetic nervous system

Catecholamine-resistant hypotension following induction for spinal exploration, 55

Sympathetic outflow

Anesthetic management for implantation of a treatment device: the Rheos Baroreflex Hypertensive Therapy System, 18

Sympathetic stimulation

Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 443

T

Talbot LA see Luciano KE

Teaching methods

Temperature regulation

Anesthetic management of patients with major burn injury, 430

Test mode effect

Practice in computer-based testing improves scores on the National Certification Examination for nurse anesthetists, S60

Tetralogy of Fallot

Dexmedetomidine infusion as an adjunct anesthetic for tetralogy of Fallot repair during a pediatric cardiac mission trip in Jamaica: a case report, 385

Thai NN: Anesthetic management for implantation of a treatment device: the Rheos Baroreflex Hypertensive Therapy System, 18

3-in-1 Block

Comparison of fascia iliaca compartment block and 3-in-1 block in adults undergoing knee arthroscopy and meniscal repair, S37

Tibia

Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, S6

Time factors

Comparison of tibial intraosseous, sternal intraosseous, and intravenous routes of administration on pharmacokinetics of epinephrine during cardiac arrest: a pilot study, S6; Comparison of fascia iliaca compartment block and 3-in-1 block in adults undergoing knee arthroscopy and meniscal repair, S37; Risk factors for development of postoperative sore throat and hoarseness after endotracheal intubation in women: a secondary analysis, S67

Tonometry

A preventive intervention for rising intraocular pressure: development of the Mollo/Bridgeport Anesthesia Associates Observation Scale, 213

Topical anesthesia

Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99

Total artificial heart Freedom driver in a patient with end-stage biventricular heart failure, 105

Tracheoesophageal fistula

Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53

Tracheostomy

Difficult airway management following severe gasoline burn injury: a case report, 268

Training

Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Training rotations at hospitals as a recruitment tool for Certified Registered Nurse Anesthetists, S45

Trauma
Utilization of a massive transfusion protocol during liver lobe resection: a case report, 174; Implementation of an evidence-based extubation checklist to reduce extubation failure in patients with trauma: a pilot study, 179; Anesthetic management of patients with major burn injury, 430; see AANA Journal Course, Part 5, 463

Trendelenburg position
A preventive intervention for rising intraocular pressure: development of the Mollov/Bridgeport Anesthesia Associates Observation Scale, 213

Trichobezoar
Rapunzel syndrome in a pediatric patient: a case report, 115
Trotter J: Catecholamine-resistant hypotension following induction for spinal exploration, 55
Tune B: Utilization of a massive transfusion protocol during liver lobe resection: a case report, 174
Tyre B see Chipes A

U
Ultrasound-guided regional anesthesia
see AANA Journal Course, Part 2, 223; Accidental carotid artery catheterization during attempted central venous catheter placement: a case report, 251 [correction, 344]

Ultrasound-guided regional anesthesia
Effects of using simulation versus CD-ROM in the performance of ultrasound-guided regional anesthesia, 536

Underserved populations
Dexmedetomidine infusion as an adjunct anesthetic for tetralogy of Fallot repair during a pediatric cardiac mission trip in Jamaica: a case report, 385

Urine drug screen
The use of high-fidelity simulation in the admissions process: one nurse anesthesia program’s experience, 43

Utility of cocaine drug screens to predict safe delivery of general anesthesia for elective surgical patients, 533

Utilization of a massive transfusion protocol during liver lobe resection: a case report, 174

V
Vacchiano see AANA Journal Course, Part 5, 463
Varices
Role of splenic artery partial embolization in a patient with portal hypertension and pancytopenia undergoing hysterectomy under anesthesia, 96

Vasoplegic syndrome
Methylene blue to treat vasoplegia due to a severe protamine reaction: a case report, 170

Vasopressin
Catecholamine-resistant hypotension following induction for spinal exploration, 55

Venous thromboembolism prophylaxis
see AANA Journal Course, Part 3, 299

Ventilation
Selective bilateral bronchial intubation for large, acquired tracheoesophageal fistula, 53; Anesthetic management of patients with major burn injury, 430

Well-being
Health-promoting collaboration in anesthesia nursing: a qualitative study of nurse anesthetists in Norway, 574

Wernicke area
see AANA Journal Course, Part 6, 61

Whipple procedure
Anesthetic management of a pediatric patient undergoing a pancreaticoduodenectomy with portal vein reconstruction, 37

White WA Jr see Watkins J; Letters, 418

Wiemers J see AANA Journal Course, Part 6, 61

Wilson JT, Pokorny ME: Experiences of military CRNAs with service personnel who are emerging from general anesthesia, 260

Winters J, Lee D, White WA Jr, Mundy S: Effects of topical lidocaine on successful extubation time among patients undergoing elective carotid endarterectomies, 99

Watters V: Isobaric spinal anesthesia: a suitable approach for a morbidly obese patient, 341 [correction, 428]

Work environment
Health-promoting collaboration in anesthesia nursing: a qualitative study of nurse anesthetists in Norway, 574; Descriptors of anesthesia support personnel from the perspective of practicing Certified Registered Nurse Anesthetists, 453

Workforce
Training rotations at hospitals as a recruitment tool for Certified Registered Nurse Anesthetists, 545

Wright EL, McGuinness T, Moneyham LD, Schumacher JE, Zwerling A, Stullenbarger E: Opioid abuse among nurse anesthetists and anesthesiologists, 120
